

A FINANCIAL SENSATION.

THE LAST DEVISE OF THE KING.

A New Departure—The Five Financial Bills—Validating and Registering the Debt—The Appropriation Bill—A License Law, and the Financial Agency.

COLUMBIA, S. C., February 8.

It has been stated in this correspondence within the past few days that "a new departure" in the financial affairs of the State might be expected, and to-day's proceedings in the Legislature indicate the nature of the policy determined upon by the Governor.

The incident in the Legislature to-day which furnished the key to the whole device was the introduction by Dennis, in the lower house, of two bills entitled "A bill in relation to the bonds and stocks of the State of South Carolina," and "A bill in relation to the financial agency of the State of South Carolina in the City of New York."

These two bills complete a group of five measures now pending before the General Assembly, which are dependent upon by the Governor and his associates to lift them out of the legislative mill. The whole measure includes the following measures, which will be explained in the order named:

1. "A bill in relation to the bonds and stocks of the State of South Carolina," which provides for the raising of money and makes appropriations for the fiscal year ending October 31, 1872, and to provide for deficiencies in the revenue for the fiscal year ending October 31, 1871.

2. "A bill to amend an act entitled 'An act providing for the assessment and taxation of property and other acts amendatory thereto.'"

3. "A bill to provide for a general license law."

4. "A bill in relation to the financial agency of the State of South Carolina in the City of New York."

5. "A bill to amend an act entitled 'An act providing for the assessment and taxation of property and other acts amendatory thereto.'"

The bill to amend an act entitled "An act providing for the assessment and taxation of property and other acts amendatory thereto," is the bill which has been the subject of so much discussion in the Legislature.

THE MUTTERINGS OF WAR.

A SIGNIFICANT HINT FROM WASHINGTON.

Opinions of the London Press—War Risks Paid by American Vessels—Departure of United States Securities in the German Market.

WASHINGTON, February 11. The administration do not apprehend trouble with England. It is intimated that, should the Geneva Arbitration fail, the Alabama claims will be allowed to lapse to the status quo before the meeting of the high joint commission, remaining subject to a renewal of negotiations.

LONDON, February 10. Great eagerness is manifested for the latest news from America. Every body is anxious to learn how the action of England with regard to the Alabama claims will be received.

THE SAVANNAH RIVER RISING.

Incidents of the Freshet at and Opposite Augusta.

(From the Augusta Chronicle.)

Yesterday we stated that the Savannah River was rising rapidly, and that there were apprehensions of a freshet. At five o'clock the water marked twenty-four feet, and at that time it was raining. The rain continued to fall, and caused a good deal of alarm among those living near the river.

The water continued to rise during the night and morning, though very slowly. At three o'clock it marked thirty-eight feet, and at that time it was raining. The rain continued to fall, and caused a good deal of alarm among those living near the river.

Hosetter's Bitters.

ALL THE YEAR ROUND, AND IN ALL PARTS OF THE WORLD, THE ELEMENTS OF DISEASE ARE PRESENT IN THE AIR, THE SOIL, AND THE WATER. IT IS GREATER OR LESS DEGREE, AND THEREFORE THE GREAT VEGETABLE ANTIDOTE TO THESE INFIDELIC ENEMIES OF HEALTH, HOSSETTER'S BITTERS.

It is invaluable as a household medicine at all seasons and in every latitude. At no period of the year is a regulating and corrective medicine more needed than toward the close of winter, when the sun and rain are beginning to break up the winter's blockade, and from the softening soil arises that terrible miasma, which weighs like an incubus upon the vital machinery and depresses the animal system. It is then that the seeds of intermittent and remittent fevers, of rheumatism and choleraic poisons, of costive stomachs, of colic or disorders of the liver and bowels, and a whole host of pulmonary and nervous complaints are sown.

The best, the surest way to prevent this insidious seedling is to invigorate and refresh the system with a course of the Bitters. If this precaution be taken now, there will be no danger of the miasmatic germs taking root in the fluids and tissues of the body, and bringing forth terrible fruit in the spring. Now is the time for prevention. Remember that vigor is the only safeguard against the virus of disease, and that Hosetter's Bitters is the purest, the safest, the most powerful and perfect invigorant ever administered, either as protective medicine or a remedy. A change of season operates which almost always proves more or less disastrous to persons of a weak, nervous organization. Brace up at once with the leading tonic of the age. Freshen up your blood all morbid matter, strengthen the nerves, and regulate and purify the secretions with the Vegetable Bitters, which combines the juices of the finest medicinal roots, herbs and barks, with the most wholesome of all stimulative stimulants.

THE WORK OF FRIDAY.

Relieving Beaufort—Miscellaneous Business—The Amendatory Election Bill—The Appropriation for Mr. Werner—Speaker Moss Delivers a Patriotic Address.

(FROM OUR OWN CORRESPONDENT.)

COLUMBIA, S. C., February 9.

The legislative proceedings to-day have been of no great importance in either branch of the General Assembly. In the Senate the only new business introduced was the following concurrent resolution, for the relief of Beaufort County, which was offered by Mr. Small, adopted by the Senate and sent to the House, and, before the day was over, was returned from the House with its concurrence.

Whereas, One-fifth (in value) of the real property of the County of Beaufort is now in possession of the United States, and, there-
