The streets are returning Parisians.

Ex-Presiden. Davis declines to lecture in Mobile, because, he says, his words would be abused by political opponents in the North to injure his Southern friends. The following is the closing portion of Mr. Davis's letter : "It surely would not be difficult, with the freedom you allow in the selection of a subject, to avoid any expression which could fairly be used to the injury of my Southern friends, but it would hardly be possible under existing cirforward to the better day when such restraints shall no longer exist, I beg you to make my acknowledgments acceptable to your associates, and to accept for yourself assurances of the high regard with which I am your

-The Union Railroad Depot of the New York Central River, New York, and Harlem and New York and New Haven Rallroads, just completed in New York City, covers an immense parallelogram, extending from Forty-second to Forty-fifth streets, 692 feet long and 240 feet wide. The building is constructed in the "Renalssance" style, and the materlals are smooth red brick and iron painted white. The centre of the facade on Fortysecond street, on the south side, presents tower 130 feet high, with towers 110 feet high at each corner. The facade on the west side presents three towers 110 feet high. The north side is constructed entirely of iron and has 10 high iron arches for the passage of trains. The building is 40 feet deep on each front for the offices and waiting rooms, and is three stories high. In the interior is a central space 650 feet by 200 feet, covered with a roof formed of glass and corrugated iron, and supported by 31 semi-circular iron trusses four feet wide and one foot thick. Twelve lines of rall run the entire length of this large shed, and are divided into groups by raised plat

forms of stone and cement. -Dr. Dollinger and his prominent adherents have at last formally declared war against the Pope and those who maintain the authority of the Vatican Council. The occasion arose from the publication, by several German bishops, of a pastoral in which they required the faithful to obey the decrees of that council. Dr. Dollinger and his associates have replied formally to that document, and in plain terms repudiate the sentence of excommunication passed upon them. "We repudiate," says this manifesto, "the threats of his bishops as unjustifiable, and their violent measures as invalid and not binding." They go on to state that the decrees of excommunication issued against those who reject the Vatican decrees "are as null and vold as they are unjust, and can neither deprive the faithful of their right to the sacraments of Christ, nor priests of their power to administer them." This announcement of the view they intend to take is likely to cause still greater agitation in the church than now exists, and as the document is signed by the head of the movement, by professors in several German universities and by members of the Bavarian court and government, it is expected that it wili bring about a collision between the King and the Archbishop of Munich. .

It was soon on the wires, in the Herald office, "headed," "displayed," "double leaded," and the usual "leader" written upon it. When it appeared the next day the Tribune and Times were sadly discomfited. An investigation took place in Washington, Wikoff was imprisoned, and he and Mrs. Lincoln suffered untold agony of apprehension. Finally she confessed all to Abraham, and he confessed to the investigating committee. The matter was hushed up and Wikoff set free. Just before that Mrs. Lincoln and the Empress Eugenie had been discovered by the editor of the Herald, but has not been alluded to since. The leader and the subsequent results belong in the category of remarkable newspaper coincidences. -

Our Public Schools.

Friday last, the 30th day of June, witnessed one of the most melancholy sights which Charleston has ever beheld. Three thousand children were sent to their homes and denied the benefits of Public School instruction because of an alleged want of means with which to pay their teachers.

Now we have some sober words to say to the people, but more especially to the colored people, who are directly responsible for the consequences that have fallen upon us; for it certainly cannot be said of the white citizens that they have ever made the mistake of entrusting large sums of money to the keeping of doubtful or irresponsible men. The large sum of \$320,000 has been collected in Charleston County alone, within the last three months, and \$150,000 have been appropriated by the Legislature for the education of the masses. These amounts have een wasted, misspent, misapplied, or stolen.

Now the money collected from the tax paving citizens when placed in the Treasury of the State or City, becomes the property of the people—the property of the rich and the poor-of the black and the white alike. But when the money is wasted, misspent, misapplied, or appropriated by the officer in charge of it, to his own private uses, the becoming crowded again with foreigners and poor must of course suffer most. Every child sent home from school will convey to its parents, in words far stronger than ours, the announcement of the public outrage that has been perpetrated.

The white people as a class (fortunately

children to pay schools; but it is not so with the colored people. Mostly poor, and living from hand to mouth, their children must go without any instruction at all. Now how cumstances to prevent my words from being has this state of things been brought about? abused for such a purpose. Hopefully looking | The answer is plain: Men devoid alike of honor and common honesty, are put into places of honor and trust. Formerly, none but men of the highest character could obtain an office of trust or emolument, and although of unquestioned integrity, they were required to give the heaviest bonds for ports to be a copy of a letter from Bismarck to the faithful discharge of their duties. But how is it now? Mere adventurers, men who of some tobacco, with a request that the fra- have "left their country for their country's "good," are placed in positions where sums of money that they are scarcely able to coun are at their mercy. And whose fault is this? We answer, the fault of the colored voter. Hear what Mr. Greeley says on this very subject: "The colored people have "proved themselves unworthy of the ballot. They have brought disgrace upon our par-'ty by the election of harpies, adventurers "and scoundrels to office."

Now we say to the colored people in all calmness and friendship, "Let the dead 'Past' bury its dead," and let us all endeavor to secure in the future the services of men of recognized virtue and integrity, men who will not plunder our treasury, who will not buy fast horses and keep up expensive establishments with the money which was appropriated to teach our children how to

read and write. But, how are the schools to be reopened? The Constitution of the State guarantees the right of the people to assemble and petition for a redress of their grievances. Meet, therefore, en masse, fellow-citizens, white and colored, rich and poor, in your different wards, and demand from the party in power the instant dismissal of all delinquent officers. Make them disgorge the last dollar of their ill-gotten gains. Parify the political atmosphere, and give a healthy tone to every department of government-both State and Municipal. The Public Schools must be reopened.

THE Camden Journal has the following paragraph, which we commend to the careful study of our rising politicians:

"A county commissioner of Kershaw draw an order on the county treasurer for one dollar to relieve a transient pauper, and charges the county three dollars for his services in the premises. A brother county commissioner objecting to the charge, is bullied and denounced as a deserter to the Democrats."

Our Radical friends, on reading this, will be highly indignant at the Democratic press for making such a fuss for a paltry two dol-

Even the Radical organ is constrained to applaud the citizens' choice of a nominee for the Mayoralty. It says: "We have "nothing but the kindest words for General "Wagener himself. He is a good and "honored citizen, and has done many things for this the city of his adoption. We can "say this with justice."

Political Notes. DISCUSSING Chase and Hancock as Demo-

cratic candidates for President and Vice-President, the New York Herald says: "In the very sound of this ticket of Chase and Hancock there is strength. Let the Democracy adopt it, and they will have no defensive battle to fight in 1872 on dead issues; but they will be famous war and emancipation message before free to take the offensive and to carry the war its contemporaries had even a knowledge of into the enemy's camp." Chase or Hancock the tenor of its contents. There was a prodi- will hardly do, but Chase and Hancock is a gious hue and cry in Washington over such splendid ticket, even for the fight against Gen-

cured. But the mystery is at last solved. It generally regarded as certain. The New York World says: "No other candidate has been presented with any show of Republican support worth consideration except Horace Gree ley. A single fact will render it it impossible to unite upon him the votes of anti-Grant Republicans-he is a rabid protectionist. So large a proportion of the opponents of Grant are anti-protectionists that it is beyond possibility for them to agree upon Mr. Greeley; nor are other disabilities lacking. A very large share of the anti-Grant Republicans are Ger mans; but Mr. Greeley is a noted prohibition ist. A very large share of them are men edu cated in the Democratic faith, who separated from the Democratic party because of ques tions growing out of slavery and the war; but Mr. Greeley is the one living representative of the dead Whig party. While these and other causes prevent a union of anti-Grant Republicans upon any candidate, General publication a remarkable resemblance between Grant has at command and unhesitatingly uses agencies more powerful now than at any past period in our history."

THE Springfield Republican, the ablest Re publican journal in New England, has this to say : "The fate of the Republican party, in the next Presidential campaign, lies partly in the degree of success that shall attend the effort in the Democratic party to complete its new departure, and partly upon its own reform legislation at the next session of Congress. The practical wisdom, the personal integrity, and the administrative ability with which it grapples, next winter, with the questions of revenue and currency and tariff and civil service, are the tests of its future. It is evidently preparing to meet these questions in a different spirit from that in which it has treated them for the last two years. General Grant and his executive assistants are also put upon the same trial with their party followers in Congress. They must depart as well; depart from corrupt schemes of outside annexation; depart from careless indifference to public interests, and selfish care for private ambitions, and give more heed to the great business interests of the country; they must learn to administer more impartially, more honestly, more unselfishly, and more intelligently-else the sceptre will depart from them, even if it does not depart as well from their party."

HOW WE USED TO BE PHYSICK ED .- Who does not remember the time when spring purgation was considered indispensable to summer health? No matter for wry faces, the inevitable salts and senna, rhubarb, or calome and jalap, must be administered. These "spring medicines," the youngsters were told, were to keep them hale and hearty during the summer We all know now that this was a fallacy; that new vigor, not depletion, is what is required at the commencement of the summer solstice. As preparation for the enervating effects of oppres sive summer weather, a course of HOSTETTER'S STOMACH BITTERS is highly expedient. This famous vegetable preparation has three prominent properties: It renovates, purifies and regulates all the functions of the body. It is composed exclusively of pure vegetable productions, vizthe essential principle of Monongahela Rye, and the most efficacious tonic and alterative roots barks and gums known to medical botanists. Hence, it is an absolutely safe medicine, and no tincture of the Pharmacopæia can compare with it, either in purity or in the variety of its objects and its comprehensive results. Happily for mankind, the theory that it was necessary to pros trate a patient in order to core him, is forever ex ploded, and the true philosophical doctrine, that vigor is the great antagonist of disease, has taken its place. Hostetter's Bitters is an invigo rant, and hence it is the proper medicine for th e ble at this most trying season of the year.

Be sure that you obtain the genuine article, as there are innumerable vile imitations in the mar ket. Look to the ornamental stamp, the engraved label, and the name blown into the glass. Hos tetter's Stomach Bitters is sold in bottles only. july1-stuth3 D&C
