NEWS SUMMARY.

-Gold closed in New York yesterday at 33. -Cotton in New York was quiet at 283c; sales 1800 bales. -Major Charles O. Rogers, principal proprie-

tor of the Boston Journal, is dead. -Miss Van Lew, of Richmond, has decided that her proper title is postmaster and not

-The aurora borealis was very brilliant northward. The telegraph lines were much interrupted. -Count Bisms rek's two sons are to enter the

army. One is to join the King's Hussars at Bonn, and the other the Lancers, now garri- of the historic fact that the American Radsoned at Hanover. -In nearly all the North Schleswig Parishes the Prussian Government has substituted Ger-

man for Danish Clergymen, and the Danes abstain from church-going in consequence. from \$7 to 7 25 per bushel; and lettuce from Savannah, sold in New York for \$5 50 per bbl. -Let us not despair of the Republic. The

Imperialist, a journal established in New York not long since to advocate a monarchiosi form of government for this country, has died for want of support.

-Thore is to be a sharp struggle between Idaho, Montana, Utah and the White Pinc region-a trade likely to add largely to the wealth of the city that succeeds in controlling it. -The spirit photographers are undergoin

a criminal prosecution in New York. It will be remembered that they pretended to furnish the picture of a deceased friend, whose shadowy resemblance invariably appeared at the shoulder of the sitter, but was produced by ordinary scientific means. They declined to answer to the indictment.

-Don Piatt has suddenly become a trifle acidulated in his re narks upon Grant. Perhaps that " little business which occupied just ten minutes" did'nt turn out happily. At any rate, this is a bit of his recent sarcasm : "The bold, direct way in which Grant invited to his Cabinet the men who had made him bandsome presents, and then put all his relatives in office, took from the transaction any suspicion of a wrong intent. It was only laughable."

-Commander F. S. Fillebrown, of the United States steamer Narragansett, reports under date of the 7th instant, from Havana, the particulars of two passengers, Cubans, having been taken out of the American schooner Lizzie Major, ten leagues from the coast of Cabo by the Spanish fricate Fernando Catoli-ca, and imprisoned. The two persons were named D. Santiago A. Anible and Don Ramon V. Raivas. It seems that they took passage in the Lizzie Major at Tavana for New Orleans The schooner touched t Remedies, took in a cargo, and sailed on the 26th of March fer her destination. She was boarded the same day by the Spanish frigate, as above stated. The prisoners were carried back to Remedios and incarcerated. One of them is a lad of coupled with the right to vote. The free agent at that point, who made a demand on the Commandant of the Province for their release, who did not feel authorized to release them without orders from his superiors. The case having been made known to Mr. Hall, United States Cousul General at Havana, he has brought it to the attention of the Captain General of Cubs, who has ordered a thorough investigation to be made. The ground of the arrest is said to be that the names of the passengers were not on the manifest of the

-The foreign nominations as a whole are said to be very unsatisfactory to the Senate. although party fealty will secure their confirmation. Mr. Jay's assignment to Vienna is regarded as a first-rate second-rate sort of compliment, and his friends are the reverse of well pleased, except as to the small thankfulness with which commensurate favors are received. Mr. Jay has amassed a large fortune, and has acquired the reputation of a good deal of culture. Moreover, he directly r. presents a deal of subscription and the whele of the Loyal League. His claims were rated high, and they are felt not to have been duly rewarded. The supersedure of Henry Sanford at Brussels by the unknown J. Russell Jones, of Illinois, made great consternation in the Senate. "Who is Jones?" took the place of the conundrum, "Who is Borie?" and in every instance it was given up. There is a likelihood of Pile declining to go to Venezuela. Clay, to Liberia; and Bassett, to Hayti, are two negroes, one of Louisiana and the color of an old saddle; the other of Philadelphia and a genuine black. They are said to be men of ability and wealth. The nomination of ex-Senator John S. Z. Carlisle, of West Virginia, to be minister-resident at Stockholm, is to Radicals a decided surprise, to say the least. He is regarded as a cautious conservative, and his party status can be understood from the fact that he was a fair Democrat while senator from that State. Governor Curtin's going to St. Petersburg is commented upon merely as a proximate initiation of his-

-The Philadelphia press gives the following account of the experiments on the body of Gerald Eaton, who was hanged last week for murder: Arrangements were made by the friends of the condemned to have an effort made to resuscitate the body. Accordingly, a committee appointed for the purpose were in waiting at the prison at the time of the execution, and the body, wrapped in blankets, was brought to the university. The drop was four feet; the cord around his neck was a small one. He hung by his neck thirty minutes, and there were signs of life only four minutes after the drop. Ten minutes after being cut down, he was placed upon the table in the amphitheatre, the time clapsing from the execution being forty-four minutes. Six ounces of whiskey were injected into the bowels, and one gallon of pure oxygen gas was forced into the lungs, and a powerful galvanic battery applied to the medulls oblongate and the pit of the stomach. At the same time the tongue was withdrawn from the mouth, and the body turned from side to side, after the method of Marshall Hall, for artificial respiration. In four or five minutes a marked change occurred in the countenance; the chest gradually expanded, the eyes opened,

THE DAILY NEWS. | stethoscope, contractions and dilatations of the heart were distinctly heard. So evident were the signs of life that his friends exulted over the fact that he really lived. Another gallon of oxygen was introduced into the lungs, and the battery was charged so that the cur ent passed the entire length of the spine, and the artificial respiration continued. For a few moments the signs of life increased, but in a short time disappeared. Nitrous oxide gas was injected into the lungs by an artificial opening into the traches, made by Professor Duffee, but all to no purpose, and at the expiration of one hour DARLY NEWS, six months........... 3 00 and twenty-five minutes the experiment ceased, DARLY NEWS, three months...... 2 00 and the body was banded over to the friends.

CHARLESTON.

SATURDAY MORNING, APRIL 17, 1869.

The Ever Faithful Isle.

The Cuban insurrectionists have, according to the New York Tribune, become masters of at least three-fifths of the area of the Island of Cubs, and from the same reli- his theory is boundless, and his industry in able source we learn that the control of the Spaniards over the remainder is in jeopardy. The insurrectionists have an organized semi-military government, supported by an army of forty thousand men in the field, which could easily be doubled in numbers if arms and equipments could be had.

This sounds well, and is echoed and reechoed by the metropolitan and provincial press. It is a fine thing surely to sympathize with a nation struggling to be free. There is a flattering unction in the reflection that each public meeting and each leading article is a blow on the side of liberty. And in view ical is an ingenuous and disinterested mortal, who has never oppressed others or tied thongs to the whip of military tyranny, it is pleasant to hear these cries of sympathy with Cuba and with Crete, these appeals to Green peas, shipped from Charleston, S. with Cuba and with Crete, these appeals to C., were sold in New York last Saturday at the government to recognize the Cuban rebels, all these hints that the officers of the United States should wink at the expeditions which are being fitted out to sid struggling Cuba. It is true that Cuba is a province of Spain, and that, according to international law, the United States have not one tithe of the right to recognize the Chicago and San Francisco for the trade of Cubans as belligerents that England and France had to recognize the Confederate States. But who cares now for principle? Who cares for the right or the wrong of it when the question is to unshackle the human race, and at one fell swoop establish unqualified negro equality?

This is the secret of the friendliness of the Northern Radicals to the Cuban insur rectionists. The Democratic presses give the insurrection their support because they know that the Spaniards are treating their prisoners, and those who are suspected of giving countenance to the rebellion, with a bloody brutality which no Valley raider or spoon peculator could surpass; and also, perhaps, because they are willing that the Gem of the Antilles should fall into the lap of the Union, so that the Radicals may have a new and distant field in which to practice the arts of profitable reconstruction. But the anchor which prevents the Radical ship from breaking away from its moorings is what the Tribune calls the "moral value" of the unmistakable position which the "policy of emancipation and full enfran-'chisement of all their citizens."

We of the South had thought that a Car olina cotton field was an earthly paradise when compared with a Cuban sugar plantation, and we have, so far, no great faith in the moral value of emancipation about ten years of age. They were visited in men of the South have shown no capacity prison by Mr. Stone, United States Consular for self-government, and have fallen a prey to the oily tongues and winning ways of the political negro traders. Southern freedmen were, at the time of their emancipation, more intelligent and more capable of improvement than are the Cuban negroes, and yet the Southern freedmen are very far from being able to take good care of themselves, or to make just laws for the benefit

of themselves and others. It seems, however, that there is a virtue in ignorance. Because he was illiterate and dull, the Southern negro received the highest privileges which a man may enjoy. There was to be security for himself in his very want of knowledge, and security for others in his very stupidity. There has been some little jarring of the machinery, some sign that a fool who possesses power may soon become a knave. But the Radical party is a party of great moral ideas. and the more besotted and barbarous the Cuban negroes may be, the more will Radicalism applaud the revolution which dares

to set them free. We have of course no fondness for Spain; but on the other hand we cannot but feel that Cuba might be more prosperous under the yoke of Spain than under the rule of half a million negroes enjoying the right to hold office and the right to vote. What we desire is the freedom of Cuba, not its subjection to the rule of the negro; and we fear that the Cubans, in bidding high for Radical sympathy, forget what is necessary for their own safety, and embrace an unnatural doctrine which, if persevered in, will debase them and their people, and lead to the speady ruin of the "Ever Blessed "Isle."

The South Carolina Central Railroad

We print, this morning, the proceedings of a public meeting, held in Manning, on Monday last, to take into consideration the building of the railroad from Gourdin's to Sumter, of which we have spoken more than once before.

The meeting seem to have taken a practical view of the business before them, and we presume that by the time of the adjourned meeting, to be held next month, the committee will have made substantial progress in obtaining subscriptions to the capital of the road. They who cannot sub scribe money can subscribe land. They who cannot give either money or land can take contracts for grading, ditching, or furnishing sills and ties, payment to be made in stock.

We believe that the road will be of great benefit to Charleston, as well as to the districts through which it passes and to the Northeastern Railroad. We hope, therefore, that it will be encouraged on all sides one arm was drawn up, and, by means of a and receive a hearty and liberal support.

Reviews.

PREHISTORIC NATIONS; or Inquiries Concerning some of the Great Peoples and Civilizations of Antiquity, and their Probable Relations to a still Oider Civilization of the Ethiopians or Cushites of Arabia. By Jno. D. Baldwin, A. M. New York: Harper & Brothers, Charleston : Holmes' Book House.

Mr. Baldwin has undertaken a difficult task the construction of a history from the legends, idolatries and monuments of the primeval nations. In that vast cloud-land, where the morning light of civilization arose and whence its magical rays have not yet wholly disappeared, he undertakes to distinguish reality from romance. He believes that in the Cushites be has discovered the first world explorers, or at least the first world conquerors—the artists of the antique rock sculptures and the cyclopean walls, the priests from whom Egypt derived its inspiration, the circumnavigators of Africa, the metal workers of Spain and Britain, the teachers of the Age of Bronze, whose traditions and even whose arts still linger in the Indian Archipelago, in Arabia, in the heart of Africa, and among the lonely valleys of Peru. The author's confidence in collecting corroborative facts is equal to his enthusiasm. The result is a volume oracular, ga:rulous, entertaining-intolerant of Ushe and orthodoxy, deferential to Renan, and ro mantic and scientific incredulity. Unfertunately, the facts in the volume are selected, not sifted. Any authority has value which supports the theory of the book; thus Diodorus Siculus is allowed to testify to events which occurred before the Younding of Babylon. Mr. Baldwin has endeavored to repreduce the primordial past after a method which casts contempt upon the well established principles of historical criticism. He has not trav ersed much ground; he has collected many cu rious antiques; but he must strike deeper if he would bring to light the buried secret of

THE CHAMBER OF COMMERCE, at the meetng held yesterday, authorized the President, Robert Mure, Esq, to appoint ten delegates to represent the Chamber in the Commercial Convention, which meets in Memphis on May 18th. The objects of the Convention have already been published and explained in THE NEWS.

No. 34 BROAD-STREET.

CHARLESTON BRANCH LIFE ASSOCIATION OF AMERICA.

A PURELY MUTUAL WESTERN AND SOUTHERN LIFE INSURANCE

OFFICE OF CHARLESTON DEPARTMENT, No. 40 BROAD-STREET.

Net Assets of this Department Invested in this Community,

THIS ASSOCIATION WAS CREANIZED ON THE 22d of June last, only nine months ago, and has al ready secured an annual revenue from premiums on existing policies of nearly \$500,000 (Five Hundred Thousand Dollars). Its new business for th month of December was \$72,393 36, insuring the smount of \$1,157,000. Its new business for the month of January was \$86,524 71, insuring the amount of \$1,649,000.

One month's business being greater than that donby the largest and wealthiest Life Insurance Companies in the United States during the entire first year of their existence.

The Association was first started by the mos ealthy and influential citizens of St. Louis, for the purpose of changing the current of Life Insurance and Life Insurance capital from the East to the West and South, and as its plan is liberal and just to every section, State and district, the wealthy men of the West and Sou h generally are insuring their lives in it, to the exclusion of other companies This is shown by the fact that the policies issued during the months of December and January are of an averange amount of \$7,368 42, drawing an average annual premium of \$418 20.

The largest average attained by any other company in the United States is about \$40.0 to each pol cy, while the average size of all policies existing in his country is only about \$2500.

These facts speak for themselves. Officers.

THIRTY-FIRST ANNUAL PARADE

AND INSPECTION

CHARLESTON FIRE DEPARTMENT WILL TAKE PLACE ON TUESDAY, 27TH DAY (F APRIL, 1869. Companies will assemble punctually at half-past Nine o'clock A. M., on Citad'l Green. The procession will move precisely at Ter

o'clock, in the following order: MUSIO. Chitf, Assistants and Clerk of the Poard. Mayor and Aldermen. Charleston Hook and Ladder Company, No. 1

Charleston Company of Axmen, Picneer (Steamer, Eagle Engine Company, (steamer.) Vigilant Engine Company, (Band.) Phonix Engine Company, (Steamer.)

Ætna Engine Company, (Steamer.) Charleston Hook and Ladder Company, No. 2, Marion Engine Company, (Steamer.)

German Engine Company, (Hand.) Palmetto Engine Company, (Steamer.) Bone Engine Company, (Hand.) Washington Engine Company, (Steamer) Stonewall Ergine Company, (Hand.) Young America Engine Company, (Steamer.) Line of March.

oun to King, through King to Haseltreet, through Meeting to Broad, countermarching at New-street. The inspection will take place in Broad-street, in front of the Guardhouse, by the Mayor and Aldermen, after which the Companies will exercise in the following order: Hand Engines.

3. HOPE 1. VIGILANT. 4. STONEWALL. 2. GERMAN.

No. 2. Throwing up their Bed Ladder, ascending and de ending same as on last Annual Parade. Steamers.

1. PIONEER. 6. PALMETTO. 2. EAGLE. 7. WASHINGTON. 3. PHŒNIX. 8. YOUNG AMERICA 4. ETNA.

The exercises will begin by the Hand Engines tarting from the corner of Queen and Meeting streets, in the same condition as going to a fire, running four hundred yards, with eight men to the one thousand pounds weight of Engine, reeling off one aundred teet of hose at the termination of the four hundred yards, taking suction from the drain pit in Meeting-street, opposite Hayne, and playing fifty feet. As soon as the fifty feet is obtained the time will be called by Captain George H. Walter and W. G. WHILDEN, Esq., who have been appointed Judges for the occasion. H. B. OLNEY and A. STEM-MERMAN, Esqs., have been appointed Starting

The Chiefs, Assistants and Clerk of the Board will ommand the exercises of the day.

The Steamers will follow the same regulations except that they are allowed five men to the 1000 counds weight of Engine (not including Engineer and Fireman.) Steamers will be allowed to carry what water and such fuel as they desire. No men ber pulling on the Reels will be allowed to handle the Engines during the run. Fires to start l'ingines will commence when the word is given by the Start ing Judges, and Engines to be ready at ten minutes notice. Cold water must be in all the Boilers, and the Boilers must be cool. Any Engine having heated water in their Boilers will be ru'ed out after the fifty feet is obtained. Each Engine will be allowed to remain at the pit ten minutes, but not to exercise. Companies will give the exact weight of En gines, with the weight of water they intend to carry ave days before the Parade, to B. M. STROBEL Esq , Clerk of the Board. The Clerk will mark th time of each Company on a Board, which will be in a conspicuous place.

The Double-break Hand Engines will be allowed to use their lower breaks only, if they so desire, Visiting companies are requested to observe the new feature of exercise, and may select their time. The members of the Department are particularly requested to assist in keeping the run clear, and the citizens will please to remain on the sidewalks.

The kngines and Truck performing the work in

ne least time will be awarded the prize by Captain By order of the Board of Firemasters M. H. NATHAN, Chief Fire Department. B. M. STROBEL, Clerk and Superintendent. April 15

RE-OPENING OF THE OLD FOUR MILE HOUSE.

THIS POPULAR RESORT FOR TRAVELLERS The Percent about for TRAVELLERS has been re-opened by the proprietor. Mr. BUNT. The Barroom has been refitted and refurnished, and no pains will be spared to please visitors. The Four Mile House is near the terminus of the Shell Road, and is one of the most attractive resorts in the vicinity of the city.

April 6

ST. CLOUD HOTEL.

THIS NEW AND COMMOLIOUS BOUSE, LOCAT-ED corner of Broadway and Forty-second-street, possesses advantages over all other houses for the ac-commodation of its guests. It was built expressly for a first-class family boarding house—the rooms being large and en suite, heated by steam—with hot and cold water, and furnished second to none; while the cultinary denartment is in the most experienced the culinary department is in the most experienced hands, affording guests an unequalised table. One of Atwood's Patent Elevators is also among the "modern improvements" and at the service guests at all hours.

The Broadway and University Place Cars pass the

door every four minutes, running from the Hall to Central Park, while the Sixth and Fey Avenue lines are but a short block on either i affording ample facilities for communicating with all the depots, steamboat landings, places of amuse-ment and business of the great metropolis. MORE & HOLLEY, Proprietors.
