DESTRUCTIVE FIRE IN HAMBURG .- The Hamburg Brewery, Messrs. Legler Bros., proprietors, was nearly destroyed by fire late Wednesday night. Their loss is estimated at about \$5000.

CITY TAXES .- The time for the payment of city taxes has been extended to the 20th instant, when twenty per cent. will be added to all who fail to go up and pay their first third. We call particular attention to the notice of the City Treasurer in to-day's NEWS, as the twenty per cent. will certainly be added to all delinquents.

OUR PRICES CURRENT .- We especially invite the attention of our merchants to THE NEWS Prices Current, issued this morning. Made up with the utmost care, and handsomely printed with entirely new type, it forms, with the business card of the house forwarding it, the most attractive and welcome weekly commercial circutsr that can be used. Price, for ten copies or more, with business cards two and a half cents per copy; single copies five cents.

PATENT HARROW AND SEED-SOWER .- In the American Artisan of April 6, we find an engraving and a description of the patent harrow and seed-sower, invented by Mr. Augustine L. Taveau This invention is spoken of very highly, and was awarded a first class premium and gold medal at the late Maryland Agricultural State Fair. Mr. Taveau is a Charlestonian, who emigrated after the war to Chaptico, St. Mary's County, Mary land, where he now resides.

SOUTH CAROLINA CENTRAL .- The Sumte Watchman learns that a corps of engineers, of which Mr. George Earle is chief, is now engaged in making the permanent survey or location of the South Carolina Central Railroad, and that the work of grading has commenced at Gourdin's. This looks like something practical. The hope is entertained of being able to reach Sumter in twelve months. The people of Clareadon are moving in this matter in earnest, and through the energy of Dr. J. J. Ingram and others, the subscriptions in land have been considerably increased. Clarendon greatly needs railroad facilities, and we trust the efforts in this direction may prove successful.

"WHAT A MOON !"-To-night we will have an unusually large moon. In January, and also in March, there were two new moons, while in the intervening February there was no moon; which is a combination of very rare occurrence not having taken place for at least forty years past, back to A. D. 1830, further than which this deponent has not calculated. This peculiarity arises simply from the form of our arbitrary cal endar. But still more worthy of note is the natural fact, that we have an exact concurrence o full moon with the perigee of the moon's orbit; at which time the moon's apparent size is the largest it ever is. Such an occurrence cannot come oftener than once in twenty years (and 107 days,) and one so exact as this one is not likely to occur for several centuries.

CRUMBS .--- Yesterday was Thursday of Holy Week, sometimes termed Maundy-Thursday or the day of the mandate, "Do this in remembrance of Me."

The market will be closed at 9 o'clock this morning.

The row steamer of the German Fire Company is expected on the steamship Charleston, which will arrive to-day.

Captain T. B. Johnston has assumed the duties of postmaster at Sumter, and contemplates some decided improvements in the present building, looking to the comfort and convenience of the community.

D. O. Clark, A. Jackson and A. Smith have been elected trustees of the public schools for the school district of Christ Church Parish.

SORGHUM REFINER .- Quite a number of our citizens yesterday visited the refinery of Mr. P. G. Cart, (on East Bay,) one of the firm of the Stewart Manufacturing and Refining Company, of Kentucky, to witness the experiment of manufacturing first-class sugar and syrup from the Impliee cane. The experiments were eminently satisfactory. It seems to us that it would be advantageous for our planters to make their own sugar and syrups. The cane which will yie d from one to two hundred gallons of syrup to the acref is a certain crop, as weather does not in the least affect it. The machinery necessary for the manufacture of the sugar and syrup is very cheap, and not at all complicated. The matter is worth the attention of planters and others. The experiments will be carried on from day to day. The public are invited to attend.

The president stated that, as the society would have to appoint delegates to the May convention, he desired to know what number would, in the opinion of the society, be requisite.

REPORT OF THE EXECUTIVE COMMITTEE FOR THE MONTH ENDING APPIL 15. Your committee beg leave to report that their conferences with the committee from the South Carolina Institute, relative to the joint participa-tion in the fair, has resulted in the withdrawal of this society from all and any part in the matter. We beg leave to report the receipt from the Hon. Horace Capron, Commissioner of Agricul-ture, reports from the Department of Agriculture for 1850, 1867 and 1868, also monthly report for January. viduals and associations mentioned therein as ontributing works to the society. Dr. Horibeck read a letter from Hon. Wm.

Silmore Simms accepting the invitation to deliver the opening address before the floral exhibition of the society in May. The letter was received.

The president read a letter from the Agricultural Society of South Carolina, calling the attention of the society to a resolution recently passed, requesting the members of the Charleston County Society to become members of the old State

Society. The president stated that it was the impression that the society which tendered the invitation had dissolved, but this was not so; that the society's charter was perpetual, and if this society desired to accept the invitation it would be only to

drop its name and change it to that of the Agricultural Society of South Carolina, each member of this joining that society and unite with the old members of the other society, and work under its charter and privileges.

THE CAUSE OF CUBA .- We are now definitely nformed that the public meeting of those who sympathize with the cause of Cuban independence will take place on Monday next. We have received a note from C. Edward Fornes, secretary

of the Cuban Junta of this city, indignantly denying the truth of the recent Spanish dispatch, stating that the war was ended by the route and disbandment of the insurgents. Mr. Fornes claims that on the day following the date of this dispatch an engagement took place between the Cubans and Spaniards; and further that the revolution is now stronger than ever-the insurgent force amounting to 76,648 men of all arms.

ANALYSES OF LANDS .- At the close of Professor Shepard's lecture, on Wednesday night last, he presented the following analyses of rice lands on the Combahce River, and of sea island cotton lands on the Edisto River. The rice lands belong to Mr. Warren, and the cotton lands to Mr. Mikell:

GOOD FRIPAY .- Yesterday was Thursday of Holy Week, sometimes termed Maundy-Thursday, or the day of the mandate, "Do this in remembrance of Me." It is followed by Good Friday. which is set apart to commemorate the crucifix ion of Jesus. In England, Good Friday and Christmas are the only close holidays of the year, when the shops are all closed and the churches opened. The day is observed in the Greek, Ro man, Anglican and Episcopal Churches as a solema period of prayer and fasting. In the Catholie Churches of this city the prescribed services for the day, the Mass of the Presanctified and the Veneration of the Cross, will take place.

Good Friday is followed by Easter Even, the last day of Lent. It is a vigil. The first Easter Even was a High Sabbath; now it is but a Satur day, upon which, in quiet and sadness, are held the concluding services of Lent.

A SINGULAR CASE-A CUBAN GIRL RESTORED ro FREEDOM .- As we learn, day before yesterday Magistrate T. J. and J. G. Mackey granted a writ of habeas corpus upon application of E. Wiesto, attorney of Flora Osma, the application reciting that the said Fiora, who hves in Charleston, "is of African descent, and was born a slave in the City of Havana, on the Island of Cuba: that she is owned or claimed to be owned by one Fernando Osma, who married her half sister, Riter Osma, and who desires to convey her back to the Island of Cuba, where her mother now lives, in slavery; that she is fourteen years of age, and of sound mind and discretion, and that she does not wish to return to the Island of Cuba, for the reason that upon her return she would be a slave under the law of Spain." When the case came before the magistrates, they heard the testimony and decided that the Flora was the slave of Fernando Osma alleged, but as Riter Osma had prosluced the body of Flora and declared that she waived all claim to the custody of the said Flora, they would order that she be committed to the care of Mr. and Mrs. Edward Weston, she having selected them as her temporary guardians.
