The Charleston Market.

[FOR THE WEEK ENDING OCTOBER 27.] THE Chors.—The weather for the past week has been warm, free from rain, and highly suitable for successful field labor. The progress of cropgathering has been steady and good, and the best results may be anticipated from the continuation of such very favorable atmospheric conditions. The following is an extract on the crops from the

Agricultural Report for October: The increase in breadth of cotton was estimated

indications of the season, the state of a favorable autumn rul, and the probabilities of a favorable autumn rul, and the probabilities of the "top crop," do not maturing and picking the "top crop," do not prognosticate a return of the remarkably favorable experience of the past season. The present able experience of the past season. The present crop, vigorous in early growth, running to weed crop, vigorous in early growth, running to weed rather than boll, these burned with drought in Aurachae and subsequently flooded with rain in September and subsequently flooded with rain in September 2018. continued fruitfulness, as a general shedding of forms and occasional rotting of the bolls attest. The boll-worm and army-worm have been at work in places, and rust is more or less prevalent in all the cotton States. The opening of the later bolls is unusually well advanced in most places, and the last picking promises to be light. cations, instead of pointing third of a million bales, ren

THE RECEIPTS.—The supplies at the cotton ports for the week up to Friday last were 82,428 bales. in contrast with 76,704 the week previous, and 82,395 for the corresponding time last year. At New Orleans the arrivals were 24,678 bales, against 28,719 last year. The total receipts at the cotton ports from September 1, 1870, up to the latest mail dates, were 357,000, against 365,388 the previous year, showing a decrease of 8388 bales.

The total supplies at the chief Southern centres. from September 1, 1870, up to the latest tele-

graphic intelligence, were as follows: a October 26.... The receipts of cotton at the chief Southern cenres from October 20 to 26, 1870, as reported by telegraph, have been as follows. This includes all points but North Carolina and overland:
