The Charleston News.

MONDAY, DECEMBER 18, 1871.

NEWS OF THE DAY.

-Gold closed on Saturday at 9 a9 1. -In New York, catton closed dull and nominal; uplands 19% cents; sales 1106 bales. The Liverpool cotton market closed

steady; uplands 10d.; sales 12,000 bales. -The bark Mary Stetson, from New York, bound for Aspinwall, has been abandoned at sea. -John R. Duff, a clerk in the postoffice at

Memphis, drew the twenty-fine thousand dollar-prize in the Louisville Library Lottery.

four hundred and twenty thousand dollars to pay interest on gold bonds, on Saturday. -Germany, under her new military organization, will be enabled, in case of war, to put in the field within five days an army of 1,300,-

000 men. -The ice crop will be a very large one next year. Everywhere the ice men are already gathering good supplies of ice, varying from six to twelve inches in thickness.

-Subscription of the thirty-nine articles in no longer a prerequisite to receiving a degree from Oxford University. The English press seems to welcome every indication of a religious toleration.

-Dr. O. W. Hess, formerly business mans ger of Crosby's Opera House, who attempted to commit suicide a few weeks ago, died on last Wednesday night, at Chicago, from the effects of the wounds.

-Robb, the collector of Savannah, after full and free investigation on the part of the prosecution, and under the statement of the district attorney and charge of the court, was on Saturday honorably acquitted by the jury without leaving the box.

-A shooting affray occurred in front of the postoffice, in Richmond, Va., on Thursday last, between John Snelling and Andrew Montiero, both sporting men, which resulted in Snelling being probably fatally wounded. Montiero was arrested; he is but slightly hurt. -Governor Walker, of Virginia, has pardon

ed ex-Mayor Chahoon, of Richmond, hereto fore twice convicted of complicity in the Hauenstein forgery. Very general satisfaction is expressed at this action of the Governor, who states that his principal reason for so doing is that it was earnestly recommended by a very large number of worthy citizens. -Saturday morning the caboose car of a

material train on the Virginia and Tennessee Railroad was thrown to the bottom of a ravine while crossing a bridge near Salem. The conductor Robert A. Fagus, and a colored man, named Frank Campbell, were killed. The contents of the stove set fire to the car, destroying it and burning up the two bodies, together with several spans of the bridge.

-The Japanese Mikado, in pursuance policy to popularize his government, lately appeared in the streets of Yedo, driven in an English carriage, four-in-hand, with only four running footmen. Subsequently, he walked out unattended, and has issued an imperial order torbidding the performance of obeisance and ceremonies formerly prescribed by law on those who met the Mikado face to face, or were passed by his official emblems.

-The Catholic Bishop Barclay, of New Jersey, who lately delivered a temperance address before the Catholic Total Abstinence Union of that State, is reported to have declared that he has "ordered the clergy to refuse Christian burial to those who die of the effects of liquor as well as those who sell it to drunkards." He does not believe in prohibition laws, and thinks it best to fight the vice by the influence of moral suasion and religious opinion.

-The Grand Duke Alexis has sent five thousand dollars to Mr. W. H. Aspinwall for the poor of New York City. Mr. Aspinwall has appropriated from this sum four thousand dollars to the Association for Improving the Condition of the Poor, and one thousand do!lars for the benefit of disabled sailors. The Grand Duke has also given two thousand dollars for the poor of Boston, and we learn that he will add five thousand dollars

to the Chicago relief fund. -An official order from the War Department announces the death of Brigadier-General Robert Anderson, at Nice, France, on the 26th of October last, speaks in commendatory terms of the character of the deceased, and mentions the fact that on the 14th of April, 1865, exactly four years after his surrender of Fort Sumter, he had the satisfaction, by appointment of the government, of again ho'sting the identical flar, which meantime had never left his custody, over the same fort, then reduced to a heap of ruins. His remains have been placed on board the United States shipof-war Guerriere for transportation to the United States. On their arrival proper orders

will be issued to do them honor. -Our navy makes but a sorry exhibit of its efficient condition. It has one hundred and seventy-nine ships of all classes, of which fifty-two are steam monitors, and only one is in commission; the rest are useless. Fiftythree ships are in commission, the rest are on the stocks, undergoing repairs or "laid up," and of these none are likely to be of any future use. Says Secretary Robeson: "Unless some thing is done our cruising navy, now by no means powerful, indeed scarcely respectable for a nation of our rank and responsibilities. will soon almost wholly pass out of existence as an arm of our national power." Truly a cheering prospect. Economy is a good thing, but, like charity, it had better begin at home. After sundry leaks in the civil service have been effectually stopped, it will be time enough to reduce the navy of a first-class power to a

fleet of mud-scows. -The Washington Chronicle of Saturday says: "In the contested-election case of Bowen vs. DeLarge, of South Carolina, DeLarge, who now occupies the seat, has failed to put in any ebutting evidence against the testimony of the grossest frauds put in by Bowen. Addl. Legislature. tional testimony from the confession of one of

cessful contest, and it is supposed that he will make no further effort. DeLarge's counse', Major C. W. Buttz, has abandoned the case, declaring it hopeless. The committee on elections will, therefore, doubtless report that Mr. Bowen is entitled to the seat in Congress. Expecting this result, Mr. Bowen desired to bring to Washington a new endorsement by the people of his district. He became a candidate for the Legislature from Charleston County, and was almost unanimously elected. He claims that his personal popularity is so great no one cared to run against him. When his case is decided in the committee he will promptly leave the Legislature and claim his seat."

The pressure of advertisements again compels us to-day to issue a supplement, which will be found to contain much inter-

The Prince of Wales.

His Royal Highness, the Prince of Wales, is declared to be out of danger, and the tidings are hailed with genuine satisfaction throughout the British Empire. There has been, indeed, a curiously sudden revulsion of popular feeling in regard to the heir apparent, and he who, to American eyes, was only looked upon, a few weeks ago, as an unworthy son of a noble mother, is now spoken of with respect if not with love. There is some reason for this. The English people begin to feel that they may have been too swift to blame. They now see that the Prince, whatever his faults, has not been guilty of one hundredth part of the sins which have been laid to his charge. They are more ready than ever before to accept him as a young nobleman whose temptations are as great as his useful opportunities, and whose -Governor Conley, of Georgia, vetoed the lack of genius is rather an advantage than a section of the appropriation bill appropriating crime in one who may reign, but will not govern. If he cannot be a "blameless "Prince," he can be, at least, a respectable head of the government, who will discharge his formal duties with regularity and public decency. Nor would his death have caused any political convulsion in England. On the contrary, it would have rekindled the old love for the Queen, and would have caused the patriotic sentiment of the whole country to crystallize around the widowed Princess of Wales and her young son, the heir to the throne. This feeling, in a large measure, will remain, now that the Prince of Wales is likely to recover. It rests with him, by his future conduct, to strengthen and confirm the loyalty of his people.

The Columbia Taxpayers in Court

A number of the taxpayers of the City of Columbia (represented by R. C. Shiver, Edward Hope and others,) made application on Friday for an injunction to restrain the further erection of the new City Hall and the new Market, and to restrain the defendants (the City Council, J. L. Neagle, James M. Allen and others) from making any use whatever of the \$250,000 seven per cent. bonds, issued last summer, which bonds, it is prayed, may be delivered up and cancelled. The counsel for the prosecution are Messrs. Waties, Bachman, McMaster and LeConte, and, for the defence, are the City Attorney, Mr. James Tradewell, C. D. Melton, Esq., and Messrs. Pope & Haskell. The hearing of the petition was resumed on Saturday, when, technical points being made by the defence, it was agreed to suspend further proceedings until

the pleadings could be amended. The affidavits upon which the application was based set forth that there has been a needless expense in the award of contracts, viz: \$60,000 on the contract for the City tion by all classes of readers, our judgment is Hall, and \$2500 in the contract for the new Market. Messrs. Fry & Troy, architects and builders, make affidavit that they have examined and will build the City Hall for more fresh works. We hope our people will \$78,000, and the Market for \$15,800, while the contracts now awarded are, for the City Hall \$138,000, and for the Market \$18,616.

-We are glad to see that the taxpayers of Columbia have some prospect of bringing their Municipal Ring squarely before the Courts. When shall proceedings begin against the Scott-Parker Ring?

The New Divorce Laws.

Representatives Hagood and Singleton have introduced bills to regulate the granting of divorces. It is to be hoped that the members will approach this question with a sense of its serious importance, especially to the colored people. We would remind them, moreover, that the State Constitution provides that divorces from the bands of matrimony "shall not be "granted but by the judgment of a court as "shall be prescribed by law." Under this provision the first section of the monstrous divorce bill "to regulate the granting of di-"vorces," already noticed in these columns, is clearly and unquestionably unconstitu-

The Bowen Committee.

The consideration of the report of the Bowen Committee, charging the State officials with an over-issue of six million dollars in State bonds, is positively to come off to-day. The committee have made serious charges, from which they cannot recede. We believe that they told the truth. Let them stick to their story, produce the evidence, and earn for themselves the gratitude of the public. It is said that the committee have "sold out" to Governor Scott. The events of to-day should show whether that infamous report be true.

The Land Scrip.

We hope that Governor Scott will be able to give a satisfactory reply to the resolution of the General Assembly, inquiring what disposition has been made of the Agricultural Land Scrip. Unless rumor is wholly at fault, there have been some ugly practices in connection with this same land scrip, and Governor Scott should hasten to clear himself of the unpleasant responsibility in this matter, which public opinion has fastened

the commissioners of election seems to have port to a bill which proposes to put a stop to

satisfied DeLarge that he cannot make a suc- | the destruction of game out of season, and the people, in general, will be the gainers by the prohibition of that indiscriminate slaughtering which would end in the extinction of the wild animals and birds which occupy a prominent place in the South Carolina cuisine. It may seem to be an unwarrantable interference with "the rights of the citizen" to refuse any possessor of a shot-gun the privilege of using it when and where he may please, but the delights of the individual must, for once, give way to the public good. There is, also, an obvious reason for prohibiting any person from hunting over the lands of another without permission. The mere ownership of a dog and gun should not give the owner the right to ride or walk, through fences and over fields, without regard to the injury done the growing crops, or to the meek oxen and bashful mule whom poor marksmanship may put in peril.

The clause of the bill which prohibits the killing of small birds such as blue-birds and mocking-birds, whose flesh is unfit for food, is of great importance to the agriculturist. In France it was found that, as the small insect-eating birds were destroyed, the yield of grain to the acre decreased. There was no check upon the ravages of worms and grubs, and stringent laws, we believe, were adopted for the encouragement of the propagation of small birds, as well as to protect them from the net and gun. We may be sure that if these birds, which are untit for food in themselves but are the natural guardians and protectors of fruits, plants and vegetables, are allowed to be wantonly slain, the injury to the farming and planting interests will be serious in the extreme.

THE petition of the Board of Trade of Charleston against the passage of the Metropolitan Police Bill was laid before the State Senate on Friday, and ordered to be printed.

WHEN the Sinking Fund Commissioners report to the General Assembly what property and assets of the State they have sold, we hope they will give the names of the buyers, as well as the price paid and the disposition made of the money. If valuable securities have been sold for a song, the public would like to know who are the lucky purchasers.

THE LILY AND THE TOTEM, OR THE HUGUENOTS IN FLORIDA. By William Gilmore Simms. Charleston, S. C.: Walker. Evans & Cogs-

Though less known than most of Mr. Simms's works, this is one of the most charm ing of them, and we are glad to see a new edi tion of it so handsomely brought out at the present time and in our own city, so long the home of the lamented author. The "Lily and "the Totem" belongs to a class of writings generally known as the "Romance of Bistory," but differs from most works of the kind in admitting fewer departures from the absolute records on which it is based. In fact, the narratives to which Mr. Simms has here given such touches of his lively fancy as their boldness of detail, in certain parts, seemed to require, are so intrinsically romantic that any great exercise of the author's inventive pow ers was entirely unnecessary. The old French histories of the early experiments of the Hu guenots in co'onizing America, and especially that of Collgny, in Florida, are full of start ing tragedles, dark events, and picturesque and exciting incidents, and read more like romances than like sober narratives, as they really are. With the added charms imparted by Mr. Simms's facile pen, they are irresistibly attractive. If the "Legend of Guernach," the "Adventures of Dr. Erlach," the "Conspiracy "of Le Genre," "Iracana," and the "Narrative "of Le Barbu," to say nothing of other parts of the book, be not perused with absorbed attengreat'y at fault.

Our great novelist, historian and biographer has gone from among us and can give us no show their appreciation of the rich legacy he has left us by commencing the re-reading of his published volumes with the "Lily and the "Totem."

California Claret
Grape Brandy,
By the dozen, bottle or by the gallon, JOHN HURKAMP & CO.'S
Corner King and Broad streets.

EXTRACT FROM THE REPORT OF THE UNITED STATES
COMMISSIONEE OF THE GENERAL LAND OPPICE.

'Vine culture is destined to become one of the
leading branches of industry, it having already
assumed prominence, placing California in this
respect far in advance of any other State, and
with fair prospect of rivaling the great grapegrowing rigions of Europe. The peculiarity of
climate and remarkable lettility of the soil, seem
especially adapted to the culture of the Grape,
and the manufacture of the various kirds of
Wine. The California Wines have a peculiar
flavor, although they resemble those of Spain,
Greece and Cape Constantia, rather than of
France, Italy, Germany or those produced in
other parts of this Country.'' decise mwise. EXTRACT FROM THE REPORT OF THE UNITED STATES
