Holiday hearts! 'tis weather for woolt g;
And holiday time is the best to woo:
At throo of thros le, and cuckoo's cooling,
The heart of men, and of maiden too,
Should leap at the thought that winter's over,
And shout when the dreatest day departs;
For summer is sweet to the love and lover,
And creathes her song into holiday hearts!

Holiday hearts! the wanderer wishes
To woo the girl he could love so well;
She's all to him—over the plates and dishes,
At table d'hote in the Grand Hotel;
But all too soom the romance is over.
He is Lily-but, d, and his dear departs
By night express with her maid to Dover;
Ah! sad break-up for the holiday hearts!

Hotiday hearts! the cricketer's crazy,
His team arrives at the town Torquay,
But the Captain shouts that his "leg" is lazy,
It is not the run, and is not the sea;
"Tis someoody e-se; as the eve discloses
Before the time for the team to start,
For there is the oricketer under the roses,
And making a match with a holiday heart!

Holiday hearts! the garden's pleasant,
When all the toil of pleasuring's done:
There's nothing so sad as the moonlight pred
And nothing so sweet in the world as one
Who over the lawn comes sweeping surely
With dancing weary a dheat oppress'd
Or is it with downcast eyes, demurely,
To say the riddle of love-time's guess'd?

Holiday hearts on Alpine passes,
And holiday hearts on the cockingy Bhine,
And ever so many in flow ring grasses,
Which round the Devonshire lance entwine.
Holiday hearts! to Scarborough scramble,
And many are dreaming on Windermere,
But double as many in Jersey ramble,
And more than all are on Margate pier.

Holidsy hearts! through June and after,
Throushout the honey of hot July.
There's nothing for you but your loves and Isugh
Till heest issues in the autumn die.
The aummer is long, and will not be over
Till all my ture, which you a'l love bee';
Eo away to the scent of sea and clover,
Oh! all I wish is a moment's rest!

KOOPMANSCHAAP. Who He is-How He has Aided Chin Immigration.

Mr. Koopmanschapp, the Chinese emigrant importer, left Memphis for New York on Friday, and will return next month to perfect

plans for introducing Chinese coolies. The By Louis, Republican, of the 15th instant,

cays:

One of the visitors on Change, on Tuesday,
was O. Kropmanschap, Eq. a gentleman
who, although a readent of the United States
but musteen years, har shready changed the relations and cost of labor on the Pacific shore; and
is now preparing to play a most important part
in his disposition of the social and conomical
problem resulting from the change of the relations between capital and labor in the Southern
half of the A lantic States. Arriving in San
Francisco from the place of his nativity, Am
steading, Holland, in 1850, his attention was directed to the labor question as then developed Fracisco from the place of his hanviry. Am steed-ma, Holland, in 1830, his attention was directed to the labor question as then developed in the Gedden State, the main feature of which was abundance of capital and the amost total hole of laborers. In this condition of society agriculture was neglected, mechanical industry among the most improvements, such as the construction of tellevals, were impossible and unthought of. An equathiance with and a moveledge of the labor demands and labor supply of the East Judies led him to the development of a Universe amigration to California. Establishing a house a minung Kong, he soom induced the shipment of a number of Asiatics to ban Processor, where he readily found employment as them, his house guaranteeing on one sile the primpt payment of labor wages, and on the other the equally certain rendition of assumes for a stipulated period, usually a tembramouth. The emigration mercased but allowly for the first few years, but as each supersching shipload returned after the expiration of their term of service, with more money than could be carried in the Flowery Kingdows in half a dosin auth terms, their neighbors, fired with a desire for wealth, forsook their native mids for a period to serve the barbarian whom they despised, and for the last ten years the boose of Kopmanschasp, in Hong Kong, has said employed its scores of brokers in each Ohmose province gathering together shiploads Throese province gathering together shipload of laborers, and its house in San Francisco has received by its own line of vessels its thousands of laborers, assigned them there laborem, assigned them their masters ed their food, and secured for then

By the aid of these houses the Central Pa-cial Radroad has been constructed six years earlier than would have been possible without the services of the Chinese laborers, and now Mr. Roopmanschap traverses the continent one to offer to show that road and us connected to to aid in making their desclate fields once again the garden of the world. In reply to inquiries, if the manual property is the state of the same of the same of the world. and sny difficulties as to breach of contract upon the part of the Chinese. Engaged for one year at a certain price, they labor faith-fully in California and in the Erst Indies for a

mes year at a certain price. Engaged and the part of the certain price they labor faithfaily in California and in the East Indice for a farm of years. He is not, however, prepared yet to say exactly at what cost they can be procured for the Bouth, and in this the cost of frameportation is no inconsiderable item.

The cost at present of bringing each individual to Ban Francisco is \$45, gold. The cost of frameportation of large numbers on the Pacific Rainroad has no yet been established. Mr. Moopmanschasp, however, believes that the cost to Ban Francisco can be materially reduced after the Memphis Convention will visit New York to ascertain exactly what reduction in railroad rates can be made, and is now confident that the whole cost of delivery to St. Louis will not be over \$100 in gold, or equal say to \$150 per month on an engagement for five years, which must be pail in a transcallation of the cost of the provided at once to hims to make arrangements for any number for which he may have crders—from 10,001 up—employing his Chimese brokers in every province of the Celestals next, year in February—the period when labor contracts are entered into there.

During Mr. K. Jopmanschaap's visitables he was desired to supply a large manufacturing establishment with fifty Chimese, which he offered to do, the men to be delivered in August or September, and to be paid \$1.25 per day, providing proper guarantees of protection and payment were given, and he will stop here on his return trip from New York, to complete the contract. The provise of protection may need arplanetion. In Cautornia the Chimese have been the receptents of much abuse and may had taken, or whose wages their competition had reduced. The abuse they laugh at, but the knock they desire some one cles should either receive or guard against. To this curd their comtracts with their importers include protection; and it is only upon this consideration and

BE CAREFUL WHAT MEDICINES YOU TAKE.

WHEN YOU ARF EXS AUSTED BY OVERWORK of head or hard, and feel the need of something invigorating, don't drink whiskey or any interies ing thing, whether under the name of stiters or otherwise. Fuch articles give just as much strength to your weary bods and mind as the whip gives to the jaded horse, and no more. Alcoholic stimulants are injurious to Nerve health, and are ALWAYS followed by DEPRESSING REACTION. Dodd's Nervine and Invigorator Dodd's Nervine and Invigorator is a TONIC and GENTLE STIMULANT which is NOI attended by REACHON. What it gains for you it maintains? When it refreshes body or mind, it refreshes with natural strength that comes to stay. We are not recommending tectoralism in the interest of any faction; but long and extended observation teaches us that he who recorts to the bottle for rest or recuperation, will find, as he keems at it, that he is kindling a fire in his bones which will consume the the fames of perdition. Turn from it. Take a tonic that will refresh and not destroy. DODD'S NERVINE is for race by all Bruggists. Price One Dellar. See Book of Certificates that accompanies each bottle.
