During the examination James confessed his guilt, criminating Cox, and said that he and another boy had entered the store and taken the hats away, which they subsequently sold to a shopkeeper up town. A few of the hats were recovered, and James was com-mitted to jail to await his trial. Besides being inculpated in the above transaction, Cox was proved to have been one of a party who entered the store of Mr. Ellas, and stole a case of shoes, valued at sixty dollars. NILSSON IS COMING TO CHARLESTON !- The announcement will be received with great gratification by this community, and we doubt not that she will be greeted by one of the lar gest houses Charleston has ever seen. The receipts, even should they exceed those of any public enertainment given here since the war, will neces sarily seem but a trifle compared with Nilsson's success elsewhere. At one mat 'e, in Boston, the receipts were \$8200. For nin, performances in Chicago-seven concerts and two oratorios-\$54,000 was taken in. At Terre Haute, a town of less than 40,000 inhabitants, one house yielded \$5700. At Jacksonville. Illinois, a place of 8000 inhabitants, \$4000 was taken in, and the same amount at Peorla, a town of 20,000 inhabitants. There never were such receipts before. No other country in the world has ever paid so high for a single performer, even in opera-much less in concert. Nil-son gets for her hundred nights \$100,000, in gold, and the expenses of herself and large domestic suite all paid. Her share of extra profits is about \$50,000 anditional. Max Strakosch earns about \$15 .000 by his bold venture, which has at his risk, \$50.000 having been deposited in ousiness man the Bank of England before Nilsson left Europe. his envelopes

IMPORTANT TO PILOTS .- The case of Charles Camp, pilot, against the steamship Virginia, for pilotage, was decided yesterday before Trial Justice Levy. The plaintiff had demanded the right of taking the ship over the bar, and, being refused by her captain, brought suit for his fees The captain of the ship defended himself on the ground that he would have been liable, under the law, to a penalty of \$100 if he accepted the services of a pilot without a regular license from the United States, and that the plaintiff had no such license. The collector of the port and the inspector of steamer- both testified, and the law od directing that all vessels, propelle wholly or in part by steam, should employ pilots licensed by the United States, under a penalty of \$100. After a thorough examination, the justice dismissed the suit, and decreed against the plain-

tiff for costs. FIRE IN COLUMBIA. -As two gentlemen were passing up Assembly street, on Thursday night, at about 11 o'clock, a crackling sound, as of tire, in the store of Montesta & Fielding, was heard. The alarm was at once given, and the firemen were promptly on the spot and worked with a will-the new engine more than paying for its cost in preventing the spread of the flames. The store of Monteith & Fielding was completely burned out inside, when ail at once, and after the are here had been got under, a fire singularly broke out in the buildings occupied by Mr. J. Leviu, auctioneer, which contained a large quantity of hay. The fire is supposed to have been incendiary, as the last dre broke out, skipping the intermediate store of O. Billugton. The peculiarity of the circumstances excited suspicions in that direction. The damage is probably eight or ten thousand dollars.

THE SISTERS OF MERCY FAIR .- The preparations at the Hibernian Hall, which had been egun on the preceding day, were pro ecuted yesterday with energy, and five large and conve mient stands now adorn the left side of the hall. Tuese stands are built especially for the purpose. and in addition to the broad table about four fee from the floor, have receding tiers of shelves the better to display the articles on exhibition. In the lower hall willing hearts and busy hands were wreaths of evergreens already woven and ready to decorate the stands and hall attest their industry. Several ornamental pieces of fancy tron work have also been secured, and, with the wreaths and flowers, will materially assist the decorations. The peculiar feminine work of cutting out lities and roses from white and pink paper seemed a labor of love, and a huge pile of these beautiful inodorous ornaments is in readiness to relieve the dark dressing of evergreens To-day the work will be renewed, and promise by night to make the hall bright enough for the fair ground of the mid-ummer fa ries.

The Excursion in Honor of the Southern Pental Association.

COMMUNICATED. The committee of arrangements, indefatigable in the performance of their duty, and not to be thwarted by adverse weather, heading the above named association, marched from the hall of the Phoenix Fire Engine Company, where the deliberations of the body were held. On their adjournment, they proceeded to the steamer Emilie, which had been engaged for the excursion. A more inauspicious day could scarely have been selected. Rain | rain | rain | and not a sign of its holding up. It was, truly, cheerless; but nothing daunted, the whole assembly met on the boat, and though the weather was calculated to make all feel gloomy and sad, these men, accustomed as they are to look down in the mouth. were not going to permit the rain or storm to interfere with the cheerfulness and fun which the occasion called forth. And so, as we said. they came out in full force, and determined, like Mr. Mark Tapley, to be jolly under the most adverse circumstances. Once aboard and sheltered. we found that the committee had made ample provision, and music, wine, love, flowers (and we were al nost going to say moonlight or sunlight, too, but we forgot the rain,) were there to cheer and gladden the heart, and to prop any drooping spirit that might there be present. The band struck up some inspiring airs, and off we started: and whether old Sol had made up his mind to join the party, certain it was that the clouds soon broke, and out he shone in all his glory. His genial rays soon brought us on deck, and this, with the delightful breeze on the river, soon turned what must have been looked upon as a very dull prospect into a very cheerful one. The scenery on the river was something new to our Northern visitors, and the hanging moss, which grows in such profusion from almos every tree in our damp climate, elicited their utmost admiration. At 1 o'clock we reache "Magnolia plantation," in St. Andrew's Parish, the property of the Rev. John Drayton, where we s opped to examine the phosphate deposits and he excavations made for the same. Here the visitors scattered themselves in parties, each bent on securing specimens as tokens of their visit. The spiendid garden, owned by the Rev. Ino. Drayton, was visited, and elicited their unqualified admiration at the exuberance of flowers, which grew in the wildest profusion, showing ertility of soil that seemed to owe its richness to the contiguity of the phosphates.

After this examination, we returned to the boa Ga., with a determination of being jolly himself and making others so, held forth with astonishing proficiency on the bass drum and cymbals, and hammered away at these with the same earnest ness and style in which we presume he hammers n his gold plugs. The same gentleman enlivened the party with song, banjo and story, but the "Pig" song carried away the party. Dinner being announced, we proceed to the table under the inspiring strains of music by Mulier's Band. A blessing was asked by Dr. William Reynolds, of Columbia, S. C. The dinner having been well discussed, the following toaste were offered and

The first regular toast, "The Profession of Dentistry," was responded to by Dr. Samuel Hape, of Atlan a, Ga. Dr Hape congratulated both so cieties on their prosperous condition, and review ed the ondition of the Southern Dental Associa tion, from a handful of men who originated it, to its giant like proportions of the present day. He concluded by saying, that as long as the Southern Dental Association would stick to him, he would tick to them.

Having the floor, Dr. Hape offered the second regular toast, 'The Profession of Medicine," which was responded to by Professor W. H. Trescot, of the Charleston Medical College. Dr. Trescot con gratulated the members of the dental profession present on the scientific attainments of their callng, and regarded and claimed it as a great special ty of med:cine. He concluded with a quotation from Shakespeare-"Let appetite wait on good digestion, and health on both."

The third regular toast, "The Dental Educa tion," was responded to by Prof. Barker, of the Penusylvania College of Dental Surgery. Prof. Barker felt proud of the occasion which prompted a response from the body he represented. He ongratulated the associations present on their advance in numbers as well as in scientific attainments. He felt sure that we all felt proud of the late member, John J. O'Nelli, Esq., we feel bound position which American dentists occupy. "In to place on our record our heartfelt tribute to his my opening remarks," continued Prof. Barker, memory. awed by the luxuriance of nature's floral products, growing in such wild profusion, in hues of brilliancy and gorgeousness. But sir, I have been impressed, and that deeply, that this a land of mourning for loved ones dead and mou dering to which he was the beleved object of affection, to decay, loved ones whose epitaph is written not on chiselled marble, whose color time will destroy, and whose texture will ere long crumble into dust. Net on proud masoleums built by human hands to test the skill of the architect or the hand of the sculptor, but who are commemorated by many mouses, firing emblem of mourning, and babiliments of wice which drops from your gnarled oaks, whose seed ger minated into life perhaps a thousand years ago and which gently swaying in the spft spinme winds or the more serene ones of antumn o winter, ever wail forth the same requient and teach the same lesson, that mortality must, soon er or later, be put aside for immortality, and only the productions of death dely the insatiate hand of time." In conclusion, he gave, "The health of the members present, and the profession in south Carolis," and called upon Dr. J. B. Patrick to sing "Shoo Fly." Ur. Patrick retaliated by a hap py allusion to Dr. Barker's pet Darwinian theory of the "Stub tailed Dog." This pleasant sally rought out Professor Atkinson; of New York, and lond cries were heard for the 'One Horn Buck."

The next regular toast was "Dentistry as a Specialty of Medicine and Surgery." The was sponded to by Professor Angell, of New Orleans Dental College. Dr. Augell allused in a happy style to the subject of the toast, and congratulate il present in the advance of our calling. The next regular toast was "The American

Denial Association " Responded to by Professo Atkinson, of that body. Prof. A. spoke of the free interchange of opinion, as well as the free commingting of the members of the profession frem all sections of our common country. He concluded his remarks by offering the health of

the Charleston Dental Association. Dr. Theodore F. Chupein, president of that body, esponded as follows:

Mr. President and Gentlemen-I thank you fo the nonce and for the good wish in which you for have received the toast which has been offered to the body which I represent. Let me assure you that I can answer for them—that hey wish you a ong life health bandwas. that I om answer for them—that hey wish you a long ife, health, happiness, and a snee said pro-lessional career. We have looked forward to this day with a ordidike yearning of joy; and now that it has come, we tender you a white-sae, he rivy and most generous welcome, one find all. In con-clusion 1 off r yo the following toas: "The ten-list" A clind asking her fat er what was a den-tist, was answered in the followin, complet:

"A dentist, my dear, makes teeth of bone, For those whom fate has left without; And finds proved a for ms own By pulning other people's out."

This, Mr. President, was the definition of years gone by. But now, let me add to the above the ollowing:

following:

A man of skill, a dexterous plugger
who makes his tream on gold and rubber,
Flitting people's tee h with golden plugs,
Flitting his puckets by work on their muga;
Making excavation, we are told,
To put in, not to take out, gold.
Cutting, fling, hammering away.
Restoring health to justiduous areasy;
Though called to be cheerful, "its time in the

Though called to be cheerful, 'tis time in the main,

Be business active, or duit 'tis the truth,
The man is forever looking down in the mouth.

But thus I could prate in no give a measure
of his work and his skill and general demeanor,

Gentlemen-The Southern Thental Association

Gentlemen.—The Southern Judental Association was organized for the convenience and profit of dentists residing in the Southern States, in which it is designed to hold their deliberations. Dentists residing in the Northern States are not thereby excluded from membership.

I need not attempt to say with what pleasure, as president of the Southern Dental Association, I accept for that honored body the kind considerations and hearty welcome extended to them by those estimable gentlemen who compose the South Carolina State Dental Association. Rest assured that while we entertain a high estimation of your skill as operators, and your desire for investigation and improvement in your profession, we truly sympathize with you in your profitical troubles and adversities, and pray that the darkness which overshadows your State interests may, soon be dispelled by the superior light, knowledge and truth of South Carolina's true sons and representatives.

At a regular meeting of the Society, held at the hall of the Freuudschaftsbund, this evening, the following proceedings were unanimously adopted: By the decree of an All-Wise Providence, our

No panegyric upon his virtues becomes our meeting. In life he courted not the applause of men, and his memory does not require their praise; his eulogy is in the deep and heartfelt grief of his friends, the sorrow of the many hearts and in the many testimonials of respect shown to his memory by the church and the community at large. One so honored in death, must, indeed, have been prized when alive. He was endeared to us by the relations he bore to us, and by the readiness which he evinced to render us any service that circumstances might require. His, in deed, was a spirit that seemed the embodiment of kinduess and charity, that hung around this hall with a zeal that enchanted, while it instructed. As a member of this Institute he was connected with us by all those social ties that link man to man. He was one of our most active and zealous members, of whom we feel proud, and whose memory and example we will ever cherish. As a Catholic, his faith was ever bright and firm. He illustrated the precepts of his holy religion by a virtuous, manly, independent and unostentatious piety. As a friend, he was ever kind, true and faithful. He has left behind him a character of unimpeached and unimpeachable integrity. He lived with us a friend and brother; he died among us with all the love

and respect which true virtue always commands. Be it, therefore, 1. Resolved, That it is with no ordinary feelings of sorrow that the Carholic Institute recognizes loss from among its members of John J.
