Robbery and Ruin-Will the People

The people of this State know that the taxation of the current year, if collected, means Starvation and Confiscation. But the people of Northern and Western States, where the tax levies amount to tens of millions, must think it much-ado-about-noth ing when the people of South Carolina are driven to desperation by a tax of about four million dollars. A comparison between the expenses of the State Government, and the amount of taxes levied upon the people, at the evil, and explain the reason of the discontent and indignation which fill the breasts of the taxpayers of the State.

ernment, including the police assessment was \$684,877. At that time, the State was wealthy and the prospects of the people CAUTOMIC. Rue Dulk Us the real property was assessed at a nominal price, and the State Government was in the hands of a body of cultivated and honorable gentlemen, who watched with unceasing vigilance over the liberties, as well as the pecuniary interests, of the people.

In 1868, when the people had lost their slave property, Governor Orr, whom the Radicals themselves regard as a wise, sound and practical statesman, estimated that the entire cost of the State Government, exclusive of the interest on the public debt would not exceed. \$375,000. The debt was less than \$5,000,000, bearing an interest of about \$300,000. Governor Orr's estimate, therefore, was \$675,000.

We now turn to the record of the Radical administration which is still in power.

For the fiscal year 1868, the Radical tax

State tax......\$1,263,259 00 Poll tax..... 70,748 00 Total 1868......\$1,835,104 60 It must be noted, moreover, that the returns from all the counties were not complete. The total poll tax, for instance, was really \$150,000.

For the fiscal year 1869, the Radical tax State tax\$1,014,901 00 County tax 607,756 00

For the fiscal year 1870, the Radical tax

State tax \$1,647,000 00 SINGING SCHOOL THIS APTERNOON, at half-past 4

Total 1870......\$2,415,047 00 For the fiscal year 1871, the Radica tax

State tax.....\$1,281,000 00

County tax 549,000 00 Poll tax..... 150,000 00 Total 1871.....\$1,980,000 00 It is plain, therefore, that the Radical administration are levying taxes of over

\$2,000,000 a year to pay for work which was done before the war for \$600,000, and could be done, under any honest government, for, at the wost, \$750,000. But this is not all. In order that they may obtain means for paying off the hage floating debt of the State in New York, the General Assembly anticipate the time of collecting taxes, and make the taxes for 1870 and 1871 payable during the present year. The taxpayers, therefore, are required to pay this year : Taxes of 1870.....\$2,415,047

While, then, the taxable property of the State is reduced in amount from \$489,000,000

1860, & \$183,069,000 (according to the State sment) in 1870, the taxation of one \$4,395,047 in 1871. Nor must it be forgotten that all property in the State is now asessed at far more than its market value; while in 1860 it was valued at much less than its real selling value in gold.

Worse remains behind. The taxes have peen raised from \$684,000 to \$4,395,047, and at the same time the acknowledged debt of the State is increased from \$4,934,-849 in 1868 to \$9,865,908 in 1870. Besides this, the General Assembly cancelled the first lien which the State had as security for the \$4,000,000 guaranteed for the Blue Ridge Railroad, and for the \$2,000,000 guaranteed for the Greenville and Columbia Railroad. It is also proposed to create a new sterling debt of £1,200,000, which would be absolutely at the disposal of the men who have increased the taxes eight-fold and have trebled the State debt. It is safe to say that the debt of South Carolina (without the sterling debt, and including the unsecured guarantees) is at least \$16,000,000. How much more it is, no man who is outside of the Radical Ring can say.

Is it not time that the taxpayers of the State, who are without representation in the General Assembly; who have been for three years the foot-stool of a gang of mercenary politicians and ignorant negroes; should band themselves together to save the State from utter ruin, and themselves from bankruptcy and the Poorhouse ?

The Way Out of the Wilderness.

We print to-day a second article discussing the evils which oppress the State, and which may be regarded as a natural; if not an inevitable, consequence of negro supremacy. The writer is a gentleman of position, thoroughly identified with the interests of South Carolina. It is his endeavor, while pointing out the disease, to suggest and explain a remedy-one, be it understood, which is pacific in character, and involves no resistance whatever to the laws of the State and of the United States. We ask, for the articles of Citizen, the thoughtful consideration whir! they unquestionably deserve.

The Duty of the People.

The Savannah Republican, alluding to the frightful burden of taxation imposed on South Carolina by her corrupt and irresponsible legislators, says:

"We have no hesitation in saying that resistance to the outrage complained of is a duty which the people of Carolina owe both to God and to themselves. We would not pay the tax, but repudiate, and take the responsibility. It must come to this sooner or later, and no better time for the issue than now. The American citizen who would refuse to support them in the position is unworthy of the name."

We have received from Fogartie's Book De pository the monthly parts completing the third volume of Lippincott's new edition of this highly valuable work. The first three volumes can be had either bound or in parts. So much praise has been bestowed upon Chambers's Encyclopædia that it is only necessary to remind our readers that the new edition is a model of typographical neatness and accuracy, and that the work itself is, beyond question, one of the most convenient, trustworthy and useful collections of knowledge

That's what's the matter, and there's no tonic that was ever got up equal to PLANTATION BITTERS. THE PUREST AND SAFEST .-The efficacy of HOSTETTER'S CELEBRATED STOMACH BITTERS as a specific for recruiting the enfeebled body and cheering the desponding mind, has passed into a proverb. In the United States, where this marvellous tonic has borne down all opposition, and eclipsed all rivalry, the demand for it has annually increased in a heavier and heavier ratio for years, until, at last, the regular sales of this preparation exceed those of all other stomachics combined. Eminent members of the medical profession and hospital surgeons without number, have candidly admitte that the pharmacopoia of the faculty contains no prescrip tion that produces such beneficial effects in dyspepsia, general debility and nervous diseases, as Hostetter's Bitters. To use the language of a venerable physician of New York, "the Bitters are the purest stimulant and the safest tonic we have." But the uses of the great vegetable antidote are much more comprehensive than such praise would imply. As a preparatory antidote to epidemic disease, a genial stimulant, a promoter of constitutional vigor, an appetizer, a stomachic and a remedy for nervous debility, no medicinal preparation has ever attained the reputation of Hostetter's Bitters. It is the household tonic of the American people, and in all human probability will be so for centuries to come. The magnates of science recognize its merits; and that it is emphatically the medicine of the masses, is proven by its vast and ever increasing sales.
