CHEAP ADVERTISING.

THE CHARLESTON NEWS, the circulation of which is about twice as large as that of any other paper published in South Carolina, is the best advertising medium for all business men. For persons who want situations or servants; who want houses or apartments, or have them to rent; who want or who offer board and lodg- kinds from the old rooms to the new. The ing; who have lost or found articles of value, The News has no equal; and in order that all classes may have their wants supplied, we have ed to supply the public with everything in his adopted the following scale of CHBAP ADVER- line. THEMENTS, payment for which must invariably be made when the order is given:

offered to clerks, governesses, tutors, workboys, cooks and washers; board and lodging let; articles lost or found; houses, shops, offices and warehouses wanted or to let, and miscellameous wants of all kinds.

For each insertion of advertisements of the classes specified:

APPOINTMENT. - Mr. William Reed has been appointed a State constable. He has been connected with the police and detective forces of this city, and made a good officer.

THE NEW OPERA HOUSE.-The invitation tendered by the architect, John H. Devereux, to the citizens to xisit the Opera House yesterday, was taken advantage of by a number of ladies and gentlemen, who seemed much interested in the building and the operations

THAT BUNCH CASE .- THE NEWS learns that on yesterday Magistrates Kanapaux and De-Large received a communication from Governor Scott instructing them to proceed with the investigation of the charges against Magistrate Bunch. The Governor has heard both sides of the question, we suppose.

WILL GET HIS LICENSE. - We learn that the members of Council feeling fully satisfied that "tre will cut the sun and moon is the same have shown that they have the power to do as they please with the citizens, and have also carried out their equality ideas, will great him a license at the next meeting of the

THE GAZETTE.- Mr. James Brennan, a graceful and vigorous witter, who has for some time past been prominently identified with the cause Wenignism and with Irish-American journalism in New York, has become associated with Mr. L. C. Northrap in the editorial conduct and proprietorship of the Gazette. Under the anapices of Mr. Brennan, undying hostility to Raghab rule in Ireland will probably become a leading plank in the Gazette's platform.

THE OCTOBER MAGAZINES. — We have received the first number of the Rural Carolinian, the new agricultural magazine just issued by Messrs. Walker, Evans & Cogswell. A casual glance at the contents convinces us that it is far superior to any periodical of the kind ever published in the South.

The October number of the Nineteenth Century is also out, full, as usual, of lively, varied, and readable matter. We shill notice both these publications more fully in our next issue.

THE SUIT FOR DAMAGES -It will be remembered that a short time since the case of Charles Lafayette, negro, who sued Mr. and Mrs. Kinaman for false imprisonment, laying his damages at ninety-nine dollars, was heard before Magistrate Mackey, who reserved his decision until yesterday, when he gave judgment for the defendant, holding that, to sustain suits of this kind, "malice and absence of reasonable and probable cause are necessary; and in this case "both elements were wanting under the testimony of Lafayette himsolf." The decision is publised full in our ad-

vertising columns. TIMBER AND LUMBER.—Appended is a state ment of the number of feet of lumber and mill timber inspected in Charleston during the month of September. Owing to the low water in the Cooper. Ashley and Edisto Rivers and their branches very little mill timber is brought here: Two hundred and seventy thousand four hundred and sixty-nine feet of mill timhar and six bundled and ninety-seven thousand eight hundred and eleven feet of lumoer. Of this number three hundred and sixty-three thousand one hundred and forty-seven feet were brought here by the South Carolina Railroad, and two hundred and nine thousand seven hundred and thirty-right feet by the Northeastern Railroad.

WE PRINT elsewhere a card from Mr. F. W. Miller, editor and publisher—and who now was done. was printed that the "City by the Sea" was printed on the type in the job department of that paper, and that to prevent delay in the application of that paper, and that to prevent delay in the unblocking of the first number a few advertishment. ablies what he seems to think necessary for use own undestion. Justice to ourselves howner, requires test and trustworthy in-templish, that "The City by the Sea" was midd as the joint property of one of the specific station paper issued here, and the specific station of the second office. As to the of cialto of the centure, we are quite g that Mr. Miller should have the benefit of his own statement in our columns.

THE WASHINGTON LIGHT INPANTBY MONU-MENT .- At the extra meeting of the Washington Light Infaptry Charitable Association, held last evening, the plan offered by Mr. Markwalter, of Augusta, Ga., was adopted. Steps will be taken to have the monument erected as soon as possible. When erected it will be one of the most imposing in Magnolia Ceme-

The treasurer of the association gratefully acknowledges the receipt of afteen dollars from a lady at the North, through Miss Saltus, in aid of the monument to their dead.

A New Move.-The conversion of the Adger building into an Academy of Music, made it necessary that Mr. R. White should find other quarters for his mammoth stock of furniture. Mr. White engaged commodious ware-rooms just opposite his old stand, and for two days view to the wants of this market, should ensixty of John H. Davereux's active workmen were engaged in removing furniture of all of our country friends. long procession of workmen so busily engaged attracted a crowd of spectators. The moving in is now over, and Mr. White is again prepar-

THE STEAMSHIP GEORGIA. - We learn that this steamship, which was recently put upon Advertisements of situations wanted by or | the line between here and New York, was an English blockade runner during the late war men, mechanics, house-servants, porters, shop- and was captured by a Federal gunboat, while about thirty miles off the mouth of the Savanwanted or offered; apartments wanted or to nah River. The gunboat, in order to bring her to, firing a shot through, instéad of across her bows. It is related that a member of the crew of the gunboat, who had been captured on another blockade runner, a short time previous, but had enlisted in the service of his captors, noticed that the soles of the shoes of the sailors of the captured crew were very thick. Boing up to "privateer's dodges," he made an examination, and found that the soles were hollow and contained gold coin. There was a demand for privateersmen's shoes im mediately, and a considerable amount of gold was realized. The Georgia, or Karnak, as she was then named, was sent to New York and

THE GREAT SCARE,-Many wild rumors are affoat in the city and along the soast in regard to a "tadal wave," which, it is predicted, will drench our scaboard, about the end of the first week in the present month. The whole foundation for the apprehension which prevails, consists in the following paragraph from the London Times:

"Captain Saxby, of the Royal Navy, has call-"ed public attention to the following facts, "which, if verified by results, will prove a "curious instance of a priori reasoning: At 7 "A. M., on the ensuing October 5, the moon "will be at the part of her orbit which is "nearest the earth; her attraction will, there fore, be at its maximum force. At noon the "moon will be on the earth's equator, a cir-"cumstance which never occurs without mark "ed atmospheric disturbance; at 2 P. M. the "same day, lines drawn from the earth's cen-"tion and the sun's will, therefore, be acting "in the same direction. In other words, the "new moon will be on the earth's equator when in perigee, and nothing more threaten-"ing can occur of high tides and destructive "storms. Sir John Herschel has said that no "man jealous of his reputation will be a weath er prophet. The foregoing pre liction, which 'assumes to be grounded on ascertaining phy-"sical facts, is given with an air of perfect con-"fidence, and may be tested in the ensuing "autumn."

"The City by the Sea."

TO THE EDITOR OF THE NEWS. In your issue of yesterday, injury was done to me and the enterprise which I have undertaken, by the publication of an article alleging that the City by the Sea, a free advertising journal-the first number of which appeared on the preceding afternoon-is a "Radical venture in disguise, and that it is owned by the proprietors of a Radical city paper." I deny this statement emphatically. It has likewise been publicly denied by the editors referred to. The circumstances-and all of the circumstances-con nected with the publication are these, and i have no hesitation in declaring them: Anxious to bring out the City by the Sea at the earliest day practicable having already secured a large advertising ps tronage, on the eve of applying to a well-known princing office in Charleston to have the work done there, I was informed that the proprietors could not engage in the

undertaking from want of particular facilities. My experience with the press taught me that I could expect no aid or ec-operation from either the Courier or NEWS, because they are my rivals in enterprise, and I accordingly called upon Mr. Wm. S. Byan, a Southern gentleman, well known in the typographical profession of this city. After proper consideration he contracted to do the necessary work, and it

I frankly concede that the "City by the Sea" publication of the first number a few adver-tisements, already set up were borrowed from its columns—but they were interfed without my

knowledge or consent.

In conclusion, I will add that I have no de sire to be marty rised for the benefit of either of the journals reterred to: and those who have meeting the from hermood! mill not lead a wil-ing car to thanker calculated to dann the chaorder of a young man proud of his home and enterprise.
