MR. JAMES O'NEALE, a venerable gentlemen, who may have been noticed each Sabbath by the congregation of St. Michael's as he was led to his the ripe old age of eighty years. Mr. O'Neale was nals, to the effect that there were hardly any seat in the church, expired yesterday morning at clerk of the choir in days long gone by, when the hymns and psalms were read aloud by him, and was for many years, subsequently to the abolition of this office, sexton of the church. His aged form has long been one of the landmarks of a bygone age. His funeral takes place this afternoon

ANOTHER REVIVAL OF BUSINESS .- The old saw mills on the pon-1 near Calhoun street, which have been known for so many years as Bennett's Saw Mills, are now in active operation again, after a suspension of four or five years, caused by the duliness in the building trade since the war. The new proprietor is Mr. T. F. Brodie, who purchased the water lots and the old mill at the recent sale of Governor Bennett's property, and after putting some repairs on the mil, resumed operations there about ten days ago, and has been busily running ever since, with every prospect of a continuance of a lively and profitable bnsiness.

POULTRY THIEF DISTURBED .- About halfpast 3 o'clock yesterday morning a colored boy was observed by a policeman, in Radcliffe street, upon his shoulders. Hailing the boy, the police man ordered him to halt, but, without minding the command, the boy took to his heels. The man in bine followed in hot pursuit, and the boy, inding the bag in his way, dropped it at the corner of Coming street, and made his escape in the darkness. On examination the bag was found to contain fifteen chickens and a pair of English ducks. These were afterwards identified by and restored to a woman who resides in Coming street, from whom they had been stolen.

CLUBS AND STARS.—Ann O'Dwyer, lodged for being drunk and unable to take care of herself in King street, was sent to the House of Correction for ten days.

John Williams and Paul Watson, two fancy youths of color, arrested for cursing and swear ing, and gambling in Line street, were sent to the House of Correction, for ten days each, as va.

John Evans, arrested for Jagrancy and on suspicion of larceny, was held for further examina-Three goats, found wandering on Meeting street. were lodged in the yard of the Guardhouse, and

one dollar for each.

COLLECTING RENT .- About 8 o'clock on Thursday evening, Robert Vesey met a tenant of his named James Goodwin, on Meeting stree opposite Chalmers, and thinking the opportunity a good one dunned him for a small arrear of rent which had been due for some time past. Goodwin became highly indignant, and resenting the insult, struck Vesey a stunner over the left eye, which brought him headlong to the pavement. Jumping upon his prostrate foe, Goodwin then began to administer a severe punishment, when he was interrupted by two colored men who witnessed the affair. The combatants were separat. ed and Vesey took to the law. The case came up Goodwin was sentenced to pay a fine of \$23 and costs, which he did in preference to going to jail for thirty days.

PRIZE FIGHTING.—Wednesday night on the Meeting street road Alexander Simmons and Stephen Campbell, two colored sages, began to discuss the qualities necessary for a champion in the ring. The two differed materially, and coming from generalities to personalities, Stephen at Clength volunteered to give Alexander a dressing.
The latter immediately showed fight, and throwing himself into a striking attitude, confronted to his heels. Aleck pursue I and gave the fiving foe several blows with his fist, not to mention s few applications of his heavy cowhide brogans. Stephen applied to the law, and yesterday morning Aleck was brought before Trial Justice Levy, charged with an assault and battery. He was found guilty and sentenced to pay a fine of one

THE WEATHER .- "A severe storm is pro bably advancing northwestward over Florida, which will bring strong easter.y winds and rain to the touth Atlantic coast." So said the clerk of the weather in Washington of the probabilities for Friday, and the prediction has been literally verified. The strong easterly winds were at work in the morning, and during the afternoon and evening they made themselves felt and heard most unmistakably. The way in which the gale swept down the streets and around the corners was ominous for loosely fastened signboards and projecting tiles, and the filmsy covering of an umbrella only afforded sport to old Eurus as he drove the blinding spray beneath every angle and into every corner of the shivering canvas and whalebone. The promised showers ably seconded the efforts of the wind, and the heavy flood pouring upon the housetops awoke many a sleeper. At night it was worse than ever. Jam satis. We have had enough of this for the present.

STREET GARBAGE.-M. Powers was reported yesterday morning and examined before the Mayor, charged with not removing the offal from Beaufain street before 11 o'clock on Thursday morning. The evidence showed that the street contractor's cart had been around the street and cleaned it of all filth at an early hour in the morning, but that this offal had been thrown out late in the day, after the carts had gone by. Powers was forthwith discharged. The whole community are interested in this matter, and it is of the highest importance that the scavenger work should be thoroughly performed. The citizens should certainly do their part in cleaning their premises at an early hour. When the street contractors are in fault they are reported and brought up before the Mayor, and the proper officers should see that lot-holders do not endanger the health of the neighborhood by allowing filth to remain upon their premises until the heat of the day. The condition of East Bay yesterday morning was very filthy, and upon the recommendation of Mayor Pilisbury the acting street inenector sent down a gang of four men, during the afternoon, to sweep the street.

THE NEW TELEGRAPH COMPANY .- The Savanuah Advertiser says: "After a protracted season, fraught with difficulties and delays, and with intense opposition to contend with, the Southern and Atlantic Telegraph Company, of which Colonel Coles, of this city, is vice-president, has extended its line to this city, and will, within a week's time, open an office for the accommodation of the public. The entire line, by the time the telegraph poles have been erected in the various streets will be finished from Savannah to Washington affording telegraphic communication to all points of the country. This competition (and it will prove a most formidable one) with the Western Union will serve to reduce the rates of transmission materially, cutting down the expense of telegraphing to a figure that will enable the use of the wires to become more general. While the Western Union is a weil-manage and reliable institution, its monopoly of the business in this part of the country has rendered telegraphing somewhat greater in proportion to the tariff in force in the States where rival lines provoke a healthy competition. If we are not mistaken, the Southern and Atlantic numbers among its stockholders quite a number of merchants and moneyed men in this city, as well as in nearly every Southern corporation from here to Washton. Under these circumstances, it behooves ns to extend the new line all the aid and comfort possible. The location of the company's office has not been fixed upon, but it will doubtless be IMPROVEMENTS IN OUR CITY.

A Sketch of a Few of the Building En terprises in Progress-New Churches, Seminaries, Halls and Residences-Some of the Slanders about Charleston Refuted by Facts.

A number of statements have appeared who have during the past year visited Charleston in the interests of some of the New York jourbuilding operations in progress in this city. Some of these correspondents, particularly one "G. W. S.," who represented the New York Tribune, even went so far as to say that there was not in the City of Charleston a brick being laid or a building erected-that the ravages of war had been left undisturbed, and that, in fact, the mural progress of Charleston had utterly stopped. Such statements as these cannot fall to have a more or less injurious effect on the industrial and business reputation of the city, and they are, moreover, so completely at variance with the truth that it becomes a matter of simple duty to point out their glaring inaccuracies, and apply the anti-icte of truth to offset the parti-an poison of such mali-

clons misrepresentation. It is perfectly patent to any one who walks about the streets of Charleston, not only that the building industry of the city is not asleep, but that the number of houses in process of erection is innprecedentedly large for this season of the year, nd the writer of this article, accosting a prominent builder, yesterday morning, requeste I from him some facts as to the number and description of buildings in progress or projected. An invitahurrying along with a suspicious looking bag tion from the builder to accompany him on his daily ride among the various works under his charge was extended and accepted, and following facts were the result of the morning's observations:

THE NEW GERMAN CHURCH. On King street, near Vanderhorst, stands the new German Lutheran Church, its spire, which will be the tallest one south of the Potomac already reaching the height of 235 feet. This is an elegant Gothic structure, which is being constructed in the most thorough manner, and is exnected to be finished during the coming fall. A full description of the building, as it is to be, has already appeared in THE NEWS, and it will not be necessary, therefore, to repeat it here. The work upon it is being pushed forward as rapidly as pos sib'e, and one very interesting portion of the work is the carving of the heavy finial that is to surmount the lofty spire, on which eight carvers are now constantly employed. This finial is in the s ape of a floral cluster, and will be, inclusive of the crown which will surmount the whole, twenty feet high. The building when finished will cost \$75,600, and the bonds necessary to meet this expense being now all disposed of, there is every probability of the early completion of the delivered to the owner upon payment of a fine of edifice. A BRAVE GIRL'S ENTERPRISE.

Not far from this structure, on St. Philip street, ust opposite the Charleston College, a building s approaching ecmpletion, which not only marks the mathetic progress of the city, but affords remarkable illustration of the energy and ability of a young lady of Charleston, barely twen'y years of age, Miss Etta Kelly, who is here erec ing increased accommodations for her already flourishing young ladies' seminary. The seminary numbers some one hundred pupils, and i now conducted in a building not specially erected nor particulary adapted for the purpose. The new building will, however, be an ornament to this portion of the city, and afford every facility for the purposes for which it is intended. It is before Trial Justice Levy yesterday morning, and three story frame building, with brick foundations, measuring, on the ground plan, 50 by 6 feet. The first floor will be devoted to play rooms the second to class rooms, and the third is occu pied by a large hall for general exercises, calls thenics, &c. Especial attention has been paid to the arrangements for light and ventuation, and in these respects it will be equal to any building in Charleston. The outside walls will be painted and sanded in imitation of stone, and the roof will be of tin. This building is to be finished and ready for occupation on the 1st of October.

THE MASONIC TEMPLE. Another important public institution soon to b the valogiorious Stephen, who incontinently took | erected in this vicinity is the new Masonic Temple, on the corner of Wentworth and King streets. The old Masonic Hall, the site of which is to be used for the new edifice, is being rapidly demolished, and the massive wals of the new building | East Bay and Central wharf. will soon begin to rise. The new temple is to be of brick, three stories ligh, with a front of 66 feet on King street and 116 feet on Wentworth street. | \$5, \$6 50 and \$8 50 per thousand, according to dollar and costs, or rusticate at Sheriff Mackey's The building will include three fine stores on King street, and a main entrance on Wentworth street. The front portion of the second and third floors of the building will be occupied by a Grand Lodge room of magnificent proportions, the domed and tesselated celling of which will be fifty feet from the floor. The two fronts will be identical in le sign and very ornate, the spaces between the circular headings of the third story windows being emblazoned with a number of shields bearing Masonic emblems.

NEW STORES ON KING STREET. A number of improvements are in progress on King street, which will add greatly to the appearance of that thorough are. At No. 263 King stree a new brick front is being erected, to be finished with ornamental iron caps, and trimmings with rustic corners. The store on the first floor of this building will be occupied by Mr. John R. Reid for his lace and fancy goods basiness, and the second and third floors by Mr. S. T. Souder's photo

graphic gallery.
On the same street, nearly opposite Hase street, an elegant building is soon to be erected by Mr. John C. H. Claussen, on the site at present occupied by Taylor's old shoe store. This front DRESS will be built entirely of iron and glass, and will probably be the most ornamental business atruc ture in the city. A full description of the new

building was given in THE NEWS of last Tuesday Besides these improvements, negotiations ar in progress for the erection of a block of five brick stores on the east side of King street, just below Market, which will have the desirabl effect of closing up a wide gap in the unsightly burnt district, and an offer has also been made for the purchase of two other lots in the sam vicinity for the purpose of erecting two more

NEW DWELLING HOUSES.

On the south side of Cumberland street, a few loors from Meeting street, a very handsom brick dwelling and store is rapidly approaching completion. It is being built for Mr. P. L. Guille min, for a residence and gasfitting establishment and will be two-stories high, with a bold Mansard roof. The general plan of the building is an inge nious combination of the Northern and Souther style of architecture, and it has some features that will be quite novel in Charleston. One of these is the wide bay window that will form the store front and be surmounted by a balcony on the second-story front. The building measures sixty-eight by twenty-eight feet on the ground plan, and includes, on the ground floor, a store a workshop and a commodious plazza; the sec ond floor containing a parlor, a dining room,

kitchen, pantry and two chambers. Three small dwellings are also going up on Queen street and one on Archdale street, each of them being two and one half story frame house with 'inned roofs, and similar structures hav een commenced in other parts of the city, with a view to affirding cheap and comfortable homes to persons wite small families and limited means On South Bay, a few doors west of Colone Lathers's new and elegant residence, a series of elaborate improvements are being made on one of the tinest old dwelling houses in the city. The building is being enlarged and remodelled; the kitchen which was formerly isolated from th main building is being connected thereto by a brick extension, and the plazza is being recor structed and heightened by the addition of one story, which addition will afford one of the finest views to be had in the city, embracing Jame Island, Secessionville, the Hundred Pines, Fort Sumter, John's Island, Battery Simpkins, and the whole sweep of Ashley River for miles along the

MISCELLANEOUS IMPROVEMENTS. Some considerable improvements are in progress on Schachte's Hotel on the corner of King and Vanderhorst streets, the plazza in the rear of

which is being restored and modernized.

On Brown's wharf a series of substantial cotto sheds have just been completed for Messrs. Pelzer. Rodgers & Co., which cover 12,237 squar feet, and on Union wharf the very ext sheds of the Union Wharf and State Press Companies are being thoroughly overhauled and re paired in anticipation of the fall business.

A new Catholic church is being erected on Sullivan's Island, and is progressing finely. The walls from time to time, in certain newspapers, and are up five feet, the buttresses are completed, as especially in the letters of a few correspondents is also the basement, which is now ready for the first floor joists. It is expected, also, that con tracts for a number of private cottages, on Sulli van's Island, will be given out during the coming fall and winter in anticipation of the requirement

of next summer's visitors to the island. This completes a list of seventeen building en terprises, varying in importance from the erec tion of a \$100,000 block of buildings to the re modelling of a dwelling house, but giving em ployment altogether to fully three hundred and seventy-five artisans and laborers, and it must be borne in mind that this represents the work now in actual progress in the hands of one contractor only. There are contained in the Directory the names of thirty-seven other contractors and builders, no one of whom perhaps does quite as large a business as the one referred to here, but whose present operations in the aggregate wor prove a very large addition to the list now give of improvements in progress, and it is our po pose to recur to this subject from time to time, order to keep up with the growth of the city, a to complete the refutation of the malicious sle ders with which, for purely partisan purpos her character has been assailed

PUBLIC SCHOOLS.

At a meeting of the city board of school commissioners, held at the Normal School, on the 18th instant, the following resolution was unanimously adopted, and ordered to be published in the daily papers of the city:

Resolved, That the superintendents be authorized to allow the use of the school-rooms to suc of the principals or teachers of the common of the principals or teachers of the common schools as may be disposed to carry on schools on their own accounts, between this time and the reopening of the schools by the board on the list of January ensuing; provided, that the schools be conducted on the plan heretofore established by the board, and at the expense of the teachers applying for the same, and the rooms be surreadered whenever required by the board or the same perintendents in the same good order in which they received them. ey received them.

of the proceeds arising from the sale of Tickets will be appropriated to the establishment of a FREE LIBRARY IN LOUISVILLE, TO BE CALLED THE

PUBLIC LIBRARY OF KENTUCKY.

The Concert and Distribution will take place under the immediate supervision of the Trustees mentioned in the act of incorporation.

The Trustees will be assisted by well known and eminent citizens of K. ntucky, who have consented to be present at the Concert and to superintend the drawing and distribution of Gifts.

The holders of Tickets to which Gifts are awarded will be paid on presentatin of them or their fraction, at the office in Louisville, the second day after drawing, and every business day for six months thereafter, and may be sent direct or through any Bank or Express Company for collection. All orders accompanied by Drafts, Postoffice Money Orders, or Greenbacks, will be promptly attended to and Tickets returned by mail, registered or expressed, as desired.

Tickets are like Greenbacks—good only to the holder.

Bayers will note that there are only one Hundred Thousand Tickets, instead of Two Hundred Thousand, as in the San Francisco Gift Concert, and that there is \$50,000 more distributed. I sold that and made the awards in four months and paid \$448,000 to ticket-holders from November 2d to 15th, 1870, and turned over \$12,000 to the Secretary due tickets not presented.

It will be particularly noticed that it is a matter of impossibility for any-one to know what numbers draw gifts, as it is not known what the gift of any number drawn from the first wheel will be until the sealed box, with amount of the gift piainly printed, is taken from the other wheel and opened in full view of the audience, therefore the larger gifts may not come out until towards the last, or in the middle of the drawing. The \$100,000 gift in the tan Francisco Gift Concert, under the management of C. R. PETER; was the 200th number drawn, and was awarded and paid to a gentleman in New Orleans. 712 Gifts is sail that can be drawn in one day.

The Numbers and Gifts are drawn by blind children from 8 to 14 years of age.

The Drawing will be extensively published, and parties ordering Thekets will have printed lists sent them. Parti The Concert and Distribution will take place under the immediate supervision of the Truste

11 TICKETS FOR \$100; 28 TICKETS, \$255; 56 TICKETS, \$500; 113 TICKETS, \$1000.

The undersigned, late principal business manager of the very successful Mercantile Library Gift Concert at San Francisco, Ual., has been appointed agent and Manager of the Gift Concert in ail of the Public Library of Kentucky.

The Brawing will take place in public, and everything will be done to satisfy buyers of tickets that their interests will be as well protected as if they personally superintended the entire affair. MANNER OF DRAWING.

There will be two glass wheels. One wheel will contain 100,000 numbers, plainly printed on leather tags. The other wheel will contain 721 boxes, each containing a gift. One tag or number will be drawn from the 100,000 wheel, and the first box drawn from the second or 721 box wheel will contain a gift, neatly printed and sealed up, and the gift so drawn from the second wheel will be the gift of the first tag drawn, whether £100, \$1000, or \$100,000, as announced.

14,364 TICKETS DISPOSED OF IN JULY.

To insure ticket ho'ders, the public are assured that if only 25,000 tickets are sold only 25,000 num

To insure ticket ho ders, the public are assured that if only 25,000 fickets are sold only 25,000 numbers go in the large wheel, the 721 gifts awar ed, but dimnished pro rata. In case 50,000 tickets only are sold, only numbers 1 to 50,000 go in the large wheel, and the 721 gifts diminished one half; and in case only 85,000 tickets are sold, the entire 721 gifts will be paid in full—it being intended that no unsold tickets shall participate.

The Manager has already paid into the Citizens' Bank \$50,000 towards defraying the expenses, and does not depend on sales of tickets to pay his expenses of printing, advertising, &c. The public are invited to the utmost scrutiny as to the reliability of the entire affair.

Persons desirous of acting as Agents for the sale of our Tickets in any city in the United St ates of Canadas, address

STANDARD TEXT BOOKS. By Professor ASA GRAY,
Of Harvard University,
Author of "How Piants Grow," "School and Field
Book of Botany," "Manual of Botany," "Structural and Systematic Botany," &c., &c.

"Botany should be taught in every school, and these Volumes should be the Text-Books."—Prof. J. S. Davis, University of Virginia.

The publisher, beg to call the attention of those about forming classes in Botany to the well known works by Professor Gray. Having been carefully revised, they present the latest and most accurate principles and developments of the science, and it is sufficient indorsement of them to state that they are used in almost every noted College, Bigh School and Seminary in the country, and are recommended over other series by nine-tenths of the leading Professors and Botanical Teachers in the United States.

No author has yet approached Professor Gray in

United States.

No author has yet approached Professor Gray in the rare art of making purely scientific theories and dry details popular and interesting. From his charming elementary work "How Plants Grow," to his more elaborate "Manual," there is one simple, concise and yet exhaustive method of teaching the various grades of the study.

Descriptive Circulara, giving full titles and prices, will be forwarded by mail, to any address, on application.

application.
