BUILD UP THE SYSTEM.

Strength evaporates fast at this season. This is especially the case with all who live by the sweat of their brow. From every pore of the skin a moisture exudes which contains the elements of vitality. Thereby the blood is impoverished, the nerves relaxed, the muscles weakened, the digestion impaired, the bowels disturbed, and the animal spirits depressed. The constant drain that produces these effects cannot be arrested, because it is due to the heat of the atmosphere; but the loss of the life-sustaining elements can be supplied by extra invigoration. Now, therefore, is the time to resort to HOSTETTER'S STOMACH BITTERS, the most powerful and healthful of all vegetable tonics.

Long experience has proved that nothing else will efficiently sustain and regulate the system, when writing down under the double pressure of excessive heat and constant physical or mental labor. All persons who have been tempted to try the local "tonics" (so-called) which have been started by sordid speculators, in almost every town and village, with a view of "turning a penny" by the credulity of the unwary, know this to their cost. It is a wise maxim that says, "Hold fast to that which is good." Of the forty millions of people in the United States, probably one-fifth have tested the restorative properties of HOSTETTER'S BITTERS, and know it to be a specific for dyspepsia, biliousness, nervous weakness, general debility, constipation, fever and ague, and want of appetite; that any of these should be persuaded to experiment with the worthless nostrums recommended by unscrupulous and ignorant empirics seems almost incredible.

THE BENEFITS derived from them in every community is lasting in their effects, and of incalculable advantage elevating the masses, and imparting among them a thirst for knowledge, and a desire for information on all the leading topics of the day, and on none more so than on Hygiene—the preservation of health and the prevention of disease.

This is now so marked and apparent as to astonish the intelligent observer, proving evidently that the people as a mass keep themselves informed of the hygienic reforms of the day, by reading with discrimination the various medical pamphlets and almanacs that are furnished them gratuitously—among the best of which is SOLOMON'S OMBAS for 1870, the medical text book for the people—in which will be found, by untested certificates, "the unrivaled tonic of the century" is SOLOMON'S BITTERS.
