The Charleston News.

SATURDAY, FEBRUARY 25, 1871.

NEWS OF THE DAY.

Gold closed in New York yesterday at 113. Cotton was in good demand at full prices; uplands 15c; sales 6000 bales.

Paris once more has theatrical amusements, and strangely enough the most popular play just now is called the "Siege of the Paris Siege."

The Greenville Ring have made an unfortunate speculation, and being on the brink of ruin, ask the State to step in and relieve them of their load.

A cable telegram announces that the Treaty of Peace between France and Germany is signed at last. We receive the tidings with heartfelt thankfulness.

One of the most significant signs of the times is an address recently issued by forty-three of the most prominent woolen manufacturers of New England.

"The profits of their productive labor," they promise, in the shape of partial tariff reform, an entering wedge, sufficient, if properly driven in, to split in twain the tariff.

The Southern Pacific Railroad. This great project, so important to the future of the South, seems likely, at last, to become an accomplished fact.

A Word of Warning. We warn the members of the General Assembly who are selling their votes on the Greenville Railroad Bill that no stone will be left unturned in the effort to bring them to justice.

Married.

GOTTEN-GOTTEN. On Tuesday evening, February 21, by the Rev. Mr. Miller, the residence of G. W. Gotten, Mr. D. W. Gotten to Mrs. A. G. Gotten, both of this city. No cards.

Funeral Notices.

BURNING AND SHAKING. BY A ridiculous misapprehension of language, invalids are sometimes said to "enjoy very poor health," but it is not in record that any human being was ever spoken of as enjoying chill and fever. And yet there are thousands, at this moment in one or the other of the two stages of the disorder, who might just as well have avoided it as not. If there is anything demonstrable in therapeutics, it is that HOTTEN'S STOMACH BITTERS is the only medicine which has been taken, either as a safeguard against this class of diseases or as a remedy for them, and failed to produce the desired effect. The season when malarious fevers are rife has commenced, and no inhabitant of any district subject to their visitations should be without this great preventive and remedy. Indeed, it is a most potent protection against all the ailments which prevail in the spring months. From marsh and pool, and from all moist soils are now rising the mephitic elements which give birth to fever, indigestion, biliousness, colic, and a whole host of epidemic and other maladies. Aid the system to resist them. Energize and regulate all the animal functions with this reinforcing agent. This precaution is as necessary in cities as in new settlements, for malarious fevers are now almost as common in the great centres of population as on the borders of the southern bayous and marshes and the rich agricultural regions of the West. The preventive and remedy is accessible to all. Who will be unwise enough to brave recklessly the danger it would avert? dec25-54c2
