April 10.—Sprints TURPENTINE— Opened weak, but reports gaining on Tueeday that three cargoes were to leave Wilmington this month, coupled with liberal purchases for export, gave an improved tone to the mirket, which closed firm at 51c abtipping. This was lost in the two following days by a combined movement on New York and Wilmington to break prices, resulting in sales here at 40a495, and as low as 44c in Wilmington, but at the close vesterday these prices were generally to Wilmington to break prices, resulting in sales here at 49a495, and as low as 44c in Wilmington, but at the close yesterday these prices were generally re-fused, as there were symptoms of the bears becom-ing buyers The combination for lower prices has received no little assistance from the severe money pressure, free receipts and the giving way of all the speculative holders, whose stock for two weeks past have be flooding the market; but these having now changed hands, we think it reasonable to look for an improvement under the promised re ief from export. On the week-our prices show a decline of ½~, and Liverpool his declined ½4½(1, on uplands, and ½4½(1 on Orleans. Early in the week, telegrams were received by cable noticing heavy imports into Liverpool. We see by the weekly report yesterday that the arr vals during the week must hive been about 125,000 bales. This has been the cause of the depression there, and we expect next week to see an improved trade and export domain, now that the supply on sale shows a better assortment.
