FOR THE WEEK ENDING THURSDAY, APRIL 18. THE CROPS.—The past week has been moderate ly favorable for the performance of plantation work, the weather for a part of the time being rather cool, and the period was diligently used in pushing forward all branches of farm labor. ch valuable time has, however, been lost, and it will require good fortune and increasing effort to make up for previous deficiences. Rice plant. ing has been progressing, but on some of the rivers the fields are still too wet, and the placing

of the seed promises to be unusually late. THE RECEIPTS.—The arrivals at the cotton ports for the week up to Friday last, were 35,153 bales, against 36,062 the week before, and 64,156 for the week last year. At New Orleans the supplies were 14 224 bales, in contrast with 25,173 for he and firm market, with sales of 20 casks spirits year previous.
