MIDDLETON'S FISH AMMONIATED PHOSPHATE. This excellent brand of FERTILIZER comes before the public well recommended. Having been prepared with great pains and best materials, its adaptation to the crops of this section is unassailable, the evidence of which is furnished by the following testimonials of Professor SHEPARD and J. B. BISELL, Esq., which we annex as follows: OFFICE OF THE STATE INSPECTOR OF FERTILIZERS, March 31st, 1871. Messrs. J. A. Enslow & Co., Gentlemen—Enclosed please find the analysis of the sample of Middleton's Fish Ammoniated Phosphate, which we have analyzed in the laboratory of the State Inspector of Fertilizers. The results show that it is rich in ammonia, and the highly soluble condition of the phosphoric acid, are sufficient recommendations for this article. I feel sure that the planter will be benefited by its judicious application to cotton and other crops. Respectfully, your obedient servant, (Signed) G. U. SHEPARD, Jr., M. D., Inspector of Fertilizers for South Carolina. CHARLESTON, S. C., December 12, 1871. Messrs. J. A. Enslow & Co., Agents Middleton's Fish Ammoniated Phosphate: Gentlemen—I am pleased to state that I applied to Rice alongside of the Phosphate Manures manufactured in this city and vicinity, and the result was decidedly in favor of the Fertilizer. I have not yet threshed my crop, and cannot, therefore, furnish you with the difference in yield, but the growth and vigor of the stalk proved to me the superiority of Middleton's Fish Ammoniated Phosphate over the other Fertilizers used. Very respectfully, yours, (Signed) J. B. BISELL. UNIFORMITY OF QUALITY GUARANTEED. PRICES—\$45 cash; or for approved account, payable 1st November, next, \$60. J. A. ENSLOW & CO., AGENTS, No. 141 EAST BAY, CHARLESTON, S. C.
