-The Richmond Whig, which is controlled now by a distinguished gentleman who was one of its proprietors when John Hampden Pleasants was its chief editor, declares, in its issue of Saturday, that it believes that the bulk of the people of Virginia would be willing to extend the right of suffrage to negroes.

-There are symptoms of a reaction in Spain. Five hundred and sixteen ladies of Madrid have presented an address to the President of the Council requesting the preservation of the churches which have been ordered to be pulled down, and also the maintenance of other religious establishments.

The Baitimore American says that General Grant has already, in private conversation, expressed the hope that the adoption of an amendment to the constitution proclaiming universal suffrage, without distinction of race or color, will be one of the first acts of the approaching session of Congress.

-Congressman Dickey and Hon. E. Mc-Pherson are engaged in winding up the affairs of the late Thaddeus Stevens. The remainder, some fourteen million five hundred thousand, is mainly in primeval forest. Fully half of the 4,600,000 now under quasi cultivation is for sale, some of it even as low as one dollar per acre, and ranging from that up to twenty dollars. Good farms have, within the year, sold as low as three dollars per acre, and, in certain cases, even below that."

-A correspondent of the Chicago Tribune says : "The grade of General will be filled by Grant, unless Mr. Johnson is ungracious enough to wish to take a chance at it, but it is not probable that he will find any of the great main in the State, and are spent or invested Major-Generals willing to take his commission. in it, instead of going to swell the wealth So will a promotion be made to the Lieutenant- of the mill-owners and merchants of the Generalcy, and I incline to the belief that General Grant will follow the course o. his judgment, and nominate General Thomas. The Foreign Secretary, Berger, who was one of the conspirators, and who has turned State's evidence, testifies to the fact; and a letter, purporting to be from one of the United States legation, Porter C. Bliss, admitting the charges against Washburn, is adduced in confirmation. It is said, on behalf of Washburn, that this letter was extorted by torture, suil that Bliss, in letters to his friends, denies all the allegations. As Lopez is not a man to be trifled with, after he heard this tale, he did not pay much respect to the sanctity of the Ambassador, who found it convenient to leave promptly. ### Schiedam Schnapps.

OFFICE OF UDOLPHO WOLFE, Sole Importer of the Schiedam Aromatic Schnapps, No. 22 Beaver-street. New York, November 3, 1868. To the People of the Southern States:

the endorsement of four thousand leading member of the medical protession some twenty years ago, its proprietor was well aware that it could not wholly escape the renalty attached to all new and useful preparations. He, therefore, endeavored to invest it with strongest possible safeguard against counter-feiters, and to render all attempts to pirate it difficult and dangerous. It was submitted to distinguished chemists for analysis, and pronounced by them the purest spirit ever manufactured. Its purity and properties having been thus ascertained, sam ples of the article were forwarded to ten thousand physicians, including all the leading practitioners in the United States, for purposes of experiment. A circular, requesting a trial of the preparation and report of the result, accompanied each specimen Four thousand of the most eminent medical men in the Union promptly responded. Their opinions of the article were unanimously favorable. Such a preparation, they said, had long been wanted by the profession, as no reliance could be placed on the ordinary liquors of commerce, all of which were more or less adulterated, and therefore unfit for medical purposes. The peculiar expellence and strength of the oi of juniper, which formed one of the principal ingredients of the Schrapps, together with an unalloyed character of the alcoholic ele ment, give it, in the estimation of the faculty, marked superiority over every other diffusive stimu lant as a diure ic, tonic and restorative.

SCHNAPPS, was in reduced into the world under

These satisfictory credentials from profes men of the highest rank were published in a condensed form, and enclosed with each bottle of the Schnipps, as one of the guarantees of its genuineness. Other precautions against fraud were also adopted; a patent was obtained for the article, the label was copyrighted, a fac simile of the proprietor's autograph signature was at ached to each labe! and cover, his name and that of the preparation were embossed on the bottles, and the corks were scaled with his private scal. No article had ever been sold in this country under the name of Schnapps prior t the introduction of Wolfe's Schiedam Aromatic Schnapps, in 1851; and the label was deposited, as his trade mark, in the United States District Court for the Southern District of New York during that It might be supposed by persons unacquain'e

with the during character of the pirates who prey upon the reputation of honorable merchants by vending deleter ous trash under their name, that the pro tections so carefully thrown around these Schnappe would have precluded the introductions and sale of counterfeits. They seem, however, only to have stimula ed the rapacity of impostors. The trade mark of the proprietor has been stolen; the indorse ment which his Schiedam Aromatic Schnapps alon received from the medical profession has been claimed by mendacious humbugs; his labels and botties have been imitated, his advertisements para phrased, his circulars copied, and worse than all, dishonorable retailers, after disposing of the genuine contents of his bottles, have filled them up with common gip, the most deleterious of all liquors, and thus made his name and brand a cover for poison. The public, the medical profession and the sick for whom the Schiedam Aromatic Schnapps is pro scribed as a remedy, are equally intereste! with the proprietor in the detection and suppression of these

netarious practices. The genuine acticle, manufac tured at the establishment of the undersigned in Schiedam, Holland, is cirtilled from a barley of the finest quality, and flavored with an essential extract of the berry of the Italian juripe; of unequalled pu rity. By a process unknown in the preparation of any other liquor, it is treed from every acrimonious and corrosive element.

Complaints have been received from the leading physicians and families in the Southern States of the sale of cheap imitations of the Schiedam Aromatic Schnipps in those marke's; and travellers, who are in the habit of using it as an antidote to the baneful influence of unwholesome river water, tes tify that cheap gin, put up in Schiedam bottles, is trequently palmed off upon the unwary. The agents of the underrigned have been requested to institute inquiries on the subject, and to forward to him the names of such parties as they may ascortain to be engaged in the atrocious system of decep tion. In conclusion, the undersigned would say tha WANTED.—I WANTA MAN TO TAKE

he has produced, from under the hands of the inoradistinguished men of science in America, proofs un

he has expended many thousand dollars in surrounding it with guarantees and safeguards, which

Underno Wolffe, Esq., Present:

Dear Sir—I have made a chemical examination of a sample of your Schiedain Schinapis, with the intent of determining if any for-ign or injurious substance had been added to the simple distilled spirits. The examination has resulted in the conclusion that the sample contained no poisono-s or hirmful admixture. I have teen unable to discover any trace of the deleterious substances wich are employed in the adulteration of liquors. I would not hesitate to use myself or to recommend to others, for medicinal purposes, the Schiedam Schnapps as an excellent and unobjectionable variety of gin.

Very respectfully yours,
