FRIDAY, JUNE 9, 1871. NEWS OF THE DAY.

Gold closed in New York, yesterday, at 12 1/2. Cotton closed dull and lower at 19 1/2; sales 100 bales. In Liverpool cotton closed easier; uplands 8 1/2; Orleans 8 1/4; sales 20,000 bales.

A terrible cyclone passed over a portion of Illinois on Friday. In its pathway it entirely devastated the earth, leaving not a particle of vegetation alive, and plunging up the earth to the depth of several fathoms. It was accompanied by electric phenomena and a sulphurous smell. Fortunately no houses were within its line of progress across the country.

There appears no way in which the California murders, Mrs. Laura D. Fair, can escape the penalty of her crime. The laws of that State do not permit the Governor to interfere in any other way than by granting an absolute pardon—a power which he will be loath to exercise in the present state of public feeling.

Charles, Duke of Brunswick, the great diamond fancier, now at Geneva, is so concerned about the safety of his rare jewels that he keeps them guarded day and night, and frequently starts from his sleep, dreaming he has been robbed. The possession of his precious stones is such a fearful responsibility that he has little rest, and no peace. In his will he has bequeathed all his diamonds, estimated to be worth \$2,000,000 or \$3,000,000, to the French ex-Prince Imperial.

they arrested the clergy and some of the neighboring inhabitants who came in to protest. The doors were shut, and the prisoners were informed by an officer, in a pompous speech, that the object of the visit was to seek for corpses in the name of 'high morality.'

The stone pavement was pulled up; the treasure of the church, which was very considerable, including gifts of precious objects and votive offerings worth more than \$50,000, was soon discovered in a cellar; but the search for 'corpses' was less productive. It was not till late in the evening, when the diggers got down deep into the old burial ground, that skeletons were found. During the night, the Guards, of course, got drunk in the intervals of their work they put on the vestments of the clergy, and executed dances and sang obscene songs before their prisoners.

The far-famed banking house of the Rothschilds, having been founded in 1771, will be one-hundred years old this year. Hon. George H. Pendleton is in Washington, and heartily endorses the Dayton platform of the Democracy. General Beauregard has accepted an invitation to spend the summer at the White Sulphur Springs.

Lyman J. Fullerton, of the firm of Ferguson, Fullerton & Co., St. Louis, died yesterday of an overdose of chloral taken to relieve pain.

The New York Postivists have adopted a resolution approving the intentions of the Commune, and calling for the execution of mankind upon the butchers of Versailles.

Some of the Ultramontane journals of the Continent are revenging themselves upon Garibaldi by accusing him of being a Roman Catholic at heart, and of having been secretly admitted to the Church within a few months.

The Passion Play at Oberammergau, interrupted last year by the war, is to be renewed on the 24th of June, this year, by command of the Bavarian King. None of the chief actors were killed during the campaign, as they were assigned to garrison duty. The player representing Christ was not permitted to cut off his long, luxuriant locks.

little remarkable that the murmurs of battle have not reached us; no, not even in the British Reviews and Magazines. On the contrary, we find, in a late number of Good Words, the Rev. Charles Kingsley defending his devotion to physical science, and thanking God that the 'civilized nations of Europe and America are awakening steadily to the great truths, and learning to live more and more according to the laws of physical science; and gaining, by so doing, year by year, more and more of health and wealth—of peaceful and comfortable, even of graceful and elevating, means of life for fresh millions.'

The Wild Women of Yankeland.

Grace Greenwood, who ought to be ashamed of such company, gives her sister female suffrage fools rather a stinging rap on the knuckles. At the initial meeting of the New England Female Suffrage Association, she announced that she was willing that three classes only of women should be allowed to vote—

- I. Single women who had property. II. Married women who had minds. III. Such others as might desire the ballot.

This sounds a little ironical; but she added that a good watch, a clothes wringer, and a sewing machine should be the property qualification; and the ability to support their husbands well, and to keep a good boarding house, should not be overlooked in the requirements of the Government Examiners. Tart, that!

It is to be observed that both the male and female women who figured at these suffrage meetings are concerned as much or more about free love and 'social evil' than about voting. From which an inference might be drawn.

Apropos of this unsexing business, we see it stated in a Western paper that a Swedish woman's rights woman, who tried to plough and failed, was so twitted by her husband that she actually hitched herself to the plough side by side with a steer. She pulled well, but the steer outpulled her. Enraged by this, she made a desperate effort, and either broke her heart or ruptured a lower and more elongated viscus. At all events, she dropped dead in her tracks, and the steer unconcernedly hauled her to the end of the furrow, where her husband cut her out of the traces and buried her.

No. 28 PINE STREET, N. Y., Nov. 21, 1867. UDOLPHO WOLFE, Esq., I have made a chemical examination of a sample of your 'Scliedam Schnapps,' with the intent of determining if any foreign or injurious substance had been added to the simple distilled spirits. I would not hesitate to use myself, nor to recommend to others, for medicinal purposes, the 'Scliedam Schnapps' as an excellent and unobjectionable variety of gin. Very respectfully yours, (Signed) CHAS. A. SEELY, Chemist.
