New York Cotton Market.

New York Cotton Barket.

New York, April 5.

The Financial Chronicle says: There has been quite a demand during the past week both for export and home use. Under the infuence of this demand and of small receipts the market continued to move opward, although there were no advices from Liverpool on account of the observance of the Easter holidays there. Tuesday, Liverpool opened strong, and in symoathy prices have advanced \$\(\triangle \). Wednesday, there was much less doors, and although Liverpool showed firmer improvement, cosing that day at 11 kd for middling oplands and our receipts were very small, the market here was very easy, with an increased disposition among holders to realise. Thursday, the demand being only moderate, the less favorable feeling continued, and prices gave way \$\(\triangle \). To-day, with Liverpool reported quiet, there has been less doins here, but the market has been steady, and so closes at the quotations of yesterday. For forward delivery the business has continued large, with about the same advance as for spot cotton. The last reported quotations for fatures we e (basis low middling) 230 for April, 235-16 for May, 23 13 for June, 23 13-16 for July, 23% for August 21% for September and 2) for October. The total sales of this description for the week are 111,800 bales. For immediate delivery the total sales this week foot up 13 456 bales, including 4391 for export, 5109 for consumption, 517 for speculation and 313 in transit.

PIL IODOFORM AND IRON. A powerful general tonic and alterative. The

A powerful general tonic and alterative. The great Remedy for Scrofula, Neuralgia and Rheumatism.

We give below a brief extract from a report of the Lehigh County Medical Society, as published in the transactions of the Medical Society of Pennsylvania. June. 1868:

"Internally, I gave quinine and iron and a good nourishing diet. Still I found great trouble in keeping up healthy granulations, they would become sluggish. I tried a number of alteratives, as lodded of potassium and lime. Still the case progressed very slowly until my attention was attracted to an article in the Medical and Surgical Reporter, 'On Iodoform and Iron.' I at once concluded to give this rem-dy a fair trial. I discontinued all other constitutional treatment, and gave three pills three times a day, manufactured by W. R. Warner & Co., of Philadelphia. I soon had the satisfaction of seeing a rapid improvement. The pain at once left her limb, with which she had suffered continually; the granulations became more healthy and more abundant, and I now have the satisfaction of seeing my patient engaging in all her household durles. Not a vestive of the disease is to be seen. The patient is enjoying perfect health, it active and lively.

"Since, I have treated two other cases, one of three and one of four years' standing, with the same good result. I feel convinced of the efficacy of the remedy.
