CITY AFFAIRS.

Meetings This Day.

Solomon's Lodge, at half-past 7 P. M. Charleston Mechanic Society, at 7 P. M. + Committees of Fire Companies, at 7 P. M. Palmetto Fire Company, at 7 P. M. Charleston Ridemen Club, at 7 P. M.

Auction Sales This Day.

Leitch & Bruns will sell at their office, at 11 o'clock, assets of Bank of Georgetown. A. C. McGillivray will sell at 11 o'clock, at the

old Postomee, real estate. William McKay will sell at 11 o'clock, at his store, carpets and forniture.

UNITED STATES COMMISSIONER. -Islam Mitchell was brought before the commissioner, charged with illegal voting. After a lengthy examination, the charge not being sustained by the evidence, he was discharged.

COLONEL AMES .- The Macon Telegraph announces that John Kelly has been acquitted of the murder of Colonel C. T. Ames. The evidence before the jury must have been very different from the accounts puplished in the papers at the time, or else the verdict is an outrage on society.

ST. PETER'S SCHOOL .- This school will be re-opened, after the holidays, on January 2, when scholars will be taken irrespective of their religious belief.

A few of the prizes won at the late fair remain uncalled for at the residence of the Rev. Mr. Foichi, and may be had upon application:

E COTTON STEALING. -On Saturday, two negroes, who had stolen two balks of cotton from Mr. Augustas Glover, in Edgefield county, in this State, were overtaken by him in Augusta, Ga., after they had sold the cotton, but before they had received the money. Mr. Glover gave one of them a good drubbing with his fists, but declined to prosecute.

BEAUREGARD EN ROUTE FOR FRANCE.-It has several times been incorrectly announced that General Beauregard sailed for Europe for the purpose of taking part in the war. There now seems to be no doubt on the subject. The fact is published in the New York papers that he left that city last week for France in the steamship Ville by the gale-a performances of Boreas, are again de Paris. The purpose of his journey is, of course, left to conjecture.

INQUEST .- An inquest was held on Saturday morning over the body of an infant at No. 11 St. Philip street. It was proved on the examination to have been still-born, and the jary rendered a verdict accordingly.

On Saturday evening the body of a colored infant was found at Dunning's farm, packed away in a herring box. An inquest will be held over it to-day.

PORT ROYAL RAILROAD .- We learn that the work upon this new enterprise is steadily progressing. Twenty od 1 miles of track are already running order, and the determination is to complete the remaining portion at the earliest day possible. Business men in Beaufort, it is said, have mide their arrangements to establish branch houses in the new City of Port Royal as 300n as railroad connection with it is established, and preparations are in course for building on a large scale.

THE CHURCHES YESTERDAY .- An old poet describes a certain lovely Sunday as "a day missed from Paradise." Yesterilay was a realization of the quaint idea. Clear, baimy and beautiful, the weather without proved more - attractive than the allurements of home, and the church bells found responsive echoes in the hearts of hundreds not too often 'ouched by sacred thoughts. The various congregations of the city were therefore unusually large, and the display of

dress and devotion eminently creditable.

THE SOUTH CAROLINA CONFERENCE. - A goodly number of the friends and brethren of the Methodist Episcopal Church South have reached the city from various portions of the State. for the purpose of attending the conference which assembles on Wednesday. All of the pulpits of the Methodist Chrches yesterday were, we believe. occupied by visiting clergymen, and the Sundayschool services in the afternoon rendered unusually interesting by the presence of strangers. Tonight Rev. W. E. Power will preach in Trinity, Rev. A. J. Cauthen in Bet'ael, and Rev. J. W. Kelley in the Spring street Church.

that point calculated to provoke the utmost caution, since the cause of these accidents is often beyond human control. The breaking of an axle, wheel or rall, the displacement of a cross-tie, the criminal manipulation of a switch at night, are events that cannot be foreseen, and consequently cannot be prevented. They are simply a part of the risks of travel, that are to be taken into account when considering the responsibilities which attach to railroad companies and their employees.

EXOHANGE.

ANOTHER BURGLARY .- On Friday nig an early hour, a negro man clambered up into a house in Ratledge avenue, secured a goodly pile of "portable property," and prepared to make his retreat. A slight noise which was made awakened the gentleman of the house, who soon discovered the bold burglar, and at once made chase. The burgiar did not allow the grass to grow under his feet, but was overhaufed by his pursuer, who caught him by his clothing just as he threw himself over the plazza railing. The clothing gave way and the barglar got off, leaving behind him, however, all his plunder excepting a niece of jewelry.
