

CITY AFFAIRS.

ADVERTISERS will take notice that we cannot engage that any advertisement sent to this office at a later hour than half-past nine o'clock at night will appear in the next morning's paper. An exception to this rule is made in favor of notices of meetings, deaths and funerals.

Meetings This Day.

Marion Lodge, at 8 P. M. Reform Club, Ward 3, at 8 P. M.

Auction Sales This Day.

J. A. Enslow & Co. will sell at 11 o'clock, at No. 1 South Atlantic wharf stores, corn and oats.

RANGE OF THE THERMOMETER at Joseph Blackman's drug store, No. 39 Broad street, August 25: 8 o'clock, 60; 10, 84; 12, 86; 2, 88; 4, 88; 6, 84; 8, 82.

PENNSYLVANIA MILITARY ACADEMY.—We beg to direct special attention to the advertisement of this academy, which deservedly stands high among the educational institutions of the country.

THE CLUB OF WARD 5 met on Wednesday night, appointed a committee on finance, and made arrangements for canvassing the Ward. Mr. J. Barrett Cohen delivered an address, during which he was frequently interrupted by a man named Gantt, who finally ran out of the hall, not, however, until he had stolen a hat belonging to one of the members.

OUR PRICES CURRENT.—We especially invite the attention of our merchants to THE NEWS Prices Current, issued this morning. Made up with the utmost care, and handsomely printed with entirely new type, it forms, with the business card of the house forwarding it, the most attractive and welcome weekly commercial circular that can be used. Price, for ten copies or more, with business cards, two and a half cents per copy; single copies five cents.

THE AIR LINE RAILROAD.—The Carolina Spartan says: "The surveys of the Air Line Railroad were here this week, and intended commencing to locate the road permanently from this place to King's Mountain. Contracts will soon be let out from this end. A mortgage has been executed for three millions six hundred thousand dollars by the president of the road, and thirty-six hundred dollars of revenue stamps cancelled. This looks like business."

PRESENTATION.—Yesterday morning, the "Comet Light Infantry" were presented with a really beautiful flag made for them by some fair friends of the corps, who are entitled to much credit for the execution of the work. Target practice at Cool Blow Farm followed the presentation, and yesterday afternoon "Major" Samuel Dickerson had a blue ribbon around his neck, from which hung a silver cup. Whether he "hit the bull's eye" or not we did not hear, but he certainly carried off the cup.

DEATHS.—Mr. J. R. Wicker, of Newberry, died on Sunday, aged twenty-seven.

The Rev. J. M. Woodruff, of Spartanburg, died on Tuesday night. The Spartan says: "Some eighteen months ago, Mrs. Woodruff had a dream that Mr. Woodruff was 'going on a long journey never to return' before the residence he was just then commencing should be completed, and strange to say, this house was just ready to receive its finishing touches, and he was taken to his home in heaven."

Mr. E. B. Brunson, Jr., of Darlington, died on Saturday, and Mr. J. S. McCall, of the same place, on Monday, the 15th.

RAILROAD ACCIDENT.—A diabolical attempt at wholesale murder was made on last Tuesday night, near Lane's Turnout, on the North-eastern Railroad. Some fender, worthy of being made a Scott's constable, placed two heavy bars of iron across the track when the up passenger train was coming. The night being very dark, they escaped the notice of the engineer, and the engine, "Daniel Barenel," one of the finest passenger locomotives in the State, was thrown from the track and badly injured. Two cars were also hurt. The perpetrator has not yet been caught, but search is being made for a party who are suspected.

THE TRIP OF THE CLYDE.—The new iron screw steamship Clyde, 1500 tons burden, built for the New York and South Carolina Steamship Company, left New York on Wednesday, for Charleston, with a fair cargo and passengers, on her trial trip. The Clyde, it is claimed, is the finest specimen of iron shipbuilding ever put afloat from an American yard, carrying 2500 tons of coal, and consuming only thirteen tons of coal per twenty-four hours, with an average speed of ten miles an hour. She has, also, very fine state room accommodations, and will attract attention on her arrival. By referring to the advertisement in another column, it will be seen that the Clyde will sail for New York on Thursday afternoon, 1st September, at 4 o'clock, from Pier No. 2 Union wharves.

THE THEATRICAL SEASON.—The prospect for theatrical entertainments of a high order during the fall and winter season at the Academy of Music, is bright enough to please the most exacting. Under the able management of Miss Laura Keane, we hear that we are to have, besides a season of her own fine company, a week of performances from the great American tragedian, Mr. Edwin Forrest; one week of the celebrated Ravel-Martineti pantomime troupe; one week of the great German Bistoni, Madame Maria Seebach; two weeks of the charming Chapman Sisters; one week of the incomparable Fox and his troupe; one week of the celebrated British Blondes; one week of those finished artists, Mr. and Mrs. Harry Watkins. These are assured us during the end of the New Year holidays, and before the winter opens—French, English and Italian—are promised. If the programme is carried out, there certainly can be no cause of complaint.

RIOT AT BLACK OAK.—There was a meeting of the Ring factions at Black Oak on Tuesday last, at which resolutions were adopted endorsing Bowen as "the regular nominee of the Republican party for the Second Congressional District," and announcing that "W. H. Mishaw is the county chairman; that we will support Gov. R. E. Scott and Hon. A. J. Ransier; that we condemn the attempts of the minority of the late county convention to overrule and override the majority of the said convention," and that the four delegates from this county, are instructed to support Edward Mickey for re-election to the House of Representatives, and W. H. Mishaw for State senator.

THE ADOPTION OF THESE RESOLUTIONS was by no means "unanimous," as has been reported; for the meeting broke up in the usual row, and two men were shot, one in the hand, and the other in the foot.

AFFAIRS IN CHRIST CHURCH.

Long vs. Short Cotton.—The Caterpillar.—Politics.—A Noble Religious Meeting.

MOUNT PLEASANT, CHRIST CHURCH PARISH, August 24. TO THE EDITOR OF THE NEWS.

A word from this section, I presume, will not be disagreeable to you or your readers. We have fine weather here at present, and the sea island cotton crops are, generally speaking, doing tolerably well.

The long cotton lands which were planted this year in short cotton, have not succeeded as well as we expected; in some cases an entire failure has been the result. I have noticed in the same fields where long and short cotton have been planted (divided only by a road) that while the latter is seriously injured by rust, the former is in a green and flourishing condition. In other fields where short cotton has been exclusively planted, the rust has been taken to the crops and cut it off considerably.

In low flat lands on the beach, in a dry season, short cotton may be very well, but I do not think that short cotton is adapted, as a general thing, to our long cotton lands. Long cotton at sixty cents per pound pays better than short at eighteen cents. For instance, take an acre of long cotton—

75 pounds lint at 60 cents..... \$45 00 Increase in expense of gathering and picking sea island cotton over and above short..... 2 00 Picking 400 pounds seed (75 pounds lint) at 4 cent (more)..... 2 00 Aching, 1/2 cent per pound, 400 pounds..... 2 00 Ginning, 1 cent more than short, 75 pounds..... 75 Mowing..... 65 Cost..... \$54 00 Profit..... \$39 00 Short cotton per acre, 150 pounds at 18 cents..... 27 00 Amount in favor of long cotton per acre. \$12 00

To the above can be added the seed of long cotton, which is worth from forty to fifty cents per bushel; seven to eight bushels, or about six bushels, worth two dollars and forty cents, while the short cotton seed is worth only twenty-five cents per bushel.

It takes the same labor for us to work the short cotton as for long. Of course the more manure used, the greater yield of both, but the proportion is about double the quantity of short to long.

The caterpillar has appeared at several places, but has not as yet inflicted any damage. Should they be destructive and spread, the planters throughout the parish would suffer severely. The general impression, though, seems to be that they will fall in their attempt this year to ruin the farmer.

Messrs. Knox and Wheelock, enterprising Northern men, such as we will always welcome among us, have enlarged their accommodations at Hobcaw, three miles from this village, for the reception of the steady staple, and have fitted up the best of machinery for ginning out crops of both long and short cotton. Mr. R. S. Venning has also erected, on the old Lucas Mill site, half a mile from Mount Pleasant, a large steam gin house, where, with his experience, he will no doubt secure a large share of patronage.

In regard to the political situation, there has been a change in the sentiments of some of our colored population. Could the Judge and his able assistants give us a stirring up, it would help the cause materially. We presume he will not pass us by, but is reserving for us his share in the winding up of the campaign. Last, but not least, we have been blessed with a protracted meeting, held by two able divines from your city—Messrs. Girardeau and Mack.

From Friday until Monday night we have listened seriously to those servants of God, pleading with all the eloquence that truth and sincerity of purpose could excite, that God's spirit would rest upon this community and effect a change in our hearts. No one unimproved the touching and earnest appeal of that eminent and learned minister of Christ (the Rev. Dr. Girardeau) on the last night of his stay. "God seed has been sown." "May it bring forth fruit in due season." "May his unselfish devotion to the cause of Christ, in the salvation of souls in our midst, be not unrewarded. May he live to see the good effects of his preaching." WANDO.

CLUBS AND STARS.—Ellen McGilfry was sentenced to pay a fine of \$10 or go to the House of Correction for twenty days, for abusing a policeman.

John Mulcahy was overhauled by the detectives for keeping a junk shop without a license, and was fined \$5.

Thomas Fiedling was sent to jail for twenty days for beating his wife.

Elijah Simmons stole a lot of tinner's tools from Robert Howard, and went to jail for thirty days.

Cresar Hill did likewise for knocking out his brother Edward's front teeth.

Louis Bayard went to jail for thirty days for beating Henry Blin.

The dog that bit Sarah Carter, on Gadsden's Green, was ordered to be shot.

Clarence, Alfred and William Ford were fined—Clarence \$10 and costs, or thirty days in jail; Alfred \$2 and costs, or five days in jail; William \$5 and costs, or ten days in jail—or beating Susan Gate. Three against one, and she a widow. Shame!

Isaac Evans, who wanted to shoot Mr. Alley and a man named Frazier, and several other people, was sent to jail as a dangerous character.

REFORM MEETINGS.—The Reform Club of Ward 7 met last night at Arnold's Hall, Meeting street. President Grinke in the chair. Resolutions were passed empowering the president to appoint all necessary committees, such as finance, census, &c. After the transaction of the business of the meeting, addresses were delivered by Messrs. Black and Turner, the latter especially speaking in a calm, earnest and exceedingly impressive manner, urging the party to work steadily and enlist the strength of those who now stand idly looking on, in the mighty effort which the whole State is making towards the re-establishment of the power of truth and honesty among us.

BUSINESS NOTICES.

MAMMOTH MELONS FOR THE MILLION.—One ceases to wonder at the world-wide reputation of the Augusta watermelons on viewing a large and choice lot received yesterday, and for sale by Kanapaux & Gonzalez, No. 38 Market street. One of these melons furnishes a feast to the largest kind of a family.

THE STEAMER PLANTER, having been recently thoroughly overhauled and refitted, has resumed her regular trips.

STONEWALL JACKSON MEMORIAL ASSOCIATION.—AN APPEAL TO THE PUBLIC.—The admirers of the exalted virtues of the late Lieutenant-General T. J. JACKSON are now endeavoring to raise the requisite funds to erect a suitable MEMORIAL to this great and good man.

For this purpose agencies are now being employed by the formation of Auxiliary Memorial Associations in the several States, through which contributions are solicited in aid of the noble work.

The scheme contemplates the erection of a MEMORIAL CHAPEL at the Virginia Military Institute, Lexington, Va., with which Institution General JACKSON was connected fourteen years as a Professor, and near to which a Memorial would lie most in harmony with the character of this renowned Christian hero.

It is proposed to place within this Memorial Chapel a Statue, in bronze or marble, to transmit to coming generations the features, form and expression of one whose name and virtues are alike known and honored throughout the civilized world, and who was a bright exemplar of whatever was true and noble and of good report among men.

It is estimated that \$50,000 will be required for these purposes. We invoke contributions from all who will unite with us in paying this tribute to the memory of STONEWALL JACKSON.

No local or sectional views restrict the scheme. It is national in its design. The North has cordially responded to the appeal. The East and West are moving in it; while the followers of Jackson in the field, and on the march throughout the South, are sending forward their tributes to the memory of their noble Chief.

The funds, as they are collected, may be forwarded by check or by express, to the undersigned, Lexington, Virginia, who, as President of the Board of Visitors of the Virginia Military Institute, has been designated by the Central Memorial Association in Pennsylvania as Treasurer of the Memorial Fund. JOHN LETCHER, Treasurer of the Jackson Memorial Fund. Lexington, Va., February 22, 1870. AUG 24

AN APPEAL TO THE CITIZENS OF CHARLESTON.—The Niagara Fire Engine Company, No. 8, of Charleston, being desirous of rendering their organization more efficient for the preservation of property from fire, earnestly solicit the citizens in general to aid the Company in the purchase of a new Engine. The one they have been in service since the year 1850, and being worn out, has become almost entirely useless.

The Company have been using this Engine since 1861, and repairing it with their own means and without expense to the city. They are now compelled to apply to the generosity of those whom they have heretofore faithfully served to contribute for the purchase of a new Engine that the Company may be enabled in the future to render more valuable services than in the past.

The Chief and officers of the Department, as well as the whole organization, can bear testimony to our efforts as well as good order. We feel confident we cannot call on our citizens in vain.

The following named persons are authorized to collect for the Company:

J. H. GADSDEN, Chairman. J. B. BROWN, H. CHAPMAN, H. PINNEY, H. GARNETT, H. WICKMAN, F. W. LEWIS, E. C. TUCKER, R. MINNORA, J. E. LLOYD, W. LAWTON, T. M. CURRIE, J. B. NELL.

No list is genuine unless bearing the Seal of the Company.

We the undersigned officers of the Charleston Fire Department, approve of the above appeal.

R. M. ALEXANDER, Acting Chief Fire Department. C. P. AIMAR, Second Assistant Chief Fire Department. F. L. O'NEILL, Third Assistant Chief Fire Department. GEORGE L. BUIST, Chairman Board Firemasters. R. S. BRUNS, Vice-Chairman Board Firemasters. AUG 10-16-18

The Company reserve the right to reject any bid. AUG 1-10

A GRAND EPOCH IN SCIENCE.—From the time when, in 1834, DR. BRUGGE discovered "Carbolic Acid," and its extraordinary medicinal effects, nothing in the history of Medicine has equalled it. Largely used by the French physicians in treatment of consumptive and scrofulous diseases, it was introduced by the Court Physician of Berlin, MAX ERNST HENRY, into Prussia, and from thence to the United States. No single sale of the present day can equal HENRY'S SOLUTION OR CARBOLIC CONSTITUTION EXPOSITOR. Patients get better after only one dose has been taken, and we cordially recommend it to the public.—"Argus." JAN 1 17

A CHAPTER OF FACTS.—SPACE is valuable in a newspaper, and it is, therefore, proposed in this advertisement to condense a variety of facts, important to the public, into a small compass. These facts refer to HOSTETTER'S STOMACH BITTERS—what that celebrated medicine is, and what it will do. In the first place, then, the article is a stimulant, tonic and alterative, consisting of a combination of an absolutely pure spirituous agent with the most valuable medicinal vegetable substances that botanical research has placed at the disposal of the chemist and the physician. These ingredients are compounded with great care, and in such proportions as to produce a preparation which invigorates without exciting the general system, and tones, regulates and controls the stomach, the bowels, the liver and the minor secretive organs.

What this great restorative will do must be gathered from what it has done. The case of dyspepsia, or any other form of indigestion, in which it has been persistently administered without effecting a radical cure, is yet to be heard from, and the same may be said of bilious disorders, intermittent fever, nervous affections, general debility, constipation, sick headache, mental despondency, and the peculiar complaints and disabilities to which the feeble are so subject. It purifies all the fluids of the body, including the blood, and the gentle stimulus which it imparts to the nervous system is not succeeded by the slightest reaction. This is a chapter of facts which readers, for their own sakes, should mark and remember. AUG 20-24-00

A FOOD TREASURE FROM THE SEA.—Editors, physicians and newspaper correspondents in all parts of the country, seem to have investigated the merits of the SEA MOSS FARINE made from pure Irish Moss (Carrageen) pretty thoroughly. It has been subjected to the experimentum crucis in numberless kitchens, and to the criticism of numberless epicurean palates, and the result, as far as we can judge, is a universal verdict in its favor. It has been placed, so to speak, in the front rank of our food staples, and all that has been said of it by the patient, (Mr. Rand), and the Company interested in its sale, appears to be approved and confirmed by public opinion.
