THE DAILY NEWS.

The Three Wives.

Three merchants went riding out into the West, On the top of a 'bus, as the sun went down; Each thought of his wife, how richly she drest, And the growing circumference of her new gow For wives must dress, and husbands must pay, And there's plenty to get and little to say While the milliner's bill is running.

Three wives sat up in Jane Clark's for hours.
And they told her to put everything down;
They ordered the silks, and they ordered the flowers,
And the bill it kept tolling up, gown upon gown;
For wives will dress, and husbands will pay,
Though perhaps they will be in a terrible way
When they're dunned for the bill that is running

Three bankrupts were figuring in the Gazette, On a Tuesday night, when the sun went down, And the women were weeping and quite in a pet,

For the dresses they never will show to the town.
For wives will dress, though husbands can't pay,
and bankruptry's surely the pleasantest way.
To get rid of the bill and the dunning.

Phillips' Provision Exchange.

CINCINNATI, October 16.—The great political excitement which has existed during the week past, has retarded all branches of business very materially, and the new change in affairs to-day will, no doubt, keep matters in an unsettled condition until after the Presidential election. The trade in provisions has been unusually small, and the little done has been entirely consumptive and for small amounts. There is no speculative deman! whatever. The stocks of all articles under this head are being steadily reduced in the West, yet with no greater demand than now exists, there will be plenty to carry us through to the new season which is on its eve of commencement. The market has been quiet during the week, with but little change in prices since my last, though it closes easier at quotations below, with some disposition to close out the remnants of stock at current rates.

Hose—are out little tabled of, yet for the future traders and drover; expect higher prices than they will probably realize, while packers prefer to wait until the time comes, and then pay current rates rather than contract ahead. Some sales have been made at 8c gross for early, for delivery by shaughterers; but they are telling the product to anxious currers of early stuff.

Mass Pork—The stock is very light and the demand small; \$31 has been the asking price, but sales connot re made at over \$30.60.

Lard—In view of new coming into the market than contract and and difficult to sell at 19c; some new prime steam has been sold at 1740, delivered this nonth.

RESOLVE

Ten Large Bottles of the Advertised Sarsaparillas, or Direct Diurctic Kem

PHYSICIANS wonder at the extraordinary power of RADWAY'S RENOVATING RESOLVENT in curing the worst forms of Scrofulous, Syphiloid, Chronic Skin Diseases, and its marvelous power in resolving calculous concretions, affording immediate relief and consequent cure of Diseases of the Kidney, Bladder, Liver, Lungs, Pancreas, Spleen. Its rapid influence in the cure of Diabetes, Incontinence or scanty, turbid, albuminous, cloudy urine; its almost instant efficacy in stopping itching and painful discharges from the Uterus and Urethre, Lucorrhea, Bloody Urine, and other unhealthy and weakening discharges;—and inquire wherein the SARSAPARILLIAN used in the Renovating Resolvent differs from ordinary Sarsaparillas! Sarsiparillian is the only principle in Sarsaparilla that possesses curative properties; all other parts of the root are inert and useless. One ounce of the extract obtained under Dr. Radway's new process for extracting the curative properties from vegetable substances, contains more of the true principle of cure than twenty pounds of the ordinary roots.

of the true principle of cure than twenty pounds of the ordinary roots.

SARSAPARILLIAN is only one of the ingredients that forms this truly wonderful medicine: and it is the only compensating remedy that communicates its purifying, cleansing and reinvigorating properties through the BLOOD, SWEAT, URINE, and other secretions, rocuring a harmonious functional action of every depraved organ and gland in the system. If the blood is corrupt, the Resolvent will make it pure. If the Lungs are ulcerated and sore, secreting thick phlegm and prurelest matter, the Resolvent will consent this deposit and repair the wasting lung with sound and healthy material. If the Skin is covered with pimples, spots, pustules, sores, ulcers, &c., the Resolvent will quickly removathese annoyances. If mercury is deposited in the bones and has accumulated in the system, the Resolvent will drive it out. If the Throat or Bronchial bones and has accumulated in the system, the Resolvent will drive it out. If the Throat or Bronchal Glands are ulcerated, the Resolvent will cure these signs of an early waste. Direct remedies, possessing only exclusive properties, are hurtful, as they increase the functional secretions of on-organ by suspending the constituent secretions of on-organ by suspending the constituent secretions of others; hence, a compensating remedy like the Resolvent; the only means of a permanent cure.

BEAR IN MIND THAT EVERY DROP OF BLOOD impregnated with the Resolvent and absorbed to supply the waste of the body, will make pure, sound and healthy flesh and fibre. The first dose that is taken commences its work of purification and increasing the appetite and flesh.
