The Disease and the Remedy.

The injustice of the present system of taxation in the State lies in the administration of the law and not in the principle upon which the law is based. It is admitted on all sides that every man should be taxed according to his wealth, and that all property should be equally taxed at its ac-Equalization, however, in doubling and GREAT REDUCTION IN PRICES. tual market value. The State Board of trebling the assessments of the county assessors, and taxpayers themselves, set at naught the principle that all property should be taxed at its actual value. In this way the application of the law has been oppressive and unjust, and they who have JOHN MARCHMONT'S LEGACY, a Novel, by the amount for which they would sell their property are more than ever convinced that there is no hope of justice for the honest cit zen while a band of needy carpet-bag.

gers and scalawags control our public affairs. But the action of the State Board of Equalization, bad as it is, is not the grossest wrong of which complaint is made.

It is hard enough to be forced to pay taxes It is hard enough to be forced to pay taxes still when this is caused by a deliberately executed purpose of freeing one class from every kind of taxation. A letter from a Santee planter, which we print this morning, points out the glaring evils of the present condition of affairs, and hits the blet in regard to the immunity of negroes from taxation.

There is a tax upon his daughter's piano, his wife's watch, and the very spoon with which his children are fed. No complaint is made of this. We were told that all our property was to be taxed, and we know that pianos, watches and spoons, as well as stocks and bonds, horses, cattle and sheep, are articles of prop erty. But the same rule is not applied to the negroes, and we have good reason to believe that the collectors in Santee are no more careless in collecting taxes from the colored people than their fellow-collectors are in the rest of the State. We do not believe that one-tenth of the colored people for an immediate supply of coal and procure a pay any tax whatever. They are allowed to escape because they are Radical voters, and the white people must make up for

their shortcomings. In a matter of this kind it is useless to appeal to Governor Scott. He is too anxious for re-election to do aught that would stir the bile of the Union League or set the cheated freedmen against him. There is no hope in that direction, and in one quarter alone is relief to be found. These Radical rogues and thieves must be driven from the seats which they usurp. It can be done next year at the general eletions. There is no other way out of the woods. And each fresh instance of Radical injustice, Radical tyranny and Radical wrong should bind our people more firmly together, and make them more determined to work manfully when the time comes for the election of honest and trustworthy men.

The Annual Fair of the State Agricul. tural Society.

The first annual Fair of the State Agricultural Society will be held in Columbia on the second Wednesday in November next, and promises to be an exhibition of which we may all be proud. These Fairs bring the people together, encourage generous emulation, and give every farmer an opportunity of seeing for himself what his neighbors are doing, and in what particulars their plans or methods are superior to his own. They bring before the people all the latest inventions in labor-saving machines, they lead to the introduction of new and improved varieties of seed, and, in general, do important service in developing the material resources of the State.

But money is the sinews of an agricultural fair, and the Executive Committee cannot make the Fair a success unless they are liberally supported by the people. Columbia and the whole of the up-country counties have been generous in their contributions, but Charleston has lagged behind, perhaps in order that she might be able to give more than is given by her neighbors. However this may be, the circulars of the Executive Committee have so

kept entire control of such associations, and | in doing her part for the common good. Many persons may be unable to make a large donation, but they can make a small gift, and every one has it in his power, at least, to become a member of the society. Next year the Fair will, in all probability, be held in Charleston, and the way to make eroment. Ten cases of cigars, appraised at it successful here in 1870 is to do all that we can to make it a grand success in

Columbia in 1869. The annual subscription of the members is \$2, and a subscription of \$10 makes the donor a life member. This is within the means of every business man who has any thing to gain by the prosperity or to lese by the ill-fortune of the State. Most of our husiness men can do more than this, and will, we hope, make the donation of \$20 requested by the Executive Committee.

All subscriptions and donations may be forwarded to Colonel D Wyatt Aiken, at Cokesbury, who will give any further information that may be desired.
