Meetings This Day.

Marion-Lodge, at 7 P. M. Burns Charitable Association, at 7 P. M.

Auction Sales This Day.

Laurey and Alexander will sell at 10 o'clock, at their store, hams, shoulders, strips and apples. Macqueen & Riecke will sell at - o'clook, at their store, shoulders, syrup, &c.

J. A. Enslow & Co. will sell at 10 o'clock, at Atlantic wharf stores, molasses.

F. P. Salas will sell at II o'clock, at U. S. bonded warehouse, Elliott street, damaged sugar. Miles Drake will sell at 10 o'clock, at' his store, boots, shoes and hats.

William McKay will sell at 10 o'clock, at his

store, furniture, guns, &c. BANGE OF THE THERMOMETER at Joseph Blackman's drug store, No. 39 Broad street, November 24th: 8 o'clock, 48; 10, 54; 12, 56; 2, 58; 4,

THE POLICE, -Sergeant John Cassidy, who has been a member of the force for years, is a candidate for election to the post of second lieutenant, made vacant by the resignation of Coroner W. N. Taft.

A. SIGNATION .- The Rev. Thomas Smythe, D. D., tue venerable and beloved paster of the Second Presbyterian Church, better known perhaps as Flynn's Church, has, in consequence of his increasing ill health, resigned his charge of that congregation.

ARREST FOR LIBEL. Henry Weldon was brought to the city yesterday morning, from Edisto, to answer a charge of libel before Trial Justice J. G. Mackey, against Gustave Stevens. The latter received a letter from Weldon denouncing a business statement of his as a fraud; and the consequence is, a suit for libel. The case will bring up several nice points of law, and both aides are represented by able counsel

CHERAW AND DARLINGTON RAILROAD. -At the aunual meeting of the stockholders the Cheraw and Darlington Railroad Company, held at Cheraw on the 22d instant, the following gentlemen were elected : President, A. F. Ravenel. Directors-D. Thomas Smith, Thomas, Frost, D. Malloy, J. Eli Gregg, W. T. Walters, B. F. Newcomer, James B. Breeden, B. D. Townsend, R. R. Bridges, W. A. Carrigan.

WIDOWS' HOME .- The Board of Control of the Confederate Widdws' Home, greatfully ac-knowledge the receipt of the following articles: One barrel of pork, from Mr. J. Townsend; a parcel of ginger cake, from W. H. Chafee & Co.; one wood, from Mr. Martin, a frequent contribtor; one ton of coal, from Mr. Baker; two bags of rice from Mr. C. T. Mitchell; dried fruit and vegetables from Mrs. Croft, of Pendleton.

PERSONAL.-We regret to see by the Sudpiche Correspondent, of yesterday, that Professor A. J. Hoffmann, for a number of years teacher of a flourishing German school in this city, left Charleston on Monday last for New Orleans, which city he expects to make his future home. Mr. J. H. Kalb, one of the oldest and most influential German merchants of our city, we are also

sorry to see, has made his arrangements to give up Charleston and remove to Atlanta. CLUBS AND STARS .- William Johnson, arrested for lying down drunk at the corner of

King and Wentworth streets, was sentenced to pay a fine of \$5 or go to the House of Correction John Dominict, lodged for being drunk and di orderly in St. Philip street, was fined \$5.

Benjamin Jenkins has been arrested by officers Davis and Burke, on suspicion of stealing several pieces of French china from the residence of Mrs. Budd. He is held for examination.

ANOTHER DRUMMER COME TO GRIEF .- M Black excited the suspicions of one of the wideawakes a few days ago, which led to his capture by Officer Lovett, and a reference of the affair to the Mayor. Black had been down first to our wholesale dealers, and then up town, where he was driving a thriving trade in hats, caps, show goods, &c., with the retail dealers. The sample on exhibition as his rooms were of every variety and style. Black got bail to answer yesterday morning, and left Charleston the night preceding. The Mayor imposed a tine of \$10, which was paid by his surety, and ordered Black to take out a license, which he had better do next time.

A BRUTAL OUTRAGE. - A few days ; go a lady went to Trial Justice Magrath to have a notice to quit served upon two unprofitable tenants residing in her yard The notice was served, and one of the tenants, a female, applied to Trial Justice McKinlay for a warrant of arrest against the lady for a breach of the peace. This warrant was placed in the hands of an officer named Carson, who arrested the lady in the midst of her family without allowing her to see the warrant, or even to change her dress. Carson called the lady "a rebel," and used the lowest and most brutal lan guage. He also seized the lady by the arm so vio lently as to leave the marks of his fingers. The lady was dragged before Trial Justice McKinlay who read her a long lecture on the crime of re sisting an officer of the law, and made her give bonds to keep the peace-which she had not violated. This was not enough. The daughter of the lady had expostulated with Carson when he went to arrest her mother, and she, also, was cursed and threatened. A warrant of arres was patched up against her, Carson siguing amdavit. No trial justice could be found to sign the warrant, but the officer proceed ed at once to enforce it, and dragged the young lady before Trial Justice Magrath, who was much surprised, as he had not issued the warrant and knew nothing of the matter. To his great as tenishment, however, he found that his name had without any authority, been put upon the back of the warrant. The young lady was immediately released. No more outrageous proceeding than this has been known, under even that trial justice system which gives room for so much injustice and oppression. An attempt will be made to pun ish the official bullies as 'hey deserve.

Hotel Arrivals, November 24.

John W. Autry, John Easterling, Orangeburg; Mrs. E. Perkins, Georgia; A. Haight and wife, New York; S. P. Smith, Bonneau's; Julius J. Fleming, Sumter; John C. Jackson, Yorkville; A. C. Morgan, Columbia; J. H. Lewis, Gilbert Hol low, A. B. Clark-ou, Santen; S. P. Holloway, Clarendon; J. S. Cettin, South Carolina; E. F. Bell, Philadelphia; James Keevins, Geo. Crofton W. J. Casiin, Manchester; W. S. Ctsey, George's Station; E. L. Britt, New York; Masters Norwood and Willie Fleming, Suinter; T. W. Keen, Salisbury; G. W. Herber , Sophie Worrell.

MILLS HOUSE. H. Weldon and lady, Edisto; J. Horsey, Baltimore; J. Ling, Edisto; S. W. Davis, E. A. Parlar, New York; G. W. Clyde, J. A. Leslie, Philadelphia W. Herbert, Baltimore, B. G. S. Hutchson, New York; E. W. Davis, Piorida.

OUR PHOSPHATES. THE STORY OF THE GROWTH OF AN

IMPORTANT INDUSTRY. The Larger Phosphate Companies and What they are Doing.

In the year 1837 the deposit of old rocks of curious formation near the banks of the Ashley River first attracted the attention of scientific course, cheerfully make good any omissions that men, and subsequent investigation showed that these rocks were to be found at numerous points along the coast, between the Santee and Combahee Rivers. These curlosities, as they were then thought, were sought after and investigated principally by geologists prosecuting their researches, and for many years they were regarded merely as an additional field in which men of science could push forward their inquiries into the age and formation of our mother earth. This investigation, a few years back, resulted in the discovery of the fertilizing properties of these deposits, and what had hitherto been decided but curious and unique geological strata, suddenly became the source of a great and growing local industry and trade. The fertilizing qualities of the phosphates, at first strongly doubted, and only established after the most rigid tests and strictest analysis, has given a new value to some of our worn-out lands, and opened a vast and lucrative field to capital and

The first cargo of phoshates was shipped to Balti more on the 14th of April, 1868, by the Wando Company of Charleston, followed four days later by a much larger one from the Charleston Mining and Manufacturing Company. Since that time, throughout the whole region where these deposits lie, spacious buildings, extensive works powerful machinery, long wharves and branches from adjoining railroads have sprung up as if by enchantment; and prominent among the causes which have contributed to our recuperation from the effects of the war, and our subsequent prosperity, has been the developement of our phosphate resources. The yast amount of valuable deposits, lying a few feet beneath the surface, along the "Great Carolina Mari Bed," have drawn over six millions of capital and crowds of energetic men from all parts of the North, and attracted the attention of savans in all quarters of the globe. The average thickness of the strata of deposits is from fifteen to eighteen inches, and with an average of but fifteen inches, six hundred tons from an acre can be calculated upon as a very moderate yield. There are several diggings now turning out from eight hundred to one thousand tons to the acre, and when it is considered that the crude phosphate brings from \$6 to \$7 in River, about one mile from the city limits. Prothe market, the value of the discovery will be readily understood.

Numerous companies and joint-stock associations with large capital have been formed, and are still forming, for the development of this new source of wealth. Plantations in this vicinity, which just after the war were knocked down under the sheriff's hammer for a mere song, have rapidly risen in public esteem, and now command high prices. By means of fertilizers, composed of a mixture of these phosphates and other materials, ands worn out by continual replanting have been renewed in energy and strength, and the loss of animals and labor, occasioned by the late war, has been in a manner made good. The amount of such manures sold here and shipped from this port during the past year reaches a wonderful figure. During the last month, alone, one company had over twenty vessels plying between this port and Philadelphia loaded with phosphates. Their beneficent effect upon soils of all kinds and crops of every description is now beyond cavil, and the steadily increasing demand for them shows how well their value is appreciated by the planter.

The efforts now in progress to develop the phosphate beds are worthy of the magnitude of the discovery. The following companies are prominent in the work:

THE CHARLESTON SOUTH CAROLINA MINING AND MANUFACTURING COMPANY.

This company was organized in 1967, and was the pioneer in developing the extent and value of the phosphates. Their office is at No. 132 Walnut street, Philadelphia, in which city the president, dent; C. R. Holmes, treasurer; and Thurston & Mr. Jesse E. Smith, and most of the officers, re- Holmes, Adger's Northwharf, agents. side. Professor F. S. Holmes, the first president of the company, after his resignation, was elected and is now a director of the company.

The company has purchased, and owns, 10,000 acres of the best quality phosphate lands, and Soluble Pacific Guano. Mr. J. N. Robson is the for His goodness, and for His wonderful works to has a mining lease for over 12,000 acres. It business agent, and Dr. St. J. Ravenel has been the children of men !" In the discourse the benepaid out during the past year \$150,000 for build- engaged as the scientific advisor. Capital \$1,000,- fits for which we should return thanks were pointings, wharves, machinery, &c., besides mak- | 000. ing two dividends to the stockholders, and has made sales at \$1000 per acre of land purchased at about \$10 per acre. The analysis of the crude phosphate rock from the diggings of this company, as made by G. A. Liebig, Esq., one of the into phospha'e rock mills. The rock used here is and no sermon. first chemists of the age, shows that it contains obtained from Mr. Sardy's mines on the Ashepoo 67.219 of the bone phosphate of lime, which is the most valuable component in the rock. The capltal of the company is \$800,000, to be increased, if desirable, to one million.

THE WANDO MINING AND MANUFACTURING COM-

PANY. This company was first organized by John R. Dukes, the president. From information received during the war, the rock on Ashley River was analyzed in 1867 by Dr. St. J. Ravenel, then the chemist of the company, and the high percentage of phosphate it contains ascercained. The company's mines are on the Ashley River from which they dug the first cargo of rock that was sent from Charleston, and they have been the pioneers in the manufacture of this rock into a fertflizer. They have mined large amounts of rock some of which has been sold to other companies, and the remainder manipulated in this city into a fertilizer which has given a reputation to these deposits, and contributed no little to

create prevailing speculative excitement on the subject of phosphates. The capital of the company is \$300,000. Saperintendent, T. D. Dotterer. THE ETIWAN SULPHURIC ACID AND SUPERPHOS-PHATE COMPANY. This company was organized in the year 1868 for the purpose of manufacturing at home the highest grade of fertilizers from the native bone phosphates. It has erected extensive chambers for making sulphuric acid, which is the proper

chemical solvent of the bone phosphates, and is now manufactures the acid on a larger scale than is done in any other part of the United States. The whole of the acid manufactured is used in reducing the crude rock to soluble superphosphate. The extensive works of the company occupy the old ship yard on Town Creek, about three miles above the city, and they have a seoure dock and deep navigation up to it for the largest vessels. There is also a railroad from the works to the South Carolina Railroad and other points. The grindlag works are also on the largest scale, and quable them to offer for sale at very low figures the phosphates simply ground to powder. The capital of the company is \$400,000. and the offiers are : C. G. Memminger, president; Mr. Caspar Chisolm, Superintendent; Dr. N. A. Pratt. chemist; and William C. Bee & Co., gene-

THE OAK POINT MINES. These are situated on Kean's Neck, at the confluence of North and South Wimbee Creeks, about eighteen miles from St. Heiena bar. Vessels drawing 22 feet of water can approach within two miles of the mines. They are owned by Mr. George S. Scott, of New York, and Mr. D. U. Jennings, of this city, and the works are superintended by the last named gentleman, whose office is at No. 12 Broad street. The rock from these mines, upon being analyzed, shows a percentage

ral agenis.

MANUFACTURING COMPANY OF SOUTH CAROLINA. Tills sole right to mine and excavate the deposits of phosphate rock underlying the navigable waters of this State is vested in this company, by an act passed on the 1st March, 1870. Before commencing work, the company employed Professor Charles U. Shepard, Jr., to ascertain the quality of the rock beneath the navigable waters. After remarking that exposure to water even for a great length of time did not materially affect the deposit, the Professor, in his report. goes on to state that the marine deposits are quite as rich as those on the land, and that there are as poor river and marine deposits as there are land. business man should have his card printed on At present the operations of the company are car-

THE MARINE AND RIVER PHOSPHATE MINING AND

of over 60 of bone phosphate.

the Wando, Stono, Edisto, Beaufort, Bull Rivers, and other points. The rock is dug by powerfu dredging machines, and washed by Lebby's patent washer, which turns out a clean rock. With the resources and appliances of the company, 2000 tons of rock can be furnished a week. Their extensive works for grinding, washing and crushing enable them to sell their high grades of phospha'es at a low rate. The mills of the company are situated on Cooper River and at Oak Point on Bull River, and can grind 100 tons to a fine powder each day. Their capital amounts to \$500,-000, and the officers are: George W. Williams, president; James H. Taylor, treasurer; and C. C. Coe, superintendent. Office No. 5 Hayne street.

- CAROLINA FERTILIZER. Mr. W. L. Bradley has a large capital invested in the manufacture of this fertilizer. He has several washing machines, driven by a powerful engine, a shed for storing several thousand tons of rock, and employs upwards of one hundred hands in digging the rock at the Eight-mile Pump, on the Northeastern Railroad. The Carolina is sold by Messra, George W. Williams & Co. The sales for this year, as compared with those of last, have been afteen to one, and the steadily increasing demand shows its popularity among the planters. THE CHICORA MINES.

The mines owned by this company are most favorably situated on Filbean Creek, near the centre of the Ashley Basin, and a few miles from the city.. Their extensive mill is worked by a powerful engine, which runs the washers, crushers, &c.; reducing the rock to an impalpable powder. The process pursued is first to wash, then kiln-dry, crush and grind. The company have invested \$70,000 in phosphate mining and works, and only prepare the raw powdered material for market. ATLANTIC PROSPRATE COMPANY. .

This company is located also on the Ashley River, and their extensive works, for the manufacturing of superphosphates, will be completed on the 1st of December. It has a capital of \$200, 000, and will be ready to supply consumers with superphosphates for the next crop. The company was organized on the 25th of May, 1870, and the officers are: P. J. Porcher, president; F. J. Pelzer, treasurer; and the directors all well known business men of this city. Pelzer, Rodgers & Co., are the general agents.

THE STONO PHOSPHATE COMPANY, This company is under the management of a board composed of some of our most experienced and successful merchants and planters, representatives of those classes composing in a great measure its stockholders in this and the adjoining States. It has also a large capital, and will prepare a first-class fertilizer. Its extensive works are beautifully located on the banks of the Ashley fessor Lewis R. Gibbes, eminent for his scientific attainments, will have charge of the chemical department, thereby insuring to consumers a genuine fertilizer of a high grade. The officers are : J. D. Aiken, business manager; Arthur M. Huger, clerks and Charles R. Valk, acting superinten-

FARMERS' FERTILIZER COMPANY OF SOUTH CARO-LINA.

This company is composed, to a great extent, of planters in this and the adjoining States, and is engaged in erecting mills and machinery on the As ley, outside of the city limits, where they will also erect acid chambers early in 1871. The lands under its control will probably yield about 1000 tons per acre, and the mills, when put up, will turn out 15,000 tons of manipulated fertilizer per annum. The capital is \$150,000, and the officers are: Wm. G. Whilden, president; A. H. Mazyck, treasurer; II. T. Peake, superintendent; and Hudson Lee, clerk.

PALMETTO MINING AND MANUFACTURING COM-PANY.

This company owns about 1000 acres of phosphate lands on the Ashley River, and expect to wa h from 8 to 10,000 tons of rock annually. They have sufficient capatal already subscribed to carry on their works successfully, and employ. about one hundred operatives. The washer, capable of turning out about forty tons a day, is construction the machinery necessary for grinding the rock, of which they have already dug 2500 tons. The officers are: Thomas D. Euson, presi-

PACIFIC GUANO COMPANY. The extensive mills of this company are familiar to all, just outside of the city limits. The Ashley phosphate rock is used in the manufacture of the

SARDY'S SUPERPHOSPHATE WORKS The well-known Wappoo Mills, opposite to this chased by J. B. Sardy, who has converted them J. H. Elliott. There was but a small attendance his large works in Brooklyn, New York, on the services, and delivered an interesting lecture to first discovery of phosphates, and bought extensive tracts of land on the Ashepoo. His mines are connected with the Savannah and Charleston tian's thanksgiving day. Railroad by a branch, and his rocks average over 60 per cent, of the bone phosphate of lime. He is an old and experienced manipulator of fertilizers | Rev. J. B. Seabrook. in Savannah and New York, and Messrs. George A. Trenholm & Son are his business agents in this

This concludes our review of the various regular companies that are actively engaged in this vast field of enterprise. There are, besides, unmerous private parties of extensive resources, who are heavily interested in the same industry, with exall, and each addition to the number helps to perity of our State. For much of the information given in the above resume we are indebted to the complete and valuable publication just issued by Professor P. S. Holmes on this subject. The work is the result of thirty years' experience and observation in the region of the phosphates, and the subject is closely followed up, from the first discovery, to the present gratifying developments, with all the geological learning and scrutiny of

A Tribute to the Late Captain Welsman.

A regular meeting of the St. George's Society was held on Wednesday last, the president, H. P. Walker, Esq., in the chair. The regular business of the meeting being dis

posed of, the president announced the death of Captain James Welsman, one of the oldest members of the society, which had taken place since their last meeting, when the following preamble and resolutions, submitted by Mr. Henry Gourdín, were unanimously adopted: The St. George's Society records, with senti-

ments of sorrow, the death of Captain James Welsman, one of its oldest and most cherished members. He was born at Sidbury, Devonshire England, on the 13th November, 1784, and arrived in Charleston in May, 1803, in the British brig Burnthorn, from Exmouth, with some ten other passengers, all of whom he survived. In consequence of the failure to receive a credit which his father had provided for him, he was with a shill ling only in his possession when he landed in Charleston, and his first employment was on board of a Sullivan's Island sail packet. Under the advice, however, of Mr. Lewis Ogier, then s warden of St. Philip's Church, he was appprenticed to Mr. DeLaney, then a pilot for the bar and harbor of Charleston; and soon after became his copartner. In 1817 they, with the late Mr. Wiliam E. Snowden, built the brig Catharine, and taking the command of her, after two voyages to Europe, he engaged in the West India trade, sailing chiefly between the two ports of Charleston and Havana. He retired from the sea in 1832 and became a successful skip owner, having been interested in several of the largest and finest ships owned in the city and engaged in the European trade. He lost the larger portion of the bandsome fortune that he had acquired, during the war, and retiring altogether from business after the war, he lived in contented cheerfulness until the 26th June last, when he died at the advanced age of 85 years 7 months and 13 days, an example of persevering and successful enterprise and in dustry, of cheerful manhood in the reverses that it was his lot to endure, at different periods of his life, and of a peaceful and quiet old age. Therefore.

Resolved, That the memory of Captain Wels man, for forty-one years a member of the St. George's Society, will long be cherished by its members; and that his death in the maturity of a well spent life, leaves us little to regret but his absence from us. Resolved, That a copy of these proceedings be sent to his family.

The meeting then adjourned.

THANKSGIVING OBSERVANCES .- The suspension of business on Meeting street, Hayne street and the Bay was very general yesterday, but in King street only partial.

At St. Michael's the services were opened at 11 A. M., by the pastor, Rev. Wm. Trapler, and the usual prayers read. The attendance was not large, and there was no sermon.

A large congregation assembled at St. Philip's, where the services were conducted by the pastor, Rev. W. B. W. Howe, Rev. J. M. Green, Rev. J. G. Drayton, and the Rev. Campbell Fair. The prayers were read by the three former divines, and the sermon was delivered by the Rev. Camp bell Fair, a minister of the Church of England who is travelling for his health. His text was taken from the Epistle of Paul to the Romans, 8th chapter, 32d verse : "He that spared not his own son, but delivered him up for ns all; now shall he not with him also freely give us all things." His sermon was especially adapted to an occasion of thanksgiving, and was received with marked at

The Rev. C. S. Vedder read the usual services at the Huguenot Church to a small congregation. There was no sermon.

At St. Luke's Church, the Rev. C. P. Gadsden delivered an appropriate sermon, choosing his text from Psalm 104th, 33d and 34th verses : " will sing unto the Lord as long as I live; I will sing praises unto my God while I have my being. already completed, and they have in course of My meditation of Him shall be sweet; I will be glad in the Lord." At Grace Church the regular services were c

ducted by the pastor, the Rev. C. C. Pinckney, and, in addition, a collection taken up for the Lee Monument. The attendance was almost as large as usual on Sanday, and the amount collected very satisfactory and encouraging. The text of the sermon was taken from the 107th Psalm and 8th verse: "Oh that men would praise the Lord edly set forth, and a touching tribute paid to th virtues of General R. E. Lee.

At St. Paul's Episcopal Church the usual sercity, on the Ashley River, have been lately pur- vices of the Liturgy were read by the rector, Rev.

The Rev. A. Toomer Porter, the rector of the River. Mr. Sardy came down to this State from | Church of the Holy Communion, held the usual small congregation. The leading idea of his lecture was that Christmas day is the true Chris-

At St. Mark's Church, colored - Episcopal, the thanksgiving services were read by the rector,

At the Globe Street Presbyterian Church the services were conducted by the Rev. Dr. Girardeau, who discoursed upon the Christian's duty in rendering thanks for the benefits which al mankind have received from Providence.

The regular services were held at the Circular Church Chapel by the pastor, the Rev. W. H. Adams, who delivered an appropriate discourse cellent prospects of success. There is room for to a well-filled church. The text was taken from the 4th chapter of the Epistle of Paul to the swell the capital, business activity and pros- Philiplans, 6th and 7th verses: "Be ye careful for nothing, but in everything by prayers and sup plication with thanks giving let your requests be made known unto God. And the peace of God which passeth all understanding, shall keep your hearts and minds through Christ Jesus."

At the German Lutheran Church the usual services were read, and a pleasing discourse deliver ed by the pastor, Rev. Mr. Muller. Owing to some misapprehension the attendance from the congre gation was not large. Mr. Muller's text was taken from the first Episitle of Paul to the Thessalon tans, 5th chapter and 18th verse: "In every thing give thanks; for this is the will of God in Christ Jesus concerning you."

At the Catholic Churches, beyond the ordinary daily Mass, there were no special services. At St. John's Lutheran, the Presbyterian, the Went worth street Lutheran, the Unitarian, the Bap tist, the Methodist Churches there were, we be Heve no services of any kind.

DURE OSWEGO STARCH.

TA'KINGSFORD & SON, MANUFACTURERS. THIS STAROH has established greater celebrity than any other ever obtained, and having recently doubled the capacity of their works, they will now be able to meet the demand. Their works

are the largest of the kind in the world, the production being over twenty tons each day. The great desideratum in the Starch, and that which is exceedingly difficult to secure, is uniform good quality. NONE OF INFERIOR GRADES IS EVER WANTED BY THE CONSUMER; and every Grocer is aware of the annoyance caused by even a slight variation in the quality. None below the standard is ever allowed to go out of the factory, and not a box has ever been returned to them as lefective. IT WILL KEEP PERFECTLY SWEET FOR YEARS IN ANY CLIMATE.

Mr. KINGSFORD has been engaged in the manufacture of Starch for THIRTY-NINE YEARS, and
