STMPATHY FOR PRUSSIAN WOUNDED .- We understand that a collection will be made during this week, in aid of the Prussian wounded, by some of our prominent German citizens.

BISHOP DAVIS .- We are gratified to learn from the Winnsboro' News that this venerable prelate is sufficiently recovered from his accident to proceed with his course of visitation.

AN OLD LANDMARK GONE .- The dilapidated old one-story shanty, at the corner of Montague and Rutiedge streets, which some of our oldest citizens can associate with the very earliest recollections of their childhood, has been pulled down, preparatory, we believe, to building a mansion on the lot.

THE CAROLINA PRIMA DONNA .- MISS S. ISAbel McCulloch, the gifted operatic artiste, is now in Abbeville, where she will remain for several weeks. She is on a visit to her relatives, and is accompanied by her mother. As the Abbeville press speaks of her as "Miss McCulloch," we presume that the reports of her marriage have no other foundation than a professional engagement.

PLANTERS' AND MECHANICS' BANK .- Mr. A. R. Taft was elected president of the Planters' and Mechanics' Bank of South Carolina, at a meeting of the board of directors, held on Saturday, to fill the place of Mr. Daniel Ravenel, the well-known and venerable gentleman who has held the position of president for so many years, and who has been compelled to resign in consequence of ill health.

WHAT WE ARE DOING IN LAURENS .- Under this head, the Laurensville Herald of Friday, says: "We have seen, at the store of Stobo D. Garlington, a roll of blankets, in beauty, smoothness and finish worthy the best mill in the world. They are manufactured at the North Rabun Woolien Mills of A. C. Fuller & Co."

Three cheers for the North Rabun Woollen Mills.

THE HEALTH OF THE CITY .- Dr. Bobert Lebby, City Registrar, reports that the health of the city was never known to be better than at present. We hope that certain portions of the city will receive the attention of himself or of the city scavenger. The lane leading to Adger's North wharf, and Cooter Bridge, at the junction of Alexander and Judith streets, are probably the filthlest places in the city, and are loudly complained of by the neighboring inhabitants.

NUMBER THREE. The "Rev. I R. S. Tharin is most touchingly appealed to by several persons, from the city and vicinity, to permit himself, in whom they "see the requisite qualities," to be nominated as "the people's compromise candidate of the Republican party to represent the Second Congressional District of the State of South Carolina in the Congress of the United States." We suppose that as the "respectful suggestion" has been thus "made in earnest" these tears and supplications will not pass unheeded.

COLD BLOODED MURDER IN GEORGIA.—Tiaccount of a most atroclous murder on the Louisville road, near Savannah, from which we gather the following facts: Mr. James Crase, and a man in his employ, named John Smith, who was intoxicated at the time, had a few words together in regard to Smith's neglecting his work. Smith answered by saying that he did not allow any one to speak to him in that way. Mr. Crane, seeing his intoxicated condition, endeavored, to quiet him; but, failing to do so, walked into the house. Smith followed him into his parior and deliberately shot him with a pistol, the ball striking him in the left breast. Mr. Crane walked from the parior into the back shed, fell into his wife's arms and expired. The last seen of Smith he was rapilly waiting along the Central Railroad, about eleven miles from Savannah.

THE NEGRO OUTBREAK IN JEFFERSON COUN-TT, GEORGIA.-The Augusta papers, of Saturday, contain the following particulars in relation to the outrageous conduct of the negroes in Jefferson County:

in Jefferson County:

On Sunday last, the negroes, headed by one Cudio Lowry, broke into the jail at Louisville and released therefrom a negro prisoner. On Tuesday, Cudjo and the rungleaders in the Sunday riot were arrested by the troops which had been sent from Atlanta to preserve order, and on Wednesday an armed band of about five hundred negroes camped at Pine Hill, near Louisville, with the open and avowed intention of razing the jail to the ground, and releasing Cudjo and his accomplices. On Wednesday night, an attempt was made to arrest one of Cudjo's main supports, a notorious scoundrel. He resisted, and was finally shot. The shousing of this outlaw was made the pretext for further acts of violence on the part of the negroes, whe now declare their in ention of destroying the town of Louisville and punishing the sheriff and his posse, capturing the Federal troops guarding the jail, and releasing the prisoners. Already serious acts of violence have been committed, and the whole county is in a state of fearful excitement. The negroes claim that they are acting under the advice and directions of Bullock. They are supposed to have murdered a gentleman named McCroan on Thursday night. The whites have exhibited much patience and forbearance under these most trying and exciting circumstances, and their conduct so far cannot be too highly commended. highly commended.

A CHAPTER OF FACTS.—SPACE is valuable in a newspaper, and it is, therefore, proposed in this advertisement to condense a variety of facts, important to the public, into a small compass. Those facts refer to HOSTET-TER'S STOMACH BITTERS-what that celebrated medicine is, and what it will do. In the first place, then, the article is a stimulant, tonic and alterative, consisting of a combination of an absolutely pure spirituous agent with the most valuable medicing regetable substances that botanic research has placed at the disposal of the chemist and the physician. These ingredients are compounded with great care, and in such proportions as to produce a preparation which invigorates without exciting the general system, and tones, regulates and controls the stomach, the bowels, the liver and the minor secretive

organs. What this great restorative will do must be gathered from what it has done. The case of the said complaint on the subscribers, at their dyspepsia, or any other form of indigestion, in which it has been persistently administered without effecting a radical cure, is yet to be, ment of the cotton trade of Charleston, by af- heard from, and the same may be said of billious mental despondency, and the peculiar complaints and disabilities to which the feeble are so subject. It purifies all the fluids of the body, including the blood, and the gentle stimulus which it imparts to the nervous system is not succeeded by the slightest reaction. This is a chapter of facts which readers, for their own sakes, should mark and remember.

It is proposed to place within this Memorial Chapel a Statue, in bronze or marble, to transmit employees of the company to give the retiring to coming generations the features, form and expression of one whose name and virtues are alike known and honored throughout the civilized world, and who was a bright exemp ar of whatever was true and noble and of good report among men.

It is estimated that \$50,000 will be required for these purposes. We invoke contributions from all who will unite with us in paying this tribute to the memory of STONEWALL JACKSON.

No local or sectional views restrict the scheme. It is national in its design. The North has cordially responded to the appeal. The East and West are moving in it; while the followers of Jackson in the field, and on the march throughout the South, are sending forward their tributes to the memory of their noble Chieftain.
