NEWS SUMMARY.

-Gold closed, at New York, firmer, at 367a -The New York cotton market was unchanged; sales 1700 bales at 311c.

-At Liverpool cotton closed firm at previous quotations; sales 12,000 bales. -Mr. Alfred Tennyson is travelling in Swit-

-A girl nineteen years old owns and works a

hundred-scre tarm in Iowa. -Hom', the Spiritualist, has been invited to

visit the Emperor of Russia. -Splinters from six "last ties" of the Parific Bailroad have been sold, and the supply is still

equal to any possible demand. Five English gentlemen have made a velocipede mutch to travel the entire coast tine of England, Scotland and Wales in September.

Energetic efforts are being made to render Paris a grand market for American seourities, and considerable success has been obtained.

-John Francis Maguire, M. P., has resigned his seat in the Cork Municipal Council. Councillor James Dwyer has been elected to the va--The Chinese in California are very skilful

in counterfeiting gold dust, and succeed in selling a good deal of the bogus article. This was once tried in Australia, but lynching stopped it. -Michigan forests can hardly hold out long

against the enormous drafts made upon them every winter. There is one jam in a river of the State and its branch sixty two miles long. The lower end us in the Titibawasse River; but no one could have expected that logs should get through a river with such a crooked name without sticking. -Uaptain Crawford, special agent of the

Treasury Department at Washington, who was recently sent out to examine the various kinds and qualities of kerosene used on steamboats on the Western waters, has ascertained by careful scientific tests and reported that nearly all the different varieties sold are in a greater or less degree explosive and murderous. The German citizens of New York are

making an active movement for the introduction of the study of their language in the publie schools of that city. They have organized a central and ward organizations, and have raised considerable money to further the object. The question has been submitted to the New York Board of Education for a report upon its desirability, and it seems to be thought it will be carried.

The fashionable circles of Brooklyn are disturbed just now by a well-founded report that the daughter of a wealthy merchant hving on the Heights eloped last week with her father's adopted the stage as a profession, and will appear at one of the New York theatres next au-

-An lows paper reports that as a man and his wife were at work in a field in that State, their chil i, which was in a baskot near them, was heard to cry, and the husband asked his wife to go and see what the trouble was. She, intent upon her work, delayed a few minutes. and then, to her horror, found the child dead, with a large snake coiled around it. The husband, in the frenzy of his anger and grief, struck his wife with a hos which he held in his hand, and killed her instantly.

-The Belgian pavement, now laid down in Fifth Avenue, New York is to be covered with a cost of concrete. This plan will give the latter style of pavement the best possible foundation, and the experiment thus inaugurated will afford a reliable test of its availability for a much used carriage way. The result is looked forward so with so little interest, as, should it prove to be successful, it is likely that the same course will be adopted in a good many other streets, and in other places besides New York.

-The Hon. Alexander H. Stephens has written a letter giving his views upon the legal status of the expelled negro members of the Georgia Legislature. Mr. Stephens agrees with the decision of the Supreme Court of Georgia that negroes are eligible to office under the present constitution and laws of that State ; and that the Legislature committed an error in expelling the negro members. He holds, however, that the action of the Legislature was final-that no appeal can be taken from it-and that the Legislature is not competent to reverse its own action in the premises after having once decided the question.

-The new Secretary of the Navy is under stood to have been recommended to the President not only by the gift of five hundred dollars towards Mr. Grant's house in Philadelphia. but also by his jovial temper. It is not surprising therefore, to learn that one of his first official acts has been to telegraph to Admiral Hoff to send home the steamer Fallapoosa, as he wants it tor a "pleasure party" of high officials. This will be good news to the officers of the Tallapoo a, who must find it quite a bore to be poking about the Caban coast to protect Yankee skippers from Spanish overhauling. Decidedly Robeson is 'jolly." And as for the expense? Well, 'that is not Robeson's affair,

you know.l -The Commissioners of Alabama appointed to negotiate for the annexation of West Florida to that State, having made a contract with the commissioners appointed on the part of Florida for the purchase desired, have reported the result of their labors to Governor Smith, of Alabams. The contract conveys to Alabama jurisdiction over all the country west of the Apalachicola River; vests in Alabama all the lands in the proposed territory now belonging to Fiorida, estimated at over 2,000,000 acres, and supposed to be of the average value of \$1 25 per scre, and the right of 5 per cent. of the preceds of the sales of the public lands. For this cession Alabama is required to issue to Florida 8 per cent. 30 year to know that the cotton and rice growing bonds to the amount of \$1 000,000, and to render certain aid to two raffroads radiating from Pensacola. If this contract is consummated it will add to Alabama about 10,000 square mites (8 400 000 acres) of territory, with a water

front on the Gulf of Mexico of about 180 miles,

ritory in question was estimated in 1867 to contain a population of 26,671, of whom 17 813 were white, and 8858 colored. The Governor of Alabama has approved the contract, but the final decision of the matter is left to a vote of the people of the two States.

-A company of Chinese athletes astonished the people of San Francisco, recently, with an exhibition of their agility. About fifteen of them appeared on the stage amid the din and clangor of gongs and kettle-drums. They first fought a sham battle with swords, cleavers, pole-axes, lances and short knives. The fenc Dank news, three months....... 200 | ing was very rapid, and each fighter was an expert. Still one warrior stood against a hott. He disarmed his antagonists as fast as they came; hurled them about the stage; stabbed them, hewed them with broad axes, backed them with swords, butted them with his head kicked them in the breast with both feet a once, and yet found time to execute handsprings and vaulting somersaults among them foes ard the half-naked rascals took to flight. He pursued. Some rough tables were ranged along the front of the stage to represent hedges rocks, logs and canks, which must ob struct pursued and pursuer alike. The runners vaulted the tables, turning lof y summersaults over each, and landing indifferently on their feet, hands, beads and backs, as the case might be and that, too, on a hard stage, covered only with a few strips of matting. The victorious fighter, a splendid acrobat, was always after them. Several times one of his fo would turn and face him, when he would bound high in the air, and plunging down, plant both feet in the breast of his adversary with such force as to send him headlong across the stage. The Alta says that if ever a troupe of these sturdy and well trained athletes were put to a fair test of physical activity and strength, they could handle a regiment of the lazy, lack-limbed, whiskey sodden ruffians and cowards who make a pastime of stoning, beating and throwing about Chinamen in the pub lie streets of that city.

CHARLESTON.

FRIDAY MORNING, JULY 9, 1869.

The Low Country and Chinese Immi-

The majority of the members of the State Agricultural Society live in the middle and upper counties where white men may do field work without injury to their health. This will insure the giving of proper attention to the subject of white immigration. and its encouragement by granting land, under proper restrictions, to actual settlers But the low country, which depends on the East for its laboring population, has some claim upon the attention of the State Society, and we hope that the Executive Committee, at their meeting next week, will give us all the information they possess in regard to the cost of Chinese laborers and the readiest way of procuring them. A society may be able to do more in obtaining schedules of rates, wages, rations and cost of transportation than an individual can do: and feeling that the future of the whole

low country depends on the importation of steady and industrious Chinamen, we are auxious that there should be no delay in giving shape to a matter so important. Fortunately there is but little difference of opinion in regard to the introduction into the State of the Chineselaborer. Here and there the fear is expressed that the Chinese may prove incapable of any solid idea of selfgovernment, and that they may be antagonistic to social and moral order and free institutions: but for this fear we see no coachman; while those of South Boston are hardly less agitated over the fact that a young lady of social position and culture, and one of the planters whose property is going to ruin the planters whose the belies of that aristocratic locality, has because they cannot obtain labor which is JACK-ON DELO trustworthy, cheap and competent. And JC MCBURNEY, Macon. Ga.

JC MCBURNEY, Macon. Ga.

W J LAWTON, Lawton & Lawton, Macon, Ga.

10AYLD TSINGL. TON. Planter, Eatonion, Ga.

RICHARD HOBBS, of Cruger & Co, Bankers, Al-

ing of "an inferior race," we must rememthe European, is undoubtedly the superior of the African, and that it will be many years before the Chinese can be so numerous as to affect the character of our beloved republic, even after they have remained here sufficiently long to become naturalized citizens. And if we admit that they may become so numerically strong as to be a political power, it will still be absurd to say that a form of government which includes as equal citizens four millions of Africans, will in any way be debased by the admission of a million or more of intelligent and ingenious Asiatics. The suffrage in this glorious republic is about as low as it can go, and its tone will be elevated rather than lowered by an infusion of John Chinaman. Moreover, the white immigration does not diminish. The Irishmen and Germans pass through the Narrows more rapidly than the Chinamen traverse the Golden Gate; and the white race will always have power to assimilate the Asiatic, and make him conform to European habits and customs. The tide of European immigration sets North and West;

the tide of Asiatic immigration sets South and East. Each race has its own appointed work; each has its own part to play in the mighty drams of Nature The mission of the African upon this continent is in process of accomplishment. By force of arms the negro slave was freed, perhaps at the moment when his value for our development was about to end. The responsibility lies not at our door; the burden is not ours. Men of little faith have thought that these sunny Southern States would relapse into a condition of barbarism. They were daunt ed by the brief authority of the freedman, and looked forward to political and indus trial ruin. They were wrong The world does not go backward; nor can one nation check for long the onward sweep of knowledge and civilization. When one race transfer its next analysis of the control of has done its part, another steps in to take its place, and so has the Chinaman been given us in the place of the African. Instead of the shiftless negro, we have men stead of the shiftless negro, we have men who have shown high capacity for improvement and learning—men who are peculiarly adapted to our glimate and to the character from all ages by Philip Schaff, D. D., Svo, cloth adapted to our climate and to the character of our productions. We make a forward stride in exchanging the African for the Chinaman. This is enough for our generation. The future, in God's providence, will

take care of itself. Sufficient it is for us

abundant prosperity than they ever were

while the African, who cannot improve or

THE DAILY NEWS. | including the harbors of Pensacola; St. Jo- | be exalted, was our only hope and stay. | St. Andrews and Apalachicola. The ter- | And in the North and West, and in the healthy districts of the South, the white p pulation will steadily increase. With the increase of population will come climatic changes which will enlarge the area in which the white man may labor and live. In the end, the Chinaman will be absorbed or displaced by the European, and this whole continent will be ruled and worked by white men, and by white men alone. Perhaps in those days a negro may still live to mourn the extinction of the American-African, and to bear witness to the universal law, that where race meets race in the battle of life,

the weakest must be extinguished. But, to return to our Chinamen, what we have to deal with is the scarcity of economical and steady labor on the seacoast. In supplying the deficiency by the introduction of Chinese-not coolies-we ask as he fought. At last he vanquished. All his for the co-operation and assistance of the Agricultural Society of the State.

### Insurance.

GEORGIA MUTUAL FIRE AND LIFE

INSURANCE COMPANY.

HAVING FULLY ORGANIZED OUR COMPANY on a sure and permanent basis, and having the comptroller's authority, we present to the Southern ple what we believe to be one of the safest and be Life Insurance Companies ever established in the Southern Country. The Home Office is in Macon. Georgia, where every dollar invested will remain in our midst. The galaxy of names, given as director and referees, is a sufficient guarantee of itself of the fidelity with which this institution will be managed The capital is sufficient to meet all losses in ever ontingency. We earnestly appeal to our citizens everywhere to build up with us this structure for the benefit of our loved ones, our homes, and ou

Hundreds of thousands of dollars are yearly abstracted from the pockets of our people, and carried to foreign parts to enrich strangers who have bu little sympathy for us.

Can we not learn wisdom and use our means to errich ourselves and beautify our homes?

We will try and place, in every locality, polite and efficient Agents to transact the business of the Company And we cordially invite all desiring agencie n this Company to call on the Officers, at the office building, near the Payenger Depot, in front of the two hotels, on Fourth-street, where all matters of cetail will be cheerfully given.

The profits will be entirely mutual after paying six per cent. to the Stockholders for amount of Stock guaranteed.

Hotels.

ST. CLOUD HOTEL.

THIS NEW AND COMMOL IOUS BOUSE, LOCAT-ED corner of Broadway and Forty-second-street, possesses a synniages over all other houses for the accommodation of its guests. It was built expressly for a first-class family boarding house—the reoms being large and en suite, heated by steam—with hot and cold witer, and furnished second to none; while the culinary department is in the most experienced bands, affording guests an unequalled table.

One of Atwood's Patent Elevators is also smong the "modern improvements" and at the service of guests at all hours.

guests at all hours.

The Broadway and University Place Cars pass the door every four minutes, running from the City Hall to Central Pack, while the Sixth and Feventh Avenue lines are but a short block on either side, iflording ample facilities for communication the depots, stoamboat landings, places of axusement and business of the great metropolis.
