SALE OF SECURITIES.-Messrs. Leitch Bruns sold yesterday forty shares of Savannah Railroad stock, for \$26 37 %.

THE GADSDEN TIMES .- Mr. J. H. Francis, editor of the Gadsden Times, an influential Democratic paper published in Northern Alabama, is now in Charleston, and will wait upon merchants who desire to extend their trade in a wealthy and prosperous section of country.

REAL ESTATE SALES .- Messrs. R. M. Mar-Shall & Brother sold yesterday a small dwelling, Treasurer Levin, from the hour of opening, if they No. 14 Nunan street, near the City Railway, for \$405; one-third cash, balance in one and two years.

Mr. J. Fraser Mathewes sold a house and lot on St. Philip street near Line-the lot measuring 35 feet front by 130 feet deep, for \$275 cash.

OUR PRICES CURRENT .- We especially invite the attention of our merchants to THE NEWS Prices Current, issued this morning. Made up with the utmost care, and handsomely printed with entirely new type, it forms, with the business card of the house forwarding it, the most attractive and welcome weekly commercial circular that can be used. Price, for ten copies or more, with business cards two and a half cents per copy; single copies five cents.

CORONER'S INQUEST .- Joe Gates, the little colored chimney-sweep who was injured by an accident on the City Railway, died at the City Hospital vesterday, and an inquest was held by Coroner Whiting. The jury returned a verdict that the deceased came to his death by jumping of the front platform of the car while in motion. The investigation showed that he had called on a colored man named Brown to stop the car, but jumped off before it could be done. The conductor and driver are wholly exonerated from blame.

CRUMBS .- The agent of Grady's Circus, and the agent of Laura Keene, are both at the Pavil- his constant attention to the interests of the desion Hotel. The circus will be here in two weeks'

number has two illustrations and a variety of light reading matter. Storm and Sunset is continued. Will versus Power is concluded. The Bucket Shops of New York is a lively article upon a low subject; but the review of Du Chaillu's African discoveries is amusing and instructive. Ex-Governor Perry continues his pleasant Sketch es of Public Men. In two months the "Nineteenth Century" will begin its second year, and its readers are invited to renew their subscriptions promptly.

A WORTHY APPLICANT .- Richard Gayle, an oid and respected colored man, who did yeoman service for the Democratic cause in Sumter, is now in Charleston endeavoring to raise means to enable him to continue planting another year. His house and all of his personal property were consumed by a fire, set by some miscreant, and he has been compelled to appeal to his friends for support. He is well known in Columbia, having been an attendant on the Legislature for nearly thirty years, but does not assimilate with the present rules of the country. atributions will be gladly received at thi office and forwarded to their destination.

SHREDS OF STATE NEWS .- The dwelling of Mr. Henry D. Mahoney, about fifteen miles from Sumter, with all his household and kitchen furniture, family supplies, clothing, &c., was destroy ed by fire on the morning of the 26th ult. The origin of the fire is unknown.

Governor Scott has made the following appointments: Conrad Ehardt, treasurer Barnwell County; C. W. Brown, magistrate, Beaufort; David Sanders, treasurer, Oconee; Edward Livingston, treasurer, Chester; Robert C. DeLarge, land commissioner, vice C. P. Leslie; J. B. Mushington notary public. Charleston: James B. Porter, sheriff of Clarendon, in place of T. W. Aldredge,

General R. H. Anderson has determined to make his residence in Sumter.

THE SAVANNAH AND CHARLESTON RAILROAD COMPANY .- The announcement of the entire completion of this popular route to Savannah, Southwestern Georgia, Florida and Alabama has had the effect of advancing the price of its stock. At the public sale vesterday shares were taken at \$26 37. The debt of the company is stated at \$1,200,000, and the stock at \$30 per share would give as a total figure for the whole road in good running order \$1,500,000, less than \$15,000 per mile for 104 miles of as good as new road, with valuable connections already in existence and the "Yemassee and Millen" branch soon to be developed, which will give to this new and short route via Charleston the passenger travel to and from Macon, Columbus, Montgomery, Selma Vicksburg and New Orleans, and the great centres north. With such a prospectus, we would suggest to stockholders quietly to hold on to their property and not sell for \$26 to \$30, what is really worth \$100.

AMUSEMENTS. The Extraordinary Run of Humpty

Dumpty. That the pantomime has lost none of its attractions; that Humpty Dumpty has sacrificed none of his popularity; that, in short, people will continue to laugh at the antics of the Clown and Pantaloon, and wonder at the tricks and transformations, is pretty manifest from the large audiences that attend the Academy nightly. Being a profound and constant admirer of the pantome, it is a custom of our own to drop in at one time or another upon Humpty Dumpty, which, by the way, strongly resembles Walt Whitman's poetry, in the point that it amounts to precisely the same thing where you take it up or leave it alone. In Humpty Dumpty the net result is laughter. In Whitman it is nonsense. Being, as we have said, a custom of our own, we have a chance, therefore, of looking at the andience-of "feeling" the audience, as the elder Kean used to

say. The Humpty Dumpty houses being "felt," we are inclined to hold them to be the heartiest, most cheerful, best pleased that we have seen. But every deg must have his day, and even Humpty Dumpty cannot hold the boards forever to the exclusion of equally attractive novelties. To-night will be positively the last evening performance of the wonderful pantomime, an entirely new piece being underlined for Saturday

night. The children, of course, are all agog on the su ject of H. D. and the magic world of fun which he unfolds to their gaze, and of course they are all getting ready to go in throngs to the matinee tomorrow. We know, beforehand, what the crush will be, and we would kindly advise our little friends to be ready at the door with money for hope to secure good seats.

German Friendly Society.

CHARLESTON, March 2, 1870. At a meeting of the Society, held this evening, the following preamble and resolutions were manimously adopted:

We are constantly reminded of the uncertainty of human life, by the removal from amongst us of those whom we esteem and love; who have been endeared to us by long associations, but who have been torn away by the relentless hand of Death. Again is the Society called to mourn the loss of one who was connected with us for many years, both as a private member and as an officer. Mr. LENRY COBIA has been removed to that undiscovered country from whose bourne no traveller returns. Commencing the battle of life at a very early age, exercising great energy and perseverance, he succeeded in winning for himself the respect and esteem of his companions, and the confidence of his fellow-citizens. As an upright, honorable and successful merchant, his ntegrity was ever unimpeached; while he discharged the duties of public life, to which he was called by the suffrages of the people, with a single eve to the benefit and prosperity of his native city, for which he received the "well-done" of his constituents. His philanthropy was exhibited in titute orphans of the city, for promoting the happiness and welfare of whom much of his time was devoted.

In the midst of his usefulness, he has been callto Mr. W. F. Roberts, of Grahamville, who is a ed away, and while we reverently bow with submission and resignation to the will of Him who doeth all things well, we may be permitted to express our sorrow at the loss which we, in com non with our fellow-cititizens, have sustained in this sad bereavement. But we sorrow net, even THE NINETERNTH CENTURY .- The March as others which have no hope, believing that they also which sleep in Jesus will God bring with Him. Be it, therefore,

Resolved, That in the death of Mr. H. Cebia, the German Friendly Society has lost a valued member, endeared to us by long association and suavity of disposition.

Resolved, That a page of our Minute Book be inscribed to his memory, and that a copy of these proceedings be sent to the family of the deceased, with the assurance of our deep sympathy with them in the irreparable loss they have sustained. Resolved, That these proceedings be published in The Daily News and Charleston Courier.

THE SEASON AND ITS DANGERS. The human body is chiefly composed of tissue and fibres, as sensitive to every change in the condition of the atmosphere as the most delicate electrometer, or the quicksilver in a barometer

The stomach, the skin, the nerves, the lungs and the excretory ergans are especially liable to be affected by these variations, and the best de fence against their disastrous tendency is to keep the digestive machinery, which feeds and nour ishes the whole system, in good working order If the stomach is weak or disordered, neithe the blood nor the bile can be in a healthy state; and upon the fitness of these two important finide for the offices assigned to them by nature and the regularity of their flow, health in a great

When the air is heavily laden with chilling va pors, as it often is at this season of the year, the digestion should be an object of peculiar care. If it is weak and languid, the whole physical structure will be enervated. If it is vigorous, the entire organization will be strong to resist the un toward and depressing influence of a damp and vitlated atmosphere.

A pure and powerful tonic is therefore espe cially needed as a safeguard against the disease most common in the spring; and HOSTETTER'S STOMACH BITTERS, being the most whole some and potent medicine of the class at resent known, a course of it is particularly advisable at this period of the year. The stomach will thereby be toned and strengthened, the liver and bowels regulated, the nervous system braced up, and nature put in a state of active defence against the miasma which superinduces inter mittent and remittent fevers, rheumatism, nervous debility, headache, hypochondria and other complaints which are apt to assail the untoned and unfortified organizations. The body is strengthened without exciting the brain, and consequently no unpleasant reaction follows its reviving and renovating operation. feb28 6

DRATT'S "ASTRAL" OIL

Unlike many other Illuminating Oils, is perfectly pure and free from all adulterations or mixtures of any kind. It emits no offensive smell while burning, gives a soft and brilliant light, and can be used with the same assurance of safety as gas. Chemists pronounce it the best and safest Illuminating Oil ever offered to the public; and Insurance Companies endorse and urge upon consumers the use of the "Astral" Oil in preference to any other. It is now burned by thousands of families, and in no instance has any accident occurred from its use; a lamp filled with it, if upset and broken, will not explode. To prevent adulteration, the "Astral" Oil is packed only in the Guaranty Patent Cans, of 1 gallon and 5 gallons each, and each can is sealed in a manner that cannot be counterfeited.
