THROUGH BILLS OF LADING TO LEVERPOOL. Messrs. James Adger & Co. advertise to give through bills of lading on cotton to Liverpool, by their line of New York steamers, at %d. per lb. This very low rate will doubtless attract considerable cotton by this route. The steamship Charleston, which sails to-morrow, will receive cotton at the above rate.

THE 'ACADEMY OF MUSIC.-The engagement of Rose and Harry Watkins ended on Saturday night, when "It Takes Two to Make a Quarrel" and the "Pioneer Patriot" were performed. The matinee of Saturday was the largest which the Academy has known since the first visit of the Chapmans. The Watkinses have given universal satisfaction, and, by their careful avoidance of equivocal allusions, no less than by their versatiliy and artistic acting, have established themselves as prime favorites with the Charleston public.

THAT COUNTY COMMISSIONER BUSINESS .- The committee of the House, who were appointed some time ago to investigate the charges against the county commissioners of Charleston County in relation to an alleged fraudulent issue of checks, seem determined to sift the matter thoroughly, and, on Saturday night, the messenger of the House brought a summons to Messrs. P. C. Miller, E. P. Wall, E. B. Seabrook, L. C. Northrop and Donovan to appear before the committee, at Columbia, where the investigation will be conducted. The parties summoned are expected to leave Charleston this morning. Mr. McLaughlin is already in Columbia, and on this account was not included in the summons. This proceeding is entirely independent of the charges against the commissioners now under examination before Trial Justice John G. Mackey.

RAILROAD ACCIDENT .- On Friday afternoon, etween 2 and 3 o'clock, near Heard's Mill, on the Charlotte, Columbia and Augusta Railroad, the way-freight train from Columbia to Augusta sustained a serious accident. Coming around a curve, the engine "Edgefield," the best locomotive on the road, collided with a cow on the track. The animal was knocked to pieces, and it is supposed that one of the limbs adhered to a wheel of the logomotive, which threw it from the track down an embankment about eleven feet high, the engine describing a complete somersault, and the tender following. The dat cars next to the engine were badly damaged, one of them being broken in half on the track, thus arresting the progress of the cars behind. The engineer, Mr. Terrell, was taken from the crushed cab, after the fall of the lecomotive, having escaped the loss of life with several severe bruises and internal injuries of a serious character. The fireman was badly scalded, and a train hand tras also considerably injured. The wreck was cleared from the track, however, in time to allow the passen ger train to reach Augusta about 11.0'clock Fri day night, and trains are running at usual. The engine is thought to be badly damaged.

CLUBS AND STARS .- William Butledge and Jacob: Brown, two youths of color, arrested on Friday evening for fighting in George street, were taken to the Guardhouse, and had a hearng before the Mayor, who sentenced William to pay a fine of \$5 or go to the House of Correction for ten days. Jacob was discharged. One goat, found wandering in King street about

No appeal to the ablic is necessary in such a cause, and it may be safely assumed that the occasion will elicit a generous response, and a large attendance of our citizens. The preparations have been compre-hensive, and the hall will be decorated, and the tables will present an array of beautiful entities equal to any exhibition that has preceded this. ur Charleston ladies will be there in full force; our roung men will do the honors, and pater and mater-familias will lend their sympathetic presence to the scene. The article to be ramed will be handed with the list of chances to the committee, and delivered by them to the winner or to his written order. The committee, in all rames, must have actual possession of the article, unless the size or nature f it prevents it from being removed to the rame stand, in which case it may remain upon its table, but shall only be delivered to the chairman of the committee, who will deliver it to the winner. The following gentlemen comprise the committee: W. Muckenfuss, A. G. Magrath, Jr., D. B. Gilliand, J. H. Loeb, F. Honour, H. Bacor, L. C. Nowell. EVIDENCE OF THE DEFENCE.

of Music. We predict a large attendance. The Other Side of the Story-Beaufort for DeLarge-Chicanery at the Polls-Something Rotten.

To prevent any misapprehension on the subject, it may be stated that the object of the present record is not to preserve the exact language of the witnesses on either side, or to prove or disprove any of the facts alleged, but simply to give the general reader an idea of the character of the points at issue, and report the salient facts brought forth in the investigation. Much has been developed in the chief and cross-examination, which, while bearing strongly upon the case would not interest the public, and our space for bids more than an outline of the evidence.

Robert Smalls, senator from Beaufort, being called on the part of the defence, testified that he took an active part in the campaign and election. His impression is that the county was largely in favor of DeLarge, but that the town, proper, was in favor of Bowen. Witness soratched a great many votes, on the day of the election, in favor of DeLarge, and believes a large number of the same were vated. He employed four canvassers to distribute these tickets. Witness says he recognizes many of the changes made on the tickets as being in his own handwriting, and they were made before the election. In answer to a juryman calling attention to a discrepancy in the style of the signature, witness says he sometimes wrote DeLarge with a large "L," and sometimes with a small "L" His handwriting was different when standing, and some of the tickets were written in the street. He has every reason to believe that the mass of the changes observable are in his own handwrit-

Mr. A. P. Hall, of Beaufort, was called to testify that he was present at the counting when Ezekiel's vote was called by Mr. Williams, and read off as being for C. C. Bowen. He could pest tively swear that it was in the evening. [Witness for the prosecution testified that the calling off of the vote was in the day time, and that Mr.

Bowen's name was not there, ]
Dr. S. B. Thompson, of Hilton Head, testified concerning the condition of affairs at Hilton Head. He saw no Bowen tickets the day of the election, and saw no one there who represented Mr. Bowen, except a man named Segriff, who was scratching DeLarge tickets at the poll. Witness was not at the poll more than live minutes. Voted for R. C. DeLarge. Samuel Green testined that he was a member

of the Legislature, and was present at the counting. That he distinctly heard Bowen's name called on Mr. Ezskiel's ticket, and went to the pile where it lay and examined it. Witness had een in court before. His father was a manager of Lady's Islan I poll. Witness did not swear two women had not voted there, but Judge Bryan produced his notes, and showed that the women were convicted of the offence, and read the language used on the trial.

M. R. Delaney testified at length with referenca-to the Hitton Head box, at which he was present. Believed that the majority were for De-Large before the election, and had no reason to change his impression. The election was peaceable. A system prevailed at the polls of buying up canvassers and inducing them to change tickets. Witness knows of no clampr against himself personally.

Mr. Francis E. Wilder was called, and testified

substantially to the facts already elicited conperning the Hilton Had precinct.

William Fields, a colored man, testified that parties in Beaufort had offered him fifty dollars to testify that the ballot box he carried to the polls contained papers in it before it reached the hands of the managers.

Mr. Franklin Talbird, called for the defence, testified as to the construction of the boxes chieny from new lumber, but called attention to the fact that one of the boxes had the bottom removed, and others contained double rows of nails. W. U. Morrison testified that he had marked several tickets by writing Ransier's name in the place of General Butler, and recognized four, but did not

ideatify as his handwriting the same change on the ticket of Mr. Jadd, sald to have been made since the election. Messrs. Alfred Williams, L. S. Langley and R. H. Gleaves were now respectively put upon the stand, and testified substantially to the facts which have already been given to the public, de-

scribing in detail the manner in which the boxes

were prepared, sent out, received, opened and counted. The defence here closed. The government put in some rebutting evidence, who made the ballot-boxes, who testified that they were not in the same condition as when turned off from his hands, the nails being changed in some instances, and the sides and bottoms being cracked, whether intentionally or from shrinkage he could not say. The last witness will probably be examined this morning, when the arguments will commence.

· [TO BE CONTINUED.]

LOUISIANA RICE.-New Orleans papers of a late date mention that there was on exhibition at the office of Mr. James Wood, dealer in Louisiana and Carolina rice, No. 33 Peters street, a beautiful sample of hulled and polished bearded rice, equal in every respect to any ever brought thither from the Carolinas or Georgia. It was grown in the parish of St. James, and hulled and lished at the Empire Parish Steam Rice Mills Pointe-a la-Hache, Plaquemines, for which Mr. W. is agent.

A PLEASING INCIDENT occurred on Saturday, which serves to "point a moral and adorn a tale." It appears that on the preceding day a lady lost in the street a gold enamelled watch, the gift of a deceased brother, and doubly valuable because of the associations with which it was connected. It was of course promptly adve tised, but the distressed owner well-nigh abandoned all hope of seeing her trinket again. Meanwhile, a little colored girl named Susan Pierce, and living in the neighborhood, while walking on Wentworth street near Pitt, on Friday night, found the watch and hastened with it to her mother. She was sure, she said, that it would be advertised the next morning, and she would then enjoy the happiness of restoring the lost property. Saturday found the little girl, even before daylight, purchasing a copy of the paper from one of the numerous gamins who so vigorously use the treble clef in singing 'Ere's yer D-a-1-1-y N-o-o-s-e! Sure enough, there was the announcement of the loss. The honest little woman could scarcely await the slipping by of the hours; but at last had the satisfaction of placing the watch in the hands of its owner and receiving a substantial evidence of gratitude. The lesson conveyed by the incident is two-fold; it illustrates the value of that jewel among the virtues-honesty; and it demonstrates

the advantage of advertising in THE NEWS. TILL TAPPING .- Milton Spencer, a colored man, who had been dealing for some time with Mr. J. H. Luden, grocer, entered the store of that gentleman, at the corner of Bull and Pitt streets, on Sunday morning, and asked for a sheet of paper to write a letter. While thus occupied he saw Mr. Luden take a book containing a sum of money in small change from the till, and having given change to a customer returned the book to the drawer. Mr. L. then went to the bar at the back part of the store to serve several customers, leav ing the letter-writer at his work. The latter found the till convenient, and upon the return of Mr. L. the contents of the book, to the amount of \$90, and Milton were missing. The loss was quickly reported at the Detective office, and Officers Burke. Davis and Lovitt took the matter in charge. They proceeded to the residence of Milton, on the prenises of Mr. Ebenezer Thayer, in Pitt street, and finding him absent, with the consent of his wife searched the house, finding nothing. They found the book, however, containing \$22, at the back of the yard, under a pile of rubbish, and seizing Mil-ton, who then came in, a close examination dis-closed \$51 sewed up in one leg of his drawers. He was taken to the Detective office and is held for examination. The money has been duly returned to the owner minus \$17, which Milton has not yet

Mr. Robert S. Ketchin, a prominent merchan of Winnsboro', died of apoplexy on Tuesday

CRUMBS.-His indignant constituents request Joseph A. Greene, the Radical senator from Orangeburg, to resign his seat, and declare that they are opposed to any division of Orangeburg County.

Mr. S. G. Trott, our popular postmaster, has been renominated in the United States Senate for his present office, and deserves to be confirmed. The new engine of the Independent Fire Company, of Columbia, squirted 265 feet through one hundred feet of hose with a 1% inch nozzle. Time eight minutes.

UNITED STATES COURT .- The District Court was opened at 10 o'clock Saturday morning, his Honor Judge Bryan presiding.

The case of the Beaufort commissioners was taken up and the testimony for the defence concluded. Several witnesses were examined in reply-for the prosecution, which occupied the court until the hour of adjournment. Adjourned until 10 o'clock this morning. CIRCUIT COURT.

Judge Bond opened the Circuit Court on Saturday, at the Common Pleas Court-room, between 11 and 12 o'clock. The question of scaling a bond given for Confederate money, and the instalments of interest paid in that currency, was argued, and decided that the interest paid in Confederate currency was to be scaled like the bond in accordance with the value of the money at the date of each payment. The whole argument did not occupy over three-quarters of an hour, and the court then adjourned until 10 o'clock this morning.

THE BOWEN BIGAMY AND MURDER AFFAIR .warrant was issued on Saturday by Trial Justice Magrath for the arrest of this celebrated member of Congress from South Carolina on the charge of being an accessory before the fact to the murder of Colonel William P. White, and the omcer in charge has gone to Columbia to obtain from Governor Scott the requisition necessary for the apprehension of the said member of Congress in Washington or any other State. Bowen is now said to be in Washington, where he will be tried this week for bigamy. The Augusta Chronicle, of Saturday, says: "Two gentlemen of this city-Mr. J. A. Christain, chief of police, and Mr. E. J. Hatcher-have been summoned as witnesses for the prosecution, and started to Washington this morning. Bowen was at one time a journeyman bricklayer here, and married the first of his three wives in Augusta."

THE CHARLESTON BIBLE SOCIETY .- The sixtieth anniversary of this institution was celebrated last evening at Grace Church. A large audience attended, and the services were of an unusually interesting character. After appropriate religious exercises, the annual report was rend, from which we learn that the number of Bibles and Testaments received from the American Bible Society from January 18, 1870, to Janu ary 18th, 1871, was 1541, of which number 706 have been distributed. It has also been deter mined to supply, as a colporteur, Mr. Joseph Stevens, at a salary of \$600 per annum, to the end that the Scriptures may be more thoroughly disseminated among the people.

After the reading of the report, and singing by the choir, the Rev. Edward R. Miles delivered an address, in which he reviewed the history of the various books on the Bible, the several transla tions thereof, and many interesting reminiscences connected with the preservation of the sacred volume. It was listened to with undiminished interest from beginning to end, and, as a historical epitome, deserves a more enduring and general existence than it will have in the manuscript of the able clergyman by whom it was delivered.

A SHARP TRICK .- Saturday afternoon, about 2 o'clock, a well-dressed young man, of very genlemanly appearance, entered the grain and prostreet, and asked for pen and paper to write something. These were furnished, and as he began to write, well-dressed man No. 2 entere the store. No. 2, according to his own account, was a large stock dealer, and wanted several hundred bushels of corn and, thousand pounds of hay for his cattle on the other side of the city. He was also particular as to the quality of his provisions, and must examine them close y. With all deference to so promising a customer, No. 2 was shown to the back of the store, and he and Mr. Rohdes were soon examining and discussing the price of hay and corn. While they were engaged in this interesting occupation, No. 1 pos essed himself of the money drawer, and trans erring all the cash to his pocket, to the amount of \$30, cleared out. Mr. R. caught sight of hir as he disappeared, and suspecting something wrong, gave chase. No. 2 left his corn and hav and joining in the pursuit, contrived to slip around Hacker's alley, and was wanting when the parties returned from an unsuccessful chase of No. 1. Neither of the sharpers has since been heard of, and they are supposed to have left the city for Augusta, on Saturday evening.

The same couple tried their little game an hour or so before in the grain store at the corner Reld and Meeting streets, but were too closely watched to carry it out.
