ing extract:

Your National Executive Committee, created by you in National Convention assembled Janby you in National Convention assembled January 13, 1869, to urge legislation looking to the educational, material and political interests of the colored people of the nation, deem that they have at length arrived, in progress of their efforts, at the probable consummation of their hopes in so far as the organic law of the republic is concerned.

They recognize that the desired result in the anticipated announcement of the ratification of the Efferenth amendment to the Federal

They recognize that the desired result in the anticipated announcement of the ratification of the Fifteenth amendment to the Federal Constitution, which forbids any abridgement of the right of suffrage on account of the race, color or previous condition of any citizen of the United States. They feel that this amendment should, in the estimation of colored men, transcend in importance even the revered Declaration of our National Independence, inasmuch as it is the practical affirmation of rights of which the other was but the theoretical enunciation; therefore has it been determined that it is fitting to advise the general assembly of the colored people of every State and Territory throughout the length and breadth of the land, whenever the said Fifteenth amendment shall have been officially announced as ratified, in order to offer up prayer and thanksgiving to Almighty God, and prayer and thanksgiving to Almighty God, and in all appropriate ways to assure the world of our realization and appreciation of the righteous act of our fellow-countrymen in constitutionally securing to us that which has always been our just due, but unjustly withheld.

Easton & Co.'s Cotton Report, for the Week Ending February 11, 1870.

Week Ending February 11, 1870.

NEW YORK, February 12.—THE MARKET.—In our last report the market closed heavy at 25½c for middling uplands. Saturday the market was quiet and unchanged. The heavy receipts had no effect. Sales 1349 bales at 25½c. Monday, with heavy receipts at New Orleans, prices were weaker. Sales 1162 bales at 25½c. Tuesday prices were unchanged, and very little was done. Sales 1346 bales. Wednesday the market was quiet and steady. Sales 1535 bales. Thursdlay there was not much doing, and no change. Sales 1878 bales at 25½c. Yesterday there was some activity, and prices were steady. Sales of 3844 bales at 25½c.

During the week we have a dull, dragging mar The Colored National Executive Committee in Washington City, George T. Downing, president, and F. G. Barbadoes, secretary, have issued an address to the colored people of the United States, from which we take the following extract:

During the week we have a dud, rateging markets or proportion of the second continuations are 3cc lower on all grades, and Liverpool is 1-16d higher on uplands and 3cd on Orleans. We consider the difference of 14cc made by the broker's report between good ordinary and low middling too great. The steadings which Liverpool shows under our heavy receipts astonishes everybody. But the explanainess which Liverpool shows under our heavy receipts astonishes everybody. But the explanation may be as follows: According to most of the annual Liverpool circulars, it was expected that America and India would each give England 250,000 bales excess over the supply in 1869. Under this increase of 500,000 bales, prices were expected to range about 11d. It may be that the Indian accounts now being received indicate that no excess is to be expected. In that case the increase from America of 250,000 would be absorbed by the increased consumption (from 50,000 to 55,000 weekly,) and England would be no better off for supply than in 1869, when prices averaged 12% of or middling Orieans.

Bonsay.—The January exports were 36,000 bales to Great Britain and 8000 to the Continent, against 42,44 and 13,807. The exports for the first week in February, are reported to be 18,000 bales.
