heart is as warm, though it is often sad.

THE DAILY NEWS.

My Heart is in the Mountains.

Right nobly flows the River James
From Richmood to the sea,
And many a ballowed memory claims
A tribute of love from me;
But Western Tempe farther on—
Mother of limestone fountains!
My heart goes back with the setting sun.
My heart, my heart is in the Mountains.

There, where the fringe tree nods his plume,
Beneath the white pine's shade—
There, where the laurel drops his bloom
O'or many a wild cuscade—
There, where the eagle seeks his nest—
Mother of limestone fountains!

List to an exile's prayer for rest— My heart, my heart is in the Mountains

The wide expanse of the boundless sea,
Is a sight to stir the soul,
And there is a breadth of majesty
In the Western prairie's roll—
But give me the heights that milk the clouds,
And gather the dow in fountains!
Give me the peaks with their misty shrouds—
My heart, my heart is in the Mountains.

There's something blank in the landscape be And tame in the water's flow—

I pine for a mountain atmosphere
And a crug in the sunset's glow!

King of the Hills! Blue kidge that I love!
Feed still the vale with focutains.

From rock and dale and mountain cove—
My heart, my heart is in the Mountains.

Sehr John Aller. ——, Norfolk, Va—5 days. Oats. To the Master. Bound to Savannah and put in for a harbor. SAVANNAH, February 1:—Our market during the first part of the week exhibited great excitement, the sales of Saturday being the largest ever chronicled in the annals of the city, and were even chronicled in the annals of the city, and were even greater than reported, some puties going as high as 900 bales as about covering the actual transfers of cotton. Prices were on that day paid which have scarcely been matchaised, although our holders have been firm even under a much quieser tone on the part of buyers. 10-day factors are firm and sales are consequently small. We reached 29½ this week and close at 25½ for middling, with few sellers at that figure, the low r grades being cheaper relatively and commanding more act nition. We quote middling 28½; low middling 28½; good ordinary 27½c.

The receipts -ince our last have been 398 cales sea islands and 2.2611 bales uplands, sgainst 180 bales sea islands and 2.3630 bales uplands sgainst 230 bales sea islands and 2.3630 bales uplands corresponding week last year. Of this amount — bales uplands and 94 bales sea island rave been "through" cottons to Charleston. Ales of the week 12,514 b les.

Sza ISLANDS—The receipts of long stable cotton since our last report amount to 398 b gs, of which 63 were from Florda, by coar, and 336 from the islands and by the Atlantic and Guif italitond, a d of these 299 bigs we's Florda cottons. The shipments have been 317 tags to hurope, the North, and "through" to Charleston.

In sea is and sthere has been somewhat of a cesscition of demand, and unless at a concession from the extreme prices of the last few weeks, it was hard to induce busers to take hold; however, any slight decline would bring purchasers in. HOW OFFEN DO WE HEAR THE COMPLAINT, From mother and fether, that the son or daughter is not well; that they have no appetite; that they feel languid; that the head aches all the time; that they are growing thin and feeblo, and that they have no life nor energy lett. And the questions are often asked, What small I do for them? What shall I give them? Our answer is, let them try Plantation Bitters moderately, three times a day, and our word for it they will recover.
