The Charleston News.

THURSDAY, MAY 16, 1872.

Mr. WILLIAM E. SIMMONS, Jr., is the travelling agent for THE NEWS, for South Carolina.

NEWS OF THE DAY.

-Gold closed yesterday at 13/a14. -The New York cotton market closed quiet;

uplands 23% cents; sales 376 bales. -In Liverpool cotton closed strong; up lands llallid, Orleans lliallid; sales 20,000

_It is intimated that the Hop. Robert Toombs, of Georgia, is in favor of supporting Greeley and Brown.

-The speaker of the Massachusetts House of Representatives decided recently that "the absurdity of a motion was no parliamentary objection to it."

-Episcopalians generally will be interested to hear that the contest which has been going on in England for some time past concerning the retention, modification or discontinuance of the Athenasian Creed, has ended in victory sixty-two for and seven against its being retained. Dean Stanley is, of course, disap-

-At Providence, R. I., lately an action was brought in one of the courts to recover a sum of money alleged to have been won from the plaintiff at faro, by fraudulent practices. The plaintiff used, as an iliustration of the technicalities of the game, a complete fare table, with its marking apparatus and silver coekeeper's box, and employed an expert to demonstrate to the court the various tricks by which the victims are defrauded by professional sharpers.

-The people of Japan are making rapid progress in their efforts to shake off old customs. On the 9th of April, a great national fair was opened in the sacred City of Kloto, and for the space of fifty days foreigners were to have free permission to visit the city, go where they pleased in it without restraint, and to exhibit their goods. This is regarded by foreign residents of Japan as an important step toward the final and complete abandonment of the old policy of exclusiveness which has so long been characteristic of that country.

-The Norfolk Virginian of May 12 contains a letter from the Hon. John Goode, a member or the National Democratic committee, correcting the statement of the N-w York Herald's letter, that he was urging extreme Democratic views. Mr. Goode says that as at present advised, he is prepared to support the nomination of the Liberal Republicans, and he thinks it would be unwise for the Baltimore Convention to make nominations. James Barron Hope, the editor, in commenting on Mr. Goode's letter, says it prefers "Captain Pen to Captain Sword."

-The English Anti-Tobacco Society desiring practical evidence of the evil effects of tobacco, took into their service Professor Newman. This gentleman had never used tobacco in any form, and the agreement was that he should take a good smoke, get sick, and then describe his horrible sensations in a course of lectures. In fulfilment of this, the professor smoked a pipe for half an hour, but, singular enough, instead of getting sick, awoke to the fact that he had discovered a new source of pleasure, and, far from being utterly disgusted, has continued to smoke ever since, greatly to the discouragement of

the society. -New York is full of trouble. There were twenty new cases of small-pox in that city-a large increase—on Saturday, and seven deaths; the spotted fever is on the increase; the croton water is impure, leading to fears of a visit from the cholera; and the street contractor, one Brown, allows "disgusting heaps o filth" to accumulate in the thoroughfares and spread their foul odors broadcast. Desperate diseases require desperate remedies, and the Bulletin saggests, as the only effectual cure for the inefficiency which is running the city, the radical measure of hanging two or three street-cleaning commissioners, and shooting the contractor.

-A New York correspondent, writing on the 11th instant, says: "Rumors come thick and fast from Washington to prominent politicians here that a raw Republican combination is on foot whereby, in order to preserve the unity of the party, General Grant and Mr. Greelev both are to be dropped at Philadelplus and some new man taken up. The overtures to that end are sufficiently definite to excite considerable apprehension on the part of the Democratic managers, and there is much telegraphing in consequence between the Manhattan Club, Fifth avenue, and the New York delegation in Congress. What it all amounts to we shall probably see in a day or

too." -At Boston recently the vane on the steeple of the East Cambridge Methodist Church, requir. 1g repairs, a man named Dooris volunteered to ascend and throw it down. He climbed up by means of a small !adder, and having accomplished his object, proceeded to descend. After coming down part of the way he found himself on a tower twenty-five feet above the root of the church, his ladder immovably fixed, and himself quite unable to move either upwards or downwards. After remaining some hours, he was at length rescued from his perilous position by the chief of the fire department sounding an alarm and bringing a hoek and ladder company to the spot, which soon relieved him.

-We have heard of a great many amphibions things, from the hippopotamus to the extinct animals of the earliest ages. We have read of balloons calculated to carry detachable boats, so as to save their passengers if, by any chance, they should alight in the ocean and we have seen a kind of broad, boxed in wheel, which a sanguine inventor claimed would carry passengers inside, by a curious self-adjusting arrangement, either over land or water. Mr. Burns, of Wisconsin, now brings before the public the most novel scheme for combining land and water transportation that has yet come under our notice. This is Charleston.

nothing less than a railroad from the Atlantic to Lake Erie, with a gauge of thirty feet. The motive power to be used on it being a wonderful machine, a kind of amphibious locomotive, which will navigate the York Tribune during the Presidential canwater as well as traverse the land. Its speed on the former is expected to be twenty-five m'les, and on the latter one hundred and twenty-five miles per hour. What we are compelled to call, for want of a better phrase under these novel circumstances, the mode of its taking to the water is as follows: The roadway will run out for some distance into Lake editor's nomination at Cincinnati. The Erie, and when this locomotive arrives at the end of this wharf, presto! like a scene in a kind calculations of his enemies, and we pantomime, it changes its machinery slightly, becomes a steamboat, slides gracefully into the water, and with its train of cars, like a duck with its attendant ducklings, it glides on its journey.

-The directors of the Paris Jardin des Acclimation are busily engaged in replenish. ing their menageries, the beasts whereof, and the birds also, were enshrined in the stomachs of patriotic Parisians during the siege The prices then paid for a leopard steak or a quarter of a llama are said to have been extravagantly high, but what mattered that so long as the terrible Germans were kept out of the sacred city? But the animals went to the shambles; the Parisians are them; and, after all, the city succombed. So now the lions and tigers, the elephants and camels, have again to be gathered together wherever they can be purchased. The restocking proceeds slowly. The English menageries have been searched in the hope of finding suitable animals, and wherever a number of American bisons or a pair of elephants, or a cageful of lions can be bought at a reasonable figure, they are secured. The collection at the Jardin, therefore, thanks to such energetic measures, though it will be many years before it attains its former magnificent proportions, begins, nevertheless, even now to look respectable.

The Enterprise Ratiroad Company.

The splenetic remarks in which some o the members of the City Council indulged on Tuesday night cannot receive the approval of those citizens who expect the Aldermen of Charleston to discuss matters of grave interest with discretion, and to act upon them with impartiality. Admitting that there is no ulterior motive, and that the acrid criticisms upon the Enterprise Railfor the creed, the votes in convocation being road Company have no other object than the vindication of the corporate rights of the city, it is none the less evident that the majority of the City Council have taken a course which exposes them to serious misconstruction, if to nothing worse.

The Enterprise Railroad Company, under their charter, claim that they have authority to lay their tracks through the streets of the city without the consent or approval of the City Council; but the City Council deny that the Legislature can grant this authority, and when work on the road began the Chief of Police was instructed to give notice that he must arrest any persons who might be found breaking the earth or obstructing the streets for the purpose of laying the tracks. The work was suspended, and the company obtained an injunction from Judge Graham restraining the City Council from any further interference with them. This enabled the Company to resume operations. In the meanwhile the Mayor had consulted with the City Attorney and the City Recorder, both of whom gave the opinion that the city could not prevent the building of the road. It was determined, however, to employ counsel, and at the meeting held on Tuesday night the City Council engaged the services of two lawyers, with a fee of one thousand dollars each, who should test the question in

motion for the engagement of counsel pre

without regard to municipal regulations; but

we do believe that the public interest is best

served by remitting these matters, under

proper restrictions, to the decision of the

people of the city or town in which the work

is to be done, and we do not suppose that

there would have been any objection if

the City Council had quietly, through its

own officer, obtained a settlement of the

question. This is not done. The City

Council, with the adverse decisions of two

experienced lawyers before them, appropri-

ate two thousand dollars for counsel fees;

although in the same meeting an alderman

notifies the Council that some of the prop-

erty of the city has been seized by a creditor

whose just debt the city refuses to pay. The

same alderman was confident that he would

be able to prevent the creditor from paying

himself. There is not money to pay that

claim, but a sum sufficient, very nearly, to

liquidate the claim in full is to be thrown

away in a suit in which success would be

think that the Council had any right to ap-

payment of eminent counsel. It is just one

of those instances in which an injunction

Unfortunately the animus of the majority

of the Council was made evident by their

conduct in regard to the license fee propose

to be levied upon the City Railways. The

fee suggested was one hundred dollars for

each car, but an amendment was at once

offered to make the fee five hundred dollars

for each freight car-that is, for each of the

cars with which the bulk of the work of the

Enterprise Railroad is to be done. The

Council could not materially increase the

fee upon passenger cars, because by so do-

ing they would injure the present monopoly,

which has passenger cars only. They

therefore confined the proposition to freight

cars, with the hope of taxing out of exist-

ence what they could not kill in the courts.

The new license law, upon the request of the

allowed to lie over, and no vote was had;

but, as we have pointed out, the whole drift

of the proceedings shows that certain mem-

bers of the City Council are more intent

upon crushing the Enterprise Railroad than

upon consulting the public good. That

railroad, or some similar work, is nec-

essary for the proper conducting of the

growing commerce of the city. And the

City Council, in opposing the building of the

road for personal reasons, are standing in

the way of the development of the trade of

vailed.

DRUGS AND MEDICINES, WHOLESALE AND RETAIL.

DR. H. BAER, No. 131 MEETING STREET, CHARLESTON, S. C.,

Invites attention to the following Preparations of his own Manufacture: THE CELEBRATED GERMAN SOOTHING

CORDIAL, FOR INFANTS TEETHING. This is the best Medicine for Infants and young Children ever offered to the public. It is carefully prepared from the best Drugs according to a prescription furnished by a distinguish-4 German Physician of large and successful practice, and has been tried and approved by many of our best physicians. It is specially adapted to the diseases incident to childhood during the trying best physicians. It is specially adapted to the diseases incident to childhood during the trying period of Teething. and recommends itself for the cure of Diarrhoxa, Dysentery. Colle, Griping in the Bowels, Summer Complaint, &c. It contains no Anodyne or other lojurious Drog, and should, therefore, be preferred to the soothing Syrups that now flood the market, which are known to contain Opium, and are, therefore, more or less injurious. Thousands of children are murdered annually by Soothing Syrups; in some cases, this fact has been published in the newspapers, where the physician in attendance so stated in his death certificate. In the numerous other cases, where the innocents are murdered by this modern Herod of the Nursery, the cause is laid to a thousand other causes—to all but the right one.

Mothers, bear this in mind, and use the German Soothing Cordial, which is safe, efficient and satisfactory. Do not fall to try a bottle at once!

The Soothing Cordial is also an excellent Tonic, admirably adapted in cases of Deblity—giving tone to the system, recuperating the strength, and resoring the appetite.

EXCELSIOR HAIR TONIC.

EXCELSIOR HAIR TONIC. This is no Dye, but a Tonic and Hair Dressing— keeps the scaip clean, and promotes the growth of the Hair; contains no Nitrate o' Silver, no Sul-phur, no Sugar of Lead, and no other injurious Drug. Try it. Only 50 cents a bottle. DR. BAER'S IMPROVED VEGETABLE

The proprietor of these Pills confidently be-lieves that he has succeeded, by a skilful com-bination of vegetable remedies, in producing a preparation that will bring health and happiness to the unfortunate sufferer. In the following dis-eases, they have been used by thousands with most wonderful success: Bilious Disorders and Liver Compl-int, Dyspepsia or Indigestion, Head-ache, Costiveness, Loss of Appetite, Neuragia, Dropry, Dysentery, Pilcs, Diseases of the bkin, Pain in the Side, Buck and Limbs, Sick Headache, and all derangements of the Stomach. and all derangements of the Stomach.

These Pills may be taken with perfect safety by
any person and in all situations in life. No family
should be without them.

Price 25 cents a box. BENZINE,

(DOUBLE-DISTILLED,) For Cleaning Clothes and taking out Grease Spots. GOOSEBERRIES, RED CURRANTS, Price 25 cents a box.
