RICE .- The market was quiet and business Savannah Market. SAVANNAH, December 1.-COTTON.-During the early part of the week the demand was active, and buyers operated freely; but for the past three days, holders have been very firm, and buyers have acted only when cohcessions were made. The market closed this evening with holders ask-ing 15½ c for middling and buyers offering 15½ for the same class of cotton as a basis. The sales of the week have been 12,400 bales. The stock on hand at the close of the market yesterday was 72,539 bales upland and 6.76 bales sea island. The following resume of our daily market will light. Sales about 60 tierces clean Carolina, say 10 tierces at 6, and 43 tierces at dide ? ib. The following resume of our daily market will show the various changes in the market for the past week :

past week : November 25.—The market early in the day was fairly active, and 15½c was paid for middling. Later news caused buyers to be less active and the market closed quiet at the following quota-tions: Middling 15/a15/c. The sales of the day were 2000 bale. Some buyers at the close of the market offered even lower than our quotations. November 26.—The market was active at full prices, and the sales made were at a shade firmer figures than those of Filday. 2500 bales changed hands at the following quotations: Middlings 15/a15/2c.

the day, 1500 bales were sold at the following quo-tations: Midd ing 1540. Some sales are reported at 155/a155/c for middling. December 1.—The market open-1 with a fair-offering stock, but very duil, owing to bugers and selfers being apart. Later in the day holders gave way in their prices, and 1500 bales were sold on the basis of for middling 154/c. The tone at the close of the market was stronger, and holders asked for middling 154/c. Saa istAND.—In relation to the prospect of the sea island market, we can slupy say that the fu-ture is very unpromising and exceedingly dis-couraging. The estimated stock in Liverpool is 6440 bales against 334 bales corresponding wirlod

6440 bales against 3334 bales corresponding neriod last year, and the consumption is very moderate. This is not so much consequent on the war as it last year, and the consumption is very moderate. This is not so much consequent on the war as it is attributable to the successful culture of the staple elsewhere, which so materially competes with our Georgias and Floridas. The market is still without shape, owing to the attitude of buy-ers, who persistently stand aloof at current ask-ing rates; and on the other hand, factors are could coffer the storks on a meitry with liver.
