STOP THIEF .- On Tuesday night, the 15th instant, two mare mules, a light bay and a black, both medium size, were stolen from Branchville The loss was soon discovered and the thieves pursued to Four-Hole Bridge, where, from indica tions, it appeared that they were making their way to Charleston or the islands by way of Bacon's Bridge. A reward has been offered for the arrest of the thieves and recovery of the mules.

LA RUE'S MINSTRELS .- Next Monday evening will inaugurate, for a brief season, the reign of burnt cork on the Academy boards. The min strel troupe which has been engaged is one of extraordinary merit, and comes to us bearing the unqualified endorsement of the press and public wherever they have appeared. Once they have heard them, our people, we feel sure, will thank Manager Ford for having secured them so rare a

THE BOARD OF FIREMASTERS .- At the regu lar meeting of this board, held at the Market Hall on Wednesday night, the presidents of the incor porated fire companies appeared and took their seats as members of the board. These companie have been recently incorporated by the Legisla ture, and claim their seats as component parts of the Fire Department. Nothing but routine busi ness was transacted, and the board soon adjourned.

OUR PRICES CURRENT .- We especially invite the attention of our merchants to THE NEWS Prices Current, issued this morning. Made up with the utmost care, and handsomely printed with entirely new type, it forms, with the business card of the house forwarding it, the most attractive and welcome weekly commercial circular that can be used. Price, for ten copies or more, with business car is two and a half cents per copy; single cooles five cents.

PERUVIAN GUANO .- The deposits of manure existing on the Chincha Islands, coast of Peru, are known everywhere for their great value as · land stimulants. This article has been in such extensive demand in all civized countries, that the original fields on the Chincha Islands are about being exhausted, and the Peruvian Government, which has for a long time enjoyed a valuable monopoly of these deposits, have opened new mines on the Guanape Islands, which will be for a time, at least, the main source of supply. The article which comes from this last point is said to be ful grequal to the best which was procured from the Chinchas. A cargo of about eight hundred tons, direct from Guanape, has arrived here and been purchased by Messrs. Geo. W. Williams & Co., who offer it from the wharf at sixty dollars per ton, gold. Its undoubted purity and value will cause it to meet with rapid sale. These gentlemen have at their office some fine specimens of crystals, impregnated with ammonia

and phosphatic eggs, taken from the deposits on

these islands, which for the student and agricul-

turist possess much interest. THE BENEFIT OF MRS. OATES .- The "Pride of the Market," and other pieces, will be played at the Academy of Music to-night, for the benefit of Mrs. Oates, the charming actress, who is already so great a favorite with all lovers of grace, skill and wholesome fun. Burlesque may be only a twig of the !: amatic tree, but it can be made the source of infinite amusement, while to perch there successfully the bola burlesquer must possess different powers, which are rarely found together. All these Mrs. Oates enjoys in an eminent degree. A spirited and careful actress, of graceful pres ence, the possessor of a rich, ringing voice, and having a full command of all the resources of the dramatic and lyric stage, the fair lady is as fascinating in comedy as in burlesque, and in pure burlesque is inimitable. The pieces chosen for to-night will display to good purpose the versatility of her genius, and it is expected that she will have a crowded house. On Saturday the present engagement of the Oates Company comes to an end, and for some time there will be no fresh opportunity of beholding again the "twinkling star of the lyric stage," whose benefit

EVENING SESSION. Grand Chapter was called on at 5 P. M. Companion Jaeger presented a supplemental report of the Committee on By-Laws. Adopted. On motion, it was

Resolved, That the next annual convocation of this Grand Chapter be held in Charleston. The officers elect were then installed, and the Grand Chapter closed in due and ample form till the next annual convocation.

The utmost harmony prevailed throughout the entire convocation, and the companions dispersed infused with new zeal for their ancient and honorable Order.

THE CATHOLIC FAIR .- The rain put a damper on all outside enjoyment last night; but the fair was comparatively well attended, and the evening was spent in an enjoyable manner. The at tractions have not diminished, and the entertainment is all that could be desired.

A VERY HIGH TIDE .- The spring tide of yesterday morning was unusually high, the low streets and grounds in the upper wards bordering on either river being flooded. The causeway of the Savannah Railroad dock, on Ashley River, was completely submerged, and the streets in the neighborhood of the Arsenal were impassable on account of their flooded condition. A horse with a loaded dray fell down while wading through In. spection street, and was rescued with some difficulty.

POCAHONTAS. - John Brougham's famous burlesque is a favorite in the United States, even in the "Old Dominion." where the blood of the gentle savage bronzes the cheeks, in fancy at least, of many a famous family. It is smart-and pungent; as full of puns as Gaelic is of consonants. and with as many funny situations as there are liquid vowels in the soft Tuscan tongue. The interest of the legend never flags; and if it can always be illustrated and adorned by a troupe like that which now occupies our Academy, the

H. R. H. Princess Pocahontas fell to the lot of Mrs. Sheldon, a distressingly bewitching dame for whom the universal Smith might well live and could hardly refuse to die. Miss Ida DeSoyer appeared as Di-mun-di, fixing herself more firmly than ever in popular favor. Mr. Alien was a glorious Powhatan, and his ripe, mellow, bass told well in the concerted music. All the minor parts were well filled, and the company played and sang with the clock-work precision and accuracy for which they are famous.

The intricate guitar solo by Mr. Hernandez was loudly applauded, as was the "Tumbleronicon." "An Alarming Sacrifice," a laughable farce opened the performances. Bob Ticket (Mr. Sheldon) was a capital bit of acting, and Susan Sweet Aprle (Mrs. Sheldon) and Tidblt (Miss De Soyer) were prettily piquante and touchingly

MASONIC .- The Grand Council of Royal and Select Master, of South Carolina met on Tues day morning, at Masonic Hall, in this city, and elected the following officers for the ensuing year

Companion A. G. Mackey, M. P. Grand Master. Companion B. R. Campbell, Thrice Select D. J. M. C. M.
Companion E. W. Lloyd, S. M. Hiram of Tyre.
Companion C. F. Jackson, Grand Treasurer.
Companion H. W. Schroder, Grand Recorder.
Companion J. A. Hoyt, Grand Marshal.
Companion J. Birnle, Grand Captain Guards.
Companion C. M. Miller, Grand Conductor of

Companion L. F. Meyer, Grand Steward. No important questions came up in council, ex cept two suggested by the address of Companien Mackey, Grand Master. The first was whether a Grand Council had the right to confer the degrees and the other was whether the Super Excellen degree was any part of the ritual of the rite. Both subjects were referred to the committee on correspondence, who reported in accordance with the suggestions of the Grand Master, that the Grand Council possessed the right of conferring the degrees, and that the Super-Excellent de gree was an innovation on the aucient landmarks and would not be recognized by the Grand Council. These are matters of great importance to Council Masons in this State.

THE RIGHT OF THE CITY TO IMPRISON .- The grand jury, in their presentment made yesterday, directed the attention of the court to the fact that persons arrested for alleged violations of the law by the detective force without legal process have been confined for fifteen days in the cells under the City Hall." The decisions of the Mayor's Court, in condemning persons charged with statutory offences to imprisonment in the Honse of Correction, were also considered a grave viola tion of the law, as no person charged with an in dictable offence should be confined in any other place than the county jail.

The arbitrary exercise of power by the police and other municipal authorities has been frequently questioned; and while the right of the city to punish all violations of its ordinances is not doubted, it is claimed that when fines are imposed and the offender refuses to pay, the Recorder's Court is the proper tribunal to which the case should be referred for adjudication, as the city has not the right to imprison until the fine imposed should be paid. This was tested on a point similar to that stated above on Tuesday morning before Judge Carpenter. A man who was fined in the Mayor's Court for an offence against a city ordinance refused to pay the fine, and was im prisoned. The case was brought before the judge on a habeas corpus, which was granted, on the grounds that the remedy for the city lay in the Recorder's Court, and imprisonment was illegal.

Chowns .- H. Larcomb, the president of the United Fire Company, colored, was presented at their last anniversary with a fine silver trumpet, valued at \$100.

The ball given by the German Fire Company, in aid of the German Lutheran Church on King street, given at the hall of the company in Chalmers street, was well attended and a perfect suc

The horrible din caused by the passage of vehi cles over the cobble stones, in the vincity of the courtroom, has ruffled the equanimity of the grand jury and they recommend that the county sioners replace the present noisy pavement with the Nicholson, or some other smooth and noiseless material. Joshua Thompson was arrested on Wednesday

for stealing a trace chain and other articles from the South Carolina Railroad depot, and turned over to Magistrate Kanapaux for prosecution. The McCulloch and Brignoli Italian Opera Troupe are billed for Atlanta on the 7th, 8th and

9th of March. The Berger Swiss Bell Ringers, with Anna Berger as the principal though not sole attraction, will open next week at the hall of the Academy of Music. LaRne's celebrated minstrel troupe will per-

form at the theatre next week. This troupe has an attraction in the shape of a male soprano voice-the only one, it is stated, on the continent. PRESENTMENT OF THE GRAND JURY OF

CHARLESTON COUNTY .- The following presentment, submitted by the grand jury, M. Caulfield, foreman, was read in open court on Thursday morning:

They recommend that the necessary lime and brushes be furnished the jailor by the county com-missioners, and that the whitewashing be done by a detail of prisoners under his supervision, thus effecting a considerable saving to the as compared with the cost of the same when executed under contract. They wou invite attention to the fact that some of the pri mers are almost destitute of clothing, and a due soners are almost destructed clothing, and a due regard for humanity and decency demands, that in all such cases the county commissioners should, upon the certificate of the sherin, furnish the necessary wearing apparel at the expense of the

They also examined the House of Correction, under the control of the municipal government of Charleston, and found it administered by the keeper with skill and efficiency, and its records well kept; but the allowance of food for the prisoners is insufficient, and its quality most in-

It this connection the grand jury deem it nocessary to state that they have been informed that persons charged with statutory offences are, in some instances, arrested by the police and imprisoned in the House of Correction. While this institution is, doubtless, a necessary agency for the punishment of offenders against the ordi-nances and police regulations of the city, yet nances and police regulations of the city, yet the grand jury regard it as a grave violation to confine any person charged with an indictable offence in any other place than the country jail.

They are also credibly advised that many persons have been arrested for alleged violation of law, by the detective force of this city, without legal process, and have been confined in the vaults or cells under the City Hall, for periods ranging from three to difteen days, shut out almost entirely from light and sir.

They carnestly recommend that this system of uprisonment be at once stopped, as dangerous to the liberty of the citizens and impeding the administration of justice.

The grand jury visited the Fireproof Building, and found that the improvements recommended by their predecessors at the last term for the preservation of the public records, and for other purposes, are now in course of execution.

The attention of thegrand jury has been invited to the wretched condition of the roads and bridges in some parts of the county, especially in St. John's Berkeley Parish, and to t'uparticularly they ask the early attention of the transit.

People's National Bank.

CHARLESTON, February 16, 1870. At a meeting of the Board of Directors, held this day, the following preamble and resolutions

were unanimously adopted: HENRY COBIA, the president of this bank, has een removed from our midst by the Giver of all good gifts : and while we bow in submission to the Divine will, we do not think it unbecoming to November 1st, 1869. give expression to our sorrows. Born and reared among the influences so dear to our people, he ecame a fair representative of that class which gives tone and character to the leading mer-

chants of our city. At an early age he began manfully to contend with life's practical realities, and by his steady industry, firm integrity and high moral worth, he advanced himself to positions of honor and trust, and held them to the last day of his useful life, without incurring the envy which so often follows closely upon success. A spirit of faithful earnestness marked his

whole career in the discharge of whatever duties he was called by his fellow-citizens to assume : and this striking characteristic contributed no little in securing to him the esteem of our community. If we can recall one more prominent feature than all which make the upright man, it was his strength of purpose which he invariably exhibited in the accomplishing of whatever he undertook to perform. Laboring with an untiring zeal, and devoting his whole energy and attention to attaining an end, who will feel surprise in reviewing the success which marked his way in life's earnest struggle? That success, that prosperity, are well known to us and to the community at large. Nor were his worth and usefulness appreciated by us alone-others claimed his helping hand and sought the aid of his clear judgment and the counsel of his valuable expe rience-others paid their tribute to his worth, and solicited his consideration. This he was ever ready to give, and, laying aside the thought of self, he contributed freely his time and the suggestions of a well regulated mind to the general prosperity of the community in which he lived. While we thus speak of him in his capacity of a citizen, it is not inappropriate to express our appreciation of him as a man. Those of us who enjoy ed the privilege of associating with him as compar ions in his hours of social intercourse, can well bear testimony to his urbanity and generosity. His warm, affectionate sympathy has often beined to smooth our difficulties in life; and his kind advice, so often and appreciatingly received, has contributed to remove obstacles and give light to our sometimes clouded judgment.

He has passed from us, and we are sensible of the deep loss we have sustained. Others will be called to assume the duties he so well performed: but the cares and influences of changeful life cannot rob us of his memory. The example of his life will be ever present to our minds, and if guided by a light so clear and actuated by motives as pure as were his, the same success must mark our end as that which crowned his efforts.

We feel assured that a community shares with us our loss, and that this simple tribute to his memory will meet with a response from every one who has an appreciation of excellence and worth. We unite with those who have sustained a greater loss in the severing of a more tender tie, n doing honor to his memory, and extend to them our earnest smoathy in their bereavement. Resolved. That in the death of our president, the late HENRY COBIA, this bank has been deprived of a highly valuable officer, one who has endeared himself to us, not only by his integrity and usefulness, but for those excellences of heart and mind so ravely united, and one who so largely contributed to the prosperity of this

nstitution.

Resolved, That a page in our minute book be ascribed with his name and dedicated to his memory.

Resolved, That a copy of this preamble and accompanying resolutions be forwarded to the family of our deceased president, and that these proceedings be published in the daily papers. Extract from the minutes

CHERAW, S. C., September 23, 1869. Wesses, Kinsman & Howell:

DEAR SIRS-In regard to Mapes' superphosphate, I think it par excellence the fertilizer of the present time. I have tried others, but they could not compare with this. After running off my cotton rows four feet apart, I threw two fur rows together and then split them out with a small shovel, sowing the phosphate in the drills; afterwards completed the bed. The cotton came double itself in the yield. I have no rust. My neighbor's crops are almost destroyed by it. I tried on turnips in the liquified state, three gallons of water to two pounds of phosphate; it acted like magic. I planted the seed on the 2d of August, and the flat Dutch, five inches in diameter, by the 3d of September. It was used on melons and in my garden; the yield was far more than without it; and during the protracted and serious drought, my cotton, melons and garden did not suffer in the least, as far as I could perceive. I will try hard to make it better known in this section of the State, for it is an excellent fer tilizer. Three hundred pounds is the proper panntity per acre for cotton; for turnips two hundred, and melons the same. If this will be of any use to you I shall be pleased.

Very respectfully, yours, JAMES H. POWE. (Signed)

From the time when, in 1834, Dr. RUGGE discovered "Carbolic Acid" and its extraordinary medical effects, nothing in the history of Medicine has equalled it. Largely used by the French physicians in treatment of consumptive and scrofulous diseases, it was introduced by the Court Physician of Berlin, MAX ERNST HENRY, into Prussia, and from thence to the United States. Nothing else of the present day can equal HEN-RY'S SOLULION OR CARBOLIC CONSTITUTION RENOVATOR. Patients get better after only one dose has been taken, and we cordially recommend it to the public .- [Editor "Argus." jan17 lyr

WHAT DOES REASON SAY !-The little mongoose when bitten by a deadly serpent resorts to a certain plant, cats of it, and escapes the effect of the poison. That is instinct. Human beings, on the other hand, must depend on reason and experience in selecting the means of protecting health and life against unwholesome influences. Now, what does reson say on this vital subject? Does it not tells us that to invigorate and purify the system is the best way to protect it against the invisible poison which generates disease? Surely it does. The next question is, what guide shall we follow in choosing a medicinal safeguard? Reason replies, let your monitor be experience. Well, the experience of eighteen years comprised in one unbroken series of satisfactory testimonials assures us that HOSTETTER'S STOMACH BITTERS posesses strengthening, regulating and antiseptic properties which are not combined in the same happy proportions in any other preparation extant This, therefore, is the antidote to which reason bids us resort when our health is imperilled either by the malaria which produces epidemic disorders, or by any other cause, whether inherent and constitutional, or connected with our habits, occupations and pursuits.

To escape the fevers, bilious disorders, disturbances of the bowels and other serious maladies produced by these insalubrious elements, it is absolutely necessary that the stomach and all the secretive organs should be, so to speak, in a robust condition. Upon the amount of resistance which the vital system can oppose to the deleterious influences that assail it, the safety of the health depends, and it is because the great vegetable invigorant imparts energy and regularity to the most important functions of the body, that it can be recommended and guaranteed as an invaluable preventive medifeb14 6D&C
