THE MASS MEETING NEXT WEEK.—We have received positive information that General Wade Hampton will address the mass meeting of the Union Reform party to be held in this city on Tuesday, the 11th instant.

THE MASS MEETING TO-NIGHT.—A mass meeting of the Union Reform party will take place this evening at the Hibernal Hall, lower room, commencing at 7 o'clock. Prominent speakers will address the meeting.

The Charleston city delegates from the different wards are requested to meet at the lower room of the Hibernal Hall, at 10 o'clock, for consultation.

THE MILITARY ACADEMY.—It is now proposed to have a reunion of the graduates of the late State Military Academy in the City of Charleston, on the 8th day of December next. Colonel Branch, the president of the old association, has authorized this notice, and we are further requested to state that the Rev. Joseph B. Special Officer Johnson has recovered a quantity of broadcloth stolen from Mr. Douglas a few days ago.

A FLY-CATCHING RAT.—Yesterday afternoon a rat in the window of the store of Mr. O. A. Stone, next to THE NEWS office, was a source of wonder and amusement to quite a crowd of persons. He was standing on his hind legs and catching and eating flies. Some he would catch in his mouth, others with one, and some with both paws. A fly would be caught and swallowed in the twinkling of an eye. If he worked as successfully all the afternoon as he did during the few minutes we watched him, he must have eaten over a hundred of the little fellows which are said to go "with a merry hum," and "don't care—a continental for the grocery man."

OPENING OF THE SKATING RINK.—The Skating Rink, at the Music Hall, opened last Saturday night. The weather was extremely unfavorable, and the attendance was consequently small; yet those who were present seemed to have enjoyed themselves hugely. One little lady deserves special mention for the ease and grace with which she glided in and out among the pillars of the gallery. Her hair-like movements excited much admiration.

Mr. De Honey, the very courteous proprietor of the Rink, has made arrangements for keeping the Hall open for ladies daily from 10 to 12 o'clock. He has also secured the services of one of the best bands, thus adding the charm of music to gay pleasures of his attractive resort.

THE CHARLESTONIANS AND NEW YORK STEAMSHIP LINES.—The Charlestantians, says the Morning Telegraph, are carrying on their ocean steam communications with New York with remarkable energy and success. They have large, splendid and powerful ships which make the trip in a little more than fifty hours, and are elegantly furnished and provided with every luxury that heart could desire. So soon as the direct railroad line to Charleston is open, these lines cannot fail to do a heavy business with Middle Georgia.

HARBORING DESERTERS.—Richard Murphy and Harry May, keepers of sailor boarding-houses, in Queen street, were arrested yesterday for harboring deserters from the brig Xenia. Trial Justice J. G. Mackey held them to bail for a large amount. Murphy attempted to strike one of the constables with an axe, but was prevented. Only one of the deserters was arrested. The affair created considerable excitement in Queen street, near the Bay, and for a time a serious riot was apprehended; but the appearance of a large squad of police prevented any such demonstration.

CARCUMS.—The United States Court will meet to-day.

Daddy Cain's paper calls Tim Hurley "a double-faced Janiss." Daddy Cain gives a roll of the names of those men prominent in the burning of his effigy, and calls it "the roll of midnight murderers."

A dividend of fifty cents a share on the capital stock of the Gas Company will be paid to stockholders on and after to-day.

General Ripley and other American officers, at Paris, are organizing a system of rifle pits on the plan which proved so successful in our war.

We learn that the Governor has issued a proclamation, ordering the election for county coroner to be held on the day of the general elections.

It is reported and generally believed that Mr. Wm. R. Stoll, county treasurer, is to be removed, and General Gurney has been offered the position.

THE TRADE OF CHARLESTON.—The indications are numerous and increasing that the very striking advantages enjoyed by this city for a prominent commercial centre, are steadily and surely forcing themselves on public opinion, and must, ere long, concentrate a large and growing Southern trade here. As an evidence of the drift of events, it may be stated as a gratifying fact that Charleston was the only cotton port that showed an increase of receipts for the month of September, 1870, as compared with 1869. Considering the strong competition at the various Southern centers to secure cotton consignments, this large growth in the stream this way affords much encouragement. All persons connected with the handling of cotton and other Southern produce at this port, are using their best efforts to give rapid and cheap facilities; and to further assist on the onward march, our cotton presses have lately made important reductions in their charges for compressing, which cannot fail to give satisfaction to merchants and ship-owners.

STAMPS NO LONGER REQUIRED ON RECEIPTS. While everybody will be glad to know that from this time forth the Internal Revenue law will not require two cent stamps to be affixed to receipts for any amount, business men will, doubtless, prefer to read for themselves the exact wording of the act repealing this onerous and vexatious tax. The "Act to reduce internal taxes, and for other purposes," approved July 11, 1870, (section 4) provides:

And be it further enacted, That on and after the first day of October, eighteen hundred and seventy, the stamp tax imposed in schedule B, on promissory notes for a less sum than one hundred dollars, and on receipts for any sum of money, or for the payment of any debt, and the stamp tax imposed in schedule C, on canned and preserved fish, be, and the same are hereby, repealed. And no stamp shall be required upon the transfer or assignment of a mortgage where the instrument it secures has been once duly stamped.

The act is a long one, and, besides modifying the income tax, gives relief to a large number of persons heretofore specially taxed; but the clause we have quoted above contains the provisions in which the general public is most directly interested.

COURT OF GENERAL SESSIONS—JUDGE Z. PLATT, PRESIDING.—The court met on Saturday morning at 9 o'clock, and disposed of the following cases:

The State vs. L. P. Smith—false imprisonment. T. Y. Simons, Esq., for defence. Nol. pros.

The State vs. L. P. Smith—assault and battery. T. Y. Simons, Esq., for defence. Nol. pros.

The State vs. Robert Sams—murder. T. Bernard King, Esq., and R. W. Seymour, Esq., for defence. Testimony heard and case continued.

The grand jury brought in the following true bills:

The State vs. Joseph Williams, Gabriel Pinckney, Henry Johnson, Jack Holloway, Mary Walsh and Edward Walsh—grand larceny.

The State vs. Wilkins Williams—assault with a deadly weapon.

The State vs. Robert Alston—assault and battery.

The State vs. Gray Gaillard—assault and battery.

The following no bills:

The State vs. Margaret Aldut—assault and battery.

The State vs. S. C. Fann—assault and battery.

In the case of the State vs. Ephraim Blake, a nol. pros. was entered.

REFORM MEETING AT ADAMS RUN.—There was a most enthusiastic and successful meeting of the citizens of this neighborhood held on Thursday last, in behalf of the Union Reform movement, at which Major H. S. King acted as chairman. Notwithstanding threats had been made during the morning by some of the Radical element, that speakers who should denounce Governor R. K. Scott would be knocked down and otherwise disposed of, those who threatened kept very "dorm" when the eloquent advocates of Reform pointed out in plain and unmistakable words that the present State administration had from the commencement been one of dishonesty and corruption. During the speeches there were a few questions asked and answered by the audience. Otherwise there was no interruption. Mr. J. N. Nathaus, of Charleston, made the closing speech. At the sound of his voice, the hundreds present crowded around him in a dense standing mass. Eloquent, earnest and impressive in his manner, warming with the subject of Reform, he exposed the corruptness of the present administration, and the ruin that it would bring us to should it continue. His urgent appeals and convincing arguments have made many converts. Some of those who openly and almost violently opposed his party expressed themselves ready and determined to vote for Judge Carpenter and General Butler at the coming election. St. Paul's will doubtless give a ringing vote for Reform on the 19th instant.

HILL HEADS OFFERED ON THE paper at \$3, \$4, \$5, \$6, \$7 and \$8 per thousand, according to size, at the News Job Office.

TRIBUTE OF RESPECT. At a regular meeting of the German Friendly Society, held on the 28th ult., the following preamble and resolutions were adopted: Again has this society been called upon to mourn the loss of a useful and esteemed member. Mr. Werner Muller, born in Bremen in the year 1835, was cut off in the prime of life, after only a few days' sickness. He was beloved by all who knew him, and while we bow submissively to the will of an all-wise Providence, we can but feel that our society has lost one who, in all the walks of life, was upright and honest; a warm friend, devoted husband, a kind and affectionate father.

BEAR IN MIND.—WHEN THE disease has undermined the health, and the physical system has become prostrated, a stimulant that will not only strengthen, but remove the cause, should be immediately resorted to. Mental distress is also a fruitful source of the breaking down of the constitution, and the ravages of this enemy to health are truly alarming. For all such maladies HOSSETTER'S STOMACH BITTERS have been found unsurpassed. By acting directly upon the digestive organs, they remove the heavy, disagreeable feeling after eating, so often complained of by persons of a delicate temperament. As soon as digestion is restored, the patient finds his strength increasing, and his general health improved.

Thousands of persons certify that it may be relied on in all cases of weakness or nervous debility attendant upon sedentary habits. The generality of Bitters are so disagreeable, and taste that they are objectionable to a weak stomach. This is not the case with Hostetter's Bitters, which will be found mild and extremely pleasant. Balsamic plants, bark and roots contribute their restorative juices to render it soothing and strengthening. Its basis is the only pure stimulant which has ever been produced, containing no fast oil, or any other deleterious element. (The most careful and skillful chemists have analyzed the Bitters, and pronounce them harmless. This is scientific testimony; but the testimony of the hundreds of thousands who have experienced the preventive and curative effects of the Great Vegetable Tonic and Alterative of modern times is still more conclusive. In Fever and Ague, Dyspepsia, Biliousness, Nervous Complaints, Chronic Complaints and General Debility, it is an infallible as any thing in this fallible world can be.

A WELCOME DISH AT THE TABLE, AND AT THE COUCH OF THE INVALID.—The countless ways in which the SEA MOSS FARINE may be utilized as a simple, palatable, and nutritious food, and as a medium for the most delicate and delicious nature—to which it imparts not only all that is desirable in quality, but a wonderful increase of quantity, are among its strongest recommendations. There is no kind of farinaceous preparations, no kind of soup or gravy in which it may not be used to advantage; and the bland mangle, puddings, custards, jellies, gels, &c., made from it are not only unsurpassed, but, in our opinion, unequalled. Invalids whose stomachs are so sensitive as to reject all ordinary preparations for the sick-room, find no difficulty in retaining and digesting the light and nourishing food of which this article forms the basis.

On the score of economy, the SEA MOSS FARINE is certainly infinitely preferable to any of the starches, farinas, gelatines, &c., made from the cereals or from maize. We are assured that a package of it, costing only twenty-five cents will produce not less than sixteen quarts of mangle, jelly, custard, or Moss Farine Cream. The quantity seems almost incredible, but the statement is made on good culinary authority, and our readers can easily test its accuracy for themselves. oct3-mw13adac
