Lost.—We call especial attention to the advertisement of a reward offered for the recovery of a plain gold ring.

BILL OF MORTALITY.—During the week ending August 13th, there were thirty-five deaths in this city—eleven whites and twenty-four blacks and colored. In addition to the above, three still-births were reported.

ANOTHER ROBBERY.—We learn that Dr. M. S. Hanelk was robbed last week of two gold rings, several articles of silverware, some valuable table linen, and \$50 in gold. Edward Peyton was suspected and a search-warrant obtained against him; all the articles were found in his possession, but Dr. Hanelk declines to prosecute him.

CLUBS AND STARS.—Susan Robinson was sent to the House of Correction yesterday. Cause, drunk and disorderly. Edward Stewart was fined \$5 and costs, or twenty days in jail, for beating his wife.

The parties reported yesterday as having been arrested on suspicion of being connected with the robbery in Mary street, have been turned over to Trial Justice O. R. Levy for examination.

THE RADICAL ROW AT SUMMERVILLE.—Mr. W. H. Schroder, of Summerville, assures us that the row among the Radicals in that place, referred to by our correspondent yesterday, occurred at some distance from his store, and not in the building as stated. He adds that the hall over his store is the only public hall in the village, and is rented for political meetings of either party and for other public gatherings. Irrespective of their object.

THE PRANKS OF HIGH CONSTABLE HUBBARD.—On the 19th of May last, William Hernandez received an appointment as special constable under State Constable Hubbard, at three dollars a day, and on the 22d July, Henry May received a like appointment. On Monday last Hubbard came to the city and said that there was no money in the State treasury, but that he had borrowed \$1200, and would pay them \$40 each for the whole time they had been employed, while from about \$80 to \$125, was due each of them; and then discharged them. Hubbard has thus been guilty of a double fraud; first, in employing men for whom he had no use, and second, for discharging the men without paying them.

THE TRIAL OF T. J. MACKAY, which was continued yesterday, resulted in his release. Several witnesses were examined, who testified that it was utterly impossible for him to have struck Hardy because of the distance between the parties. One witness, Richard Becket, confessed that he himself dealt the blow; he was standing behind Mr. Mackay at the time, and struck over his shoulder at Hardy, who was advancing upon Mackay, felling him to the ground. Mackay was acquitted chiefly on the strength of this confession. Becket was held for trial, but was subsequently released on bail. He is said to have declared, since giving his testimony, that he did not strike the blow, but was bribed to say so.

THE NUMBERS ON BROAD STREET.—Much complaint has very justly been made by our country prints against the irregularity of the numbers of the stores and offices on Broad street, particularly those in the neighborhood of Church street. Some years since, the City Council awarded a contract to certain parties for numbering every house in the city. If this work was properly done, how has the confusion arisen? And if not properly done, why are the mistakes not corrected? The Charleston Library Building, at the corner of Broad and Church streets, is No. 64, Mr. Barbot's drug store, next door, is No. 48, and the office of the Suedelcher Correspondent, next to it, is No. 70. East of Church street they are still more irregular—the numbers running 23, 36, 40; three houses without numbers, 44, 49 and 52. Two houses on the same street, some two hundred yards apart, are both numbered 48.

THE WASHINGTON CORNET BAND.—At a regular meeting of the Washington Cornet Band, held at their room on Tuesday, August 9th, the following preamble and resolutions were unanimously adopted:

Resolved, That we hereby tender our thanks to Captain Butler, agent, and to the conductor of the Savannah and Charleston Railroad, for the favorable arrangements and excellent accommodations in going and returning on said excursion.

Resolved, That the gentlemen of the committee, and the citizens generally, who so cordially received and entertained us in many ways, particularly with a very pleasant excursion around the harbor of Charleston, have, by their genial and untiring attention to our comfort, endeared themselves to us in a manner never to be forgotten.

Resolved, That we are under obligations to the superintendent of the Charleston City Railroad, for the free use of the street cars during our stay in the city; also to the members of the Ethna and Phoenix Fire Companies, for courteous reception.

Resolved, That we do hereby express our high appreciation of the presence of the ladies on the occasion of the concert on the Charleston Battery.

Resolved, That a copy of these resolutions be furnished the Charleston and Savannah newspapers for publication.

UNION REFORM MEETING, WARD No. 1.

The meeting was held at the South Carolina Hall, and was very largely attended by both white and colored.

On account of the absence of Mr. G. D. Bryan, Mr. J. B. Wilson was called to the chair, and the minutes of the last meeting read and confirmed.

The constitution was then read by Mr. Thad. Street, and, on motion, adopted by the club. On motion, it was ordered that the meetings of the club be semi-monthly.

The committee on officers reported the following as permanent officers of the Club: President, Henry E. Young; vice-presidents, O. A. Bowen, Bernard O'Neill, N. Feherbach, C. W. Townsend, James Riley, R. Issertel, A. H. Harper, Marlow Cochran, Jno. Henry Gilbreth, Jr. Recording secretaries—W. K. Steadman, N. D. Harper. Corresponding secretaries—J. Waring Mikell, Thad. Street. Treasurer—Wilson Glover.

Mr. Young, on being called to the chair, said that, for the first time in the history of South Carolina, the people had assembled to vote together for the good of the whole State, forgetting the little animosities and recriminations that had kept the people, identical in interest, apart. It was this union and determined will to put under ground a corrupt and oppressive government, that would enable us, as a people and a city, to retain our prestige in commercial circles, and to compete favorably with Savannah, Wilmington, and other Southern cities. The sole aim of the present movement was to organize a government that would not be the masters of the people, but the servants of their constituents. Mr. Young dealt some heavy blows against the corrupt Scott Ring, which met with merited applause, and declared the club opened for business.

After loud calls for Mr. Bernard King, that gentleman responded in his usual eloquent and impressive style, and claimed the attention of the club for some time, showing how the present government had practically kept the people in slavery, and had disgraced the high trust imposed on them to fill their pockets at the expense of their constituents, many of whom had been compelled to seek for their support elsewhere. The Reform party pledge themselves to use their best endeavors to form a good government, and to use the ballot-box and not the cartridge-box. The speaker here paid an eloquent and merited tribute to the candidates of the Reform party, Carpenter and Butler, whose record was unexceptionable, and who should be supported by all parties, classes and colors, who desire an honest government. If the contest is undertaken with such motives, success must and will follow.

Mr. Harper responded to loud calls, and stated that to-night he must ally himself with the colored people, and gave one of his cogent, humorous appeals, proving that if the people at large wanted to live and not be oppressed, they had but to ally themselves with the Reform party.

W. G. Rout followed in an urgent appeal to all, both white and colored, to unite in the great Reform movement, and release the State from the present oppressive government, and give to it a free and equitable one which would see that justice was done to all.

The Rev. Abram Jackson, from Mount Pleasant, then addressed the meeting, and showed that it was not only in Charleston that the Reform movement was felt to be a necessity, but the country was moving, and Charleston County would roll up a large majority. The speech was replete with humor and with wholesome truths that brought down the house.

Paul Drayton, from McClellanville, said that though a colored man he was a taxpayer for thirty years, and was convinced that equal rights and justice could only be obtained by adherence to the Reform party.

The meeting was then addressed by Mr. Mathews and others, and adjourned at about half-past 10 o'clock.

REFORM MEETING IN WARD 6.—The Union Reform Club met at Oppenheim's Hall last night at 8 o'clock. The report of the committee on the constitution and nomination of permanent officers was read and adopted, and the following officers elected: R. C. Barkley, president. W. H. Francis, R. Knobloch, Richard Hogan, Cyrus Fenwick, vice-presidents; John Gonzalez and E. Beard, secretaries; and W. T. Burge, treasurer.

The president was authorized to appoint a committee of six to nominate delegates to the central executive committee, the committee to report at the next meeting.

In response to loud calls, Mr. J. N. Nathans addressed the meeting in a forcible speech, setting forth the great fact that no issue of political principle was now at stake; the issue is between corruption and fraud on the one hand, and honesty on the other. He urged our people to go into the community and speak with every man plainly; convince the working people that they pay the expenses of government by direct and indirect taxation, and that those expenses have been augmented under the manipulation of Scott and his Ring, TEN MILLION DOLLARS in two years! He concluded with a glowing tribute to the past unspotted record of the standard bearers of the party, Carpenter and Butler, assuring the colored men that they were not the men to go back upon their record; they would maintain the right against all odds, and bring back to our noble State the honor and wealth of which she has been despoiled. His remarks were well received and frequently interrupted with great applause.

He was followed by Mr. William Black, who confined his remarks mainly to the colored men present, showing that every man must do his duty faithfully if he would enjoy the benefits of a true freedom, and that this was no time for the colored man to permit his action to be trammelled by the dictates of a Union League, a Loyal League, or other secret association, which was ashamed to bring its action squarely before the people.

Mr. Warren A. Sneed then took the stand, and we regret that all of the colored men in the city could not have listened to his strong arguments and humorous remarks. He felt sure of the success of the Reform movement, and predicted for the members of the Ring such a defeat that they should be glad to take the homeward track, not, however, to meet with a "well done, good and faithful servant," or "you have been a gentleman in South Carolina, come and be one among us," but "you have been rogues in South Carolina, come back to the place in the penitentiary which you occupied before you left." His remarks were received with great and merited applause.

Mr. W. H. Francis was then loudly called for, and made a few pointed remarks, exhorting himself from speaking more at length in consequence of physical disabilities. He warned his friends, however, that they must expect Winchester rifle arguments at the polls, but that he had proven the fact at McClellanville that the truth, plainly told, was more than a match for any Winchester rifle ever made.

On motion, a committee consisting of three members was appointed to make arrangements for obtaining a hall suitable for the purposes of the meeting. Messrs. Kanapax, Sneed, and Pattat were appointed.

On motion, the meeting then adjourned.

BAIG DETAINED.—The brig Lewis Clark, which arrived here yesterday from Baltimore, was near two months on the passage, having left that city June 25.

SEA MOSS FARINE IS CREATING a great sensation in the food market, and its uses, as set forth by the reports of scientific experts, are many and various. In the first place, when employed in the preparation of puddings, custards, blanc mange, creams, gels, and courses of other delicacies for the family table or the sick room, it adds largely to the quantity of nutriment derivable from the other materials, and in the second place renders the dish, whatever it may be, far more digestible and agreeable to the taste than it would have been without this cheap and pure ingredient. Such is the testimony of a large number of the most prominent hotel keepers in New York and other cities. It is being used largely in all the hospitals, and will prove a lasting blessing to the poor. For sale, wholesale and retail, at CORWIN'S GROCERY, No. 275 King street. aug15-mw3nac

SOUND LOGIC FOR THE SICK.—The invalid has often good reasons to exclaim, "Save me from my friends." As a general thing, each of them will have a different medicine to propose, and if he follows all their prescriptions in turn, their well-meant advice may be the death of him. The only sensible course in any case of sickness is to resort promptly to a specific which has stood the test of a long and widely extended public experience, and obtained on solid and sufficient grounds the reputation of a standard remedy. This rank among the restoratives of our day belongs of right, and beyond all dispute, to HOSIETTER'S STOMACH BITTERS. Let those who are taking it at this debilitating season as an invigorant, answer for themselves as to its tonic properties. Can any dyspeptic who has ever used it, question its superiority as a stomachic over every other medicine? Can any person of bilious habit, who has ever taken it for liver complaint, doubt its efficiency? It is believed among the tens of thousands who are now using, or have heretofore used it as an alternative and corrective, not one can be found who would exchange it for any other preparation in the known world. For intermittent fevers, nervous debility, constipation, sick stomach, and all complaints arising from indigestion or impurement of the blood, it is the only article which can be conscientiously guaranteed, and no one who is thoroughly acquainted with its virtues will allow interested dealers in worthless slops, on which they make a large profit, to furnish them in the place of the great vegetable restorative. aug12-6nac

A GRAND EPOCH IN SCIENCE.—From the time when, in 1834, Dr. RUGGE discovered "Carbolic Acid" and its extraordinary medicinal effects, nothing in the history of Medicine has equalled it. Largely used by the French physicians in treatment of comatose and scrupulous diseases, it was introduced by the Court Physician of Berlin, MAX ERNST HENRY, into Prussia, and from thence to the United States. No thing else of the present day can equal HENRY'S SOLUTION OR CARBOLIC CONSTITUTION RENOVATOR. Patients get better after only one dose has been taken, and we cordially recommend it to the public.—Editor "Argus." Jan 17 1870

AN APPEAL TO THE CITIZENS OF CHARLESTON.—The Niagara Fire Engine Company, No. 8, of Charleston, being desirous of rendering their organization more efficient for the preservation of property from fire, earnestly solicit the citizens in general to aid the Company in the purchase of a new Engine. The one they have has been in service since the year 1850, and being worn out, has become almost entirely useless. The Company have been using this Engine since 1861, and repairing it with their own means and without expense to the city. They are now compelled to appeal to the generosity of those whom they have heretofore faithfully served to contribute for the purchase of a new Engine that the Company may be enabled in the future to render more valuable services than in the past. The Chief and officers of the Department, as well as the whole organization, can bear testimony to our efforts as well as good order. We feel confident we cannot call on our citizens in vain. The following named persons are authorized to collect for the Company: J. H. GADSDEN, Chairman. J. B. BROWN, H. CHAPMAN, J. R. PINKNEY, H. CARROLL, WICKMAN, P. W. LEWIS, E. C. TUCKER, E. H. LYONS, J. Plantation Bitters.

That any sick man survived the treatment of fifty years ago, must be considered a proof that human beings are very hard to kill.

The lancet, calomel, cantharides and drastic purgatives were then the order of the day. The physician played into the hands of the apothecary, and the unfortunate patient was drenched morning, noon and night with prostrating medicines.

We live in a more rational and conscientious era. The importance of supporting Nature in its conflict with disease is now understood. Complaints in the lungs and throat, and all the affections of the chest, are now treated by artificial depletion. They are met with TONICS that rally the vital powers and enable them to defeat the enemy. Chief among these allies of Nature, in its battles with sickness, is PLANTATION BITTERS.

This wonderful vegetable restorative is the sheet-anchor of the feeble and debilitated. As a cordial for the aged and decrepit it has no equal among stomachics. As a remedy for the nervous weakness to which the tender sex are especially subject, it is superseding every other stimulant and nerve.

In all climates, tropical, temperate or frigid, it acts as a specific in every species of disorder which undermines the bodily strength and breaks down the animal spirits. Wherever it is introduced it becomes a standard article—a medicinal staple. Druggists, although their profit upon it is small, and it absolutely necessary to keep preparation for which everybody inquires, and for which nobody will accept a substitute. It is to-day the most popular medicine in the civilized world.

Extensively as it is advertised, its best advertisement is the beneficial result which uniformly follows its use. Every bottle sold insures the sale of at least half a dozen more. Unlike other stimulants, it braces and fortifies the system without exciting undue cerebral action.

The cheering effect which it produces upon the mind is not momentary, but permanent. There is no subsequent depression. It does not, as is the case with all other stimuli, beget a craving for excitement. On the other hand, it soothes and calms the nerves, combining, strange as the anomaly may seem, the qualities of a sedative and gentle anodyne with those of a tonic and invigorant.

The perfect purity of all its ingredients, their admirable adaptation to the purposes they are intended to subservise, the judicious proportions in which they are combined, and the scientific skill with which they are blended, render this famous article far above the most potent and the most harmless of all known tonics and alteratives. Sold by all Druggists. aug15
