Alonzo J. White will sell at 11 o'clock, at the old Postoffice, city six per cent. stock. DOTTON. Messrs. W. E. Capers and O. J. Pechard, who reside near Jacksonboro, S. C., have ten acres of cotton, the stalks of which are fourteen inches in height, and many already furnish six and seven furlongs.

ACCIDENT.—A little colored child, whose mother named Benjamin, and lives on Queen street opposite the medical college, fell from the porch of her mother's house, yesterday morning, and received such injuries as to render recovery almost impossible.

DEPARTURE FOR WASHINGTON.—Captain T. Spengler, who is so well and favorably known as the first master of the German Rifle Club, and of the Association of the 1st Friday night, will leave for Washington to-morrow evening. His many friends in the city will regret his departure.

CATHOLIC INSTITUTE.—The Rev. Father Garesché, who has conducted with so much zeal and success, the late missions at the Cathedral Chapel and St. Patrick's, has consented to address the Catholic Institute, this evening, on the occasion of the inauguration of their new hall, on Broad street, next to the Parochial School.

HOMESEAD BUILDING AND LOAN ASSOCIATION.—At the annual meeting, held on the 1st instant, the following were elected officers for the ensuing year: W. G. Whilden, president; C. P. Almar, John Heeseman, H. B. Olney, W. A. Kelly, directors. At a subsequent meeting of the board, Joseph Whilden was elected secretary and treasurer, and G. Lamb Blust solicitor.

SOUTH CAROLINA PHOSPHATES IN SPAIN.—A Spanish paper states that it has advised "that there is about to be built in Valencia an establishment for the manufacture of miners' artificial guano. This new product, which is composed of South Carolina phosphoric deposits, subjected to a treatment of sulphuric acid and sal ammoniac, is destined to become a formidable rival of the Peruvian guano, large quantities of which are consumed in that province."

"NEIN."—The approach of the census-taker has prompted some journalist to bring out Sax's funny sketch, which reads: Got any children? The Marshal said: To the lady from over the Rhine; The lady shook her saxon curls, And civilly answered, Nein.

HUSBAND, OF COURSE? The Marshal said: To the lady from over the Rhine; The lady shook her saxon curls, And civilly answered, Nein.

THE LECTURE TO-MORROW EVENING ON INFALLIBILITY.—The capacity of Hibernian Hall will assuredly be tested to the utmost to-morrow evening, on the occasion of the eloquent Father Garesché's lecture on the live topic of Papal Infallibility. The high reputation which the lecturer has gained among the Catholics of Charleston during his brief sojourn in our city, will draw a large audience, even to a less deserving object than the support of the little orphan girls in charge of the Sisters of Mercy.

THE UNITARIAN CHURCH.—ELECTION OF PASTOR.—At a recent meeting of the pew-owners of the Unitarian Church, the following gentlemen were elected to serve as vestrymen and wardens during the ensuing year: William Shephard, Alva Gage, Z. B. Oakes, George E. Gibson, N. M. Porter, Thaddeus Street, J. W. Harrison, vestrymen; S. G. Horsey, R. E. Brown, wardens. At a special meeting held last night, Rev. Dr. Cutler, who has so acceptably served the church for the past two years, was unanimously elected its pastor.

UNITED STATES COURT.—HON. GEORGE S. BRYAN, JUDGE, PRESIDING.—The following business was disposed of yesterday: District Court.—Christian Otto, of Hamburg. Petition for citizenship was granted. Ex parte Pope & Pope, in re Martin Chapin, individually and as survivor of firm of Summer & Chapin, bankrupt. Petition to be allowed a counsel was granted; as also in the cases of Pope & Pope in re J. H. Suber, and Pope & Pope in re Albert Wickham.

EX PARTE G. V. TOWNSEN, in re George W. Grady. Petition to establish lien. Referred to Registrar Clawson. Ex parte George D. Smith, of Spartanburg, W. R. Hinnclutt, of Oconee, Hiram C. Cooley, of Anderson, and Frank Cobb, of Greenville. Petitions for final discharges in bankruptcy were granted. Ex parte J. F. Norman, of Spartanburg, and Archy M. Smith, of Newberry. Petitions for final discharges in bankruptcy were referred to Registrar Clawson for final hearing.

EX PARTE J. H. HOOD, et al, in re E. E. Allison. Petition as to fee. An appeal for order of 18th of May, 1870, entered.

Hotel Arrivals.—June 6. CHARLESTON HOTEL. George L. Chapman, Port Royal Railroad; Mrs. M. Wallace, Maryland; B. F. Arthur, Miss Ella Arthur, New Brunswick; J. A. W. Tombs, Bennettsville; C. Huggins, Baltimore; S. F. Wile, St. Stephens; W. Bollman, Baltimore; T. L. King, Savannah; B. D. Gullett, New Orleans.

PERSONAL.—General Wm. Gurney has gone to New York, where he will remain ten or twelve days.

REV. L. H. SHUCK.—This divine, who has been quite sick for ten days past, is now rallying slowly. Although out of danger, he still suffers intense pain.

REVIVAL.—For some time past a revival has been in progress at the Citadel Square Baptist Church. On last Sunday morning twelve persons were baptized at this church.

SEVERE STORM.—During the heavy storm which prevailed last Thursday, a cotton-house near Adams's Run was struck by lightning and consumed. Seven or eight persons, who were in the building at the time, were stunned, but none injured.

COMMITTED.—The burglar arrested about 12 o'clock Sunday night, while attempting to enter the store at the corner of East Bay street and Adger's wharf, is named John Stewart. He has been turned over to the State for prosecution.

BUTTING OFFICERS.—The New York News, in commenting upon the recent butting of a prisoner senseless by an arresting colored policeman of this city, advises the police commissioners of New York to import a squad of two such policemen, and try the effect of butting upon the New York roustabouts.

GOING FOR PHOSPHATES.—Under an act of the last Legislature none but the Marine and River Phosphate Mining and Manufacturing Company have a right to dig for phosphates in the navigable waters of the State. Notwithstanding this, a large number of persons have been illegally digging for phosphates. The Governor, learning of this, appointed A. Habernicht and N. A. Quinn, of this city, to report all such persons. On a recent trip to the Stono River they discovered about three hundred men hard at work loading eighteen vessels with the material. These vessels could perhaps carry off about eight hundred tons of phosphates. It is estimated that about one thousand men and about one hundred vessels, barges, &c., are employed in illegally getting these phosphates.

CARMS.—There was more rain yesterday. A son of Shields Green, colored, who was hung with John Brown, lives in this city. The Mayor yesterday ordered two men, who had been disorderly, to pay a fine of \$5 each, or go to jail for ten days.

A considerable amount of real estate was sold in front of the courthouse yesterday by the sheriff. A colored man named Perenan was committed to jail by Trial Justice J. G. Mackey yesterday, to await trial for bigamy.

The Barnwell Journal says that the planters are getting alarmed for fear that they will not be able to deal with the grass that is coming up so fast.

We regret to learn the death of Rev. Mr. Holmes, who lives about five miles from Barnwell. Mr. Holmes, who lived to a good old age, has, for many years, been a zealous and most efficient minister of the Methodist church.

WEDDING OF HUDSON RIVER ORES AND SOUTH CAROLINA PHOSPHATES.—In the highlands of the Hudson, just around the point called St. Anthony's Nose, there is in course of erection extensive works designed to produce sulphuric acid in sufficient quantity to meet the demand for superphosphate of lime. In the manufacture it is used to render the phosphoric acid of crude phosphate soluble and fit for use as a fertilizer. In fact, these works are to unite in the bonds of chemical wedlock two crude, inert substances—the sulphur ores of the Hudson river and the phosphates of South Carolina, and to render them jointly capable of being vastly more useful than in their present condition. The means by which this will be done would require a long description to render it intelligible to the general reader. We must be content with stating that by the time the crude pebbles have passed through the vitriol kilns and chambers, and the crude phosphate has been milled and manipulated, they will have undergone a transformation which will render them active agents in producing a material as unlike either as could be imagined, viz: cotton; for to the use of superphosphates we are becoming more and more indebted for the successful cultivation of the great staple.

SUNDAY-SCHOOL CELEBRATION.—The First Baptist Church was thronged Sunday afternoon, the occasion being the anniversary celebration of the Sunday-school of that church. After singing and prayer, the assistant superintendent, Mr. O. F. Gregory, stated that the pastor, Rev. Mr. Shuck, was, owing to sickness, unable to be present. He then introduced Master J. Yates Snowden, who delivered a welcoming address. "The Land of Ben-hai" was sweetly sung by the school, after which the Rev. Mr. Vedder addressed the children, in the pleasant manner which has made him such a favorite with them.

After Rev. Mr. Vedder's address, Mr. Gregory spoke to the children, preaching them a short sermon. He reported the school as consisting of three officers, fourteen teachers, and one hundred and twenty-five scholars, (forty-six of whom are in the infant class,) with an average attendance of ninety-two, against a total roll of ninety-two last year. After urging the parents to visit the school, he appealed for aid to carry on the work. Master Campbell Douglas then addressed the teachers, cheering them in their labor of love, and urging the scholars to heed the lessons they had learned. He acquitted himself very creditably.

After singing "Shall we gather at the River," the benediction was pronounced by Rev. Mr. Vedder.

LADIES' FINE TRAVELLING TRUNKS.—Just received a fine selection of ladies' travelling trunks, among which are a few of the Eugenie Pattern Trunks. All tourists should have one. For sale by John Commis, No. 131 Meeting street. jun3-tus

BUSINESS ENVELOPES.—The News Job Office is now prepared to furnish good envelopes, with business cards printed thereon, at \$4 per thousand. Send your orders. Every merchant and business man should have his card printed on his envelopes.

THE HOT SPRINGS, BATH COUNTY, VIRGINIA. Professor J. L. CABELL, M. D., of the University of Virginia, Resident Physician. This renowned Watering Place will be open to visitors June 1st, under the management of JAS. A. MCOLLUM. No expense on either side will be spared to make these SPRINGS attractive to both the invalid and the pleasure seeker. The BATHS vary in temperature from 86 to 100 degrees Fahrenheit. THE PIONEER STEAM FIRE COMPANY—TO THE CITIZENS OF CHARLESTON: Would respectfully represent that the present condition of their apparatus and of their finances compel them to make that appeal to your liberality and public spirit, which has never yet been made in vain by the Fire Department of this city.

Our Engine, worn and injured in your service, demands immediate and extensive repairs. Our Hose, after faithful use for five years, is now unequal to the performance of its duty, and there is a balance due for the purchase of the Engine, still remaining unpaid.

The pay from the city has been greatly reduced and can contribute to no more than the current expenditures, and the resources of the Company otherwise are entirely inadequate to meet these necessities, or they would be cheerfully devoted to them without a call upon your aid.

We are willing and anxious to devote to your interest all our zeal and all our service, without recompense, and we only ask you to assist us to do so with that measure of efficiency which the magnitude of that interest demands, by enabling us to keep up our Engine and apparatus in proper order.

The oldest chartered Company in the Department, the Pioneer, in the introduction of steam power for the salvation of your property, ask you to look back upon the long years of its service, and to contribute to that efficiency that it is their pride and your interest to cherish and protect.

The following named gentlemen have been appointed a Committee to wait upon the citizens and solicit contributions to the aggregate sum of Two Thousand Dollars, for the purposes above set forth. J. E. BURKE, WILLIAM KNOX, S. S. BROWN, H. S. RENNEKER, E. T. SURAU, J. G. GOUTVENIER, W. P. RAVENEL, C. F. STEINMEYER, J. C. SIGWALD.

By order of the Company. A. T. SMYTHE, President. J. W. MCKENRY, Secretary. may4

A GRAND EPOCH IN SCIENCE.—From the time when, in 1834, Dr. RUGGE discovered "Carbolic Acid" and its extraordinary medicinal effects, nothing in the history of Medicine has equalled it. Largely used by the French physicians in treatment of consumptive and scrofulous diseases, it was introduced by the Court Physician of Berlin, MAX ERNST HENRY, into Prussia, and from thence to the United States. No thing else of the present day can equal HENRY'S SOLUTION OR CARBOLIC CONSTITUTION RENOVATOR. Patients get better after only one dose has been taken, and we cordially recommend it to the public.—Editor "Arxus." jan17

Special Notices.

THE HETEROGENEOUS CONFUSION of subjects in a newspaper, remarks a graphic writer, is singular to contemplate. What varied emotions, what opposite feelings, are excited in the breasts of different readers of a newspaper.

Here the ludicrous and the pathetic are met with in strange proximity; vice and philanthropy unceremoniously jostle each other; love and murder, births, deaths and marriages, politics and poetry, bankruptcies and fashionable movements, theatrical and religious notices, are here huddled together in grotesque confusion.

In the "advertiser's column" columns a strange mingling of opposites—here the honest finder of a sum of money honestly advertises it, that it may reach its rightful owner, and there the professional shark announces some gift enterprise or swindling lottery—here the wealthy capitalist offers his thousands to lend, and there is a touching appeal to the benevolent for assistance for some starving family—here an account of some plague, pestilence or famine sweeping off its thousands of human beings, and there the notices and recommendations of some valuable medicine for the re-establishment of health and the prolongation of life to the invalid, to the dyspeptic, to the nervous sufferer—and to these we would remark, *pari passu*, that one of the very best medicines for the cure of these ailments, now before the people, and which is daily advertised in all the papers, is the agreeable Tonic, sold everywhere, and extensively called for under the well-known appellation of SOLOMON'S BITTERS.

THREE REQUISITES OF HEALTH. If all the sickly people in the world were to take to their beds, and demand medical treatment, there would not be doctors enough to attend them, nor a sufficient number of the robust to nurse them. Three conditions are absolutely essential to health, viz: a good appetite, easy digestion, and the ability to sleep soundly. Sevenths of the many thousands who suffer from indigestion, yet do not labor under serious disease, complain that they "can't eat," or that their stomachs are "out of order," or that they "don't sleep well." For this class of ailments few persons think of calling in a physician. Nor is it necessary, inasmuch as a course of HOSTETTER'S BITTERS will certainly relieve the derangements of the stomach, the liver, and the nervous system, from which want of appetite, indigestion and sleeplessness arise. This excellent vegetable tonic and corrective is also a delightful anodyne. Insomnia, (or incapacity to sleep,) which has resisted all the ordinary remedies, will yield readily to a dose of this pleasant sedative taken just before retiring to rest. In ordinary medical practice it is usual to give a stomachic, an aperient, an invigorant, a soporific, or an anesthetic, as the case for the time being may seem more particularly to require; but in this grand restorative all these medicinal properties, and many others, are blended in due proportion. Thus the digestion is regulated, while the bowels are regulated, the liver toned, the strength recruited, the nerves calmed, the fluids purified, and the circulation equalized. It is believed that there is no other restorative and regulating medicine in the world which acts so beneficially and agreeably upon all the assimilating and secretive organs at the same time; and to all who lack the three fundamental requisites of health and enjoyment, a vigorous appetite, sound digestion and refreshing sleep, it is cordially recommended as a specific. jun3-6pac
