All around and all above thee
Is the hushed and charmed air;
All things woo thee, all things love thee,
Maidon fair!
Gentle z phyrs perfume breathing.
Waft to thee their tribute sweet,
And for thee the sping is wreathing,
Garlands meet.

In their cav-rued cool recesses, Songs for thee the fountains frame; Whatsoe'er the wave caresses Lieps thy name. Greener verdure, brighter blossom, Wheresoe'er thy footsteps stray, O'er the earth's enamored bosom. Live alway.

Wheresoe'er thy presence lingers.
Wheresoe'er thy brightness beams,
Fancy weaves with cuaning fingers
Sweatest dreams.
And the heart forgets thee never,
Thy young beauty's one delight;
There it dwells and dwells forever,
Ever bright.

AFFAIRS IN THE STATE.

Spartanburg. The Spartan says: Many of our farmers are bringing in their cotton, and on Tuesday of this week, were selling at twenty-seven cents. We understand that corn is selling from the wagons at ninety cents, and peas about the same. Some of our planters are still holding their cotton for higher prices.

Darlington. The Democrat says: A faint effort was made during the Christmas holidays, on the part of the freedmen, to combine for high wages, but the danger of failing to get a good place had its proper influence, and the effort fell through. Planters have never before found it so easy to procure the hands they desired, on reasonable terms. We are glad to be informed that the majority of the contracts are for wages, the general rule being six dollars per mouth to a hand, the planter furnishing house-

room and rations. MUCH WEAR AND MANY WASHINGS .- I am MUCH WEAR AND MANY WASHINGS.—I am acquainted with a variety of sewing machines, and while ready to do justice to all, I greatly prefer yours, which I have used for more than three yours. Very slight instruction and ingenuity are required to use it. The needle is short and straight, consequently not liable to bend or break. It never misses a stitch, and makes a firm, even seam. I have used it on every kind of cloth, from delicate lace to heavy woollen, and find its work perfectly satisfactory in all cases. After much wear and many washwoolen, and midits work perfectly satisfactory in all cases. After much wear and many washings, the stitch rotains its beauty and firmness, even after the fabric has worn out.—[Mis. J. H. Yerkes, Rochester, N. Y., to Willcox & Gibbs S. M. Co., May, 1866.

The Charleston Money Market. THURSDAY, January 21, 1869.

Although the amount of general stock business done during the week has not been large, prices are firm and the tendency of the market is decidedly upward. The attention paid by the New York brokers has encouraged holders here to lock up their securities, and the impression is current that the abundant supply of money in the South, and the inquiry in the Northern markets, will push our choice bonds and stocks to much higher than the present prices. State bonds and stocks are looked upon as likely to improve, for the reason that no Southern State, of which we have knowledge, has a smaller debt in proportion to her resources and the productive capacity of the people. First-class railroad bonds are also in demand and promise to look up. City stock has been but little affected by the recent movements in the contested election case. Large sales were made yesterday at 57, and unless there is a blind and foolish panie, no contingency should run prices very low. South Carolina Pallroad shares are firm at 47. The bonds of the company are stiff

THE CHARLESTON MARKET. FOR THE WEEK ENDING THURSDAY, JANUARY 21.] COTTON.-This article during much of the week under review had a tendency to decline in consequence of the depressed condition of the leading markets, the staple at Liverpool receding from 111/2@ 11%d to 11%@11%d, and 11%@11%1 8 th for middling uplands; at New York, which opened at 2934@ 29%, the rates dropped off to 29%, 29%29%, and 28%@29 for New York middlings, while at this point factors have been generally firm, and only very gradually yielded to lower rates, the sales having ocen light at figures opening at 231/20 % Is for middling and fell off to 27 1/2 % 15 for this grade; but towards the close of the week the article became firmer, and Liverpool hardened to 11%@11%d, New York to 2914, and middling uplands here were yesterday quoted at 2814c % lb.

The great centres have been reported by telegraph as follows during the week: Say at Liverpool on Friday, January 15, the staple was active, sales 29,000 bales, uplands 11 Mall Md; at New York on the same day the fibre was a shade firmer, sales 5500 bales at 291/2029%c.
