

THE GROWING CROPS.

Reports from The News Corps of Observation.

Our correspondent, W. S. S., writing from Anderson on the 5th instant, says:

- 1. The area in cotton is ten per cent more than in 1871.
2. The stand is not so good as last year, owing to the dry season.
3. The grain crops, in area and condition, about the same as last year.
4. With an average crop enough grain will be made to supply our county till next crop.
5. Double the amount of fertilizers used in 1871 has been used this year.
6. Cotton this year will cost ten per cent more than last year, owing to the increased amount of fertilizers used this season, and the increased cost of grain and flour.
7. The grain and cotton crops are suffering for rain, especially the corn.
8. There has been rain in a portion of the county in the last few days, but not enough.

Reports from the Rural Press.

The Greenville Enterprise says: 'The most of the past week has been very hot and dry, so much that vegetation is looking affected. One or two showers, in the latter part of the week, have cooled the atmosphere and laid the dew.'

The Darlington Southerner says:

'The weather continues very dry, and as far as we can learn, the crops are very backward. The cotton which had lain in the ground over four weeks previous; but it has continued so very dry since, that the plant remains small. The Barwell Sentinel says: 'We hear the most favorable accounts concerning the growing crops. Planters have had within the past two weeks a fine time for killing grass. The Barwell Sentinel says: 'We hear the most favorable accounts concerning the growing crops. Planters have had within the past two weeks a fine time for killing grass. The Barwell Sentinel says: 'We hear the most favorable accounts concerning the growing crops. Planters have had within the past two weeks a fine time for killing grass.'

The Greenville Mountaineer says:

'The stalks are tall, large and well headed, and no rust is perceptible. Corn and cotton, although small, look healthy. We were sorry, however, to see so many cotton plants in comparison with the amount of ground. For every field of cotton we saw, we saw at least three fields of corn, and everybody appeared to be working the latter more than the former.'

The Augusta Chronicle says:

'The crop prospects in this part of the State have greatly improved within the last few weeks. Corn, though smaller than usual at this season, is green and healthy and doing well, and bids fair to make a good crop. Late rains have caused the backward cotton to come up, and generally the planters have good stands, and are not yet much troubled with grass. The plant is not quite so vigorous in comparison with the late crop, but it is strong and vigorous. There is some complaint of "lice," particularly on light lands, but, upon the whole, our information is that the outlook in this section is being harvested, and is turning out generally very good. Oats were somewhat injured by the long drought in April and May, but the recent rains have improved the crop very much.'

THE DELINQUENT TAX SALES.

Several lots of land, a mile and a half from the Courthouse, were sold for \$140; and a tract of one hundred and seventy-six acres at \$5.05 an acre.

Barwell.

The Sentinel says: 'The sale of lands for taxes has been continued from day to day. The bidding has been spirited and many tracts sold. We are pleased to say, however, that most of our citizens were able to pay their taxes, and have come forward and paid up.'

York.

On Monday and Tuesday last, J. L. Watson, the county treasurer, exposed to sale twenty-one of the parcels of land advertised to be sold as "forfeited" and "delinquent" lands. The other parcels advertised to be sold, and which had been advertised to be sold, have been paid. None of the tracts were purchased for the State.

Greenville.

Several lots of property were sold for delinquent taxes by the sheriff on Monday. The auditor, in consequence of various parcels of land defaulting taxpayers, declared forfeited. But one or two tracts were bid on, and these were knocked down for sums sufficient to pay the taxes thereon; the other tracts were not sold, and remain in possession of the State.

Richland.

The Columbia Carolinian of yesterday says: 'The tax sales were resumed yesterday morning at ten o'clock, and a few lots sold, which closed the lists. The entire sales aggregate about nine thousand five hundred dollars, including the lands not sold and which become thereby the property of the State under the law. This class embraces about one-third of the whole, so that less than six thousand dollars will be realized in money, to be divided between the State and county taxes and the penalties and costs, which two latter items are about 50 per cent. of the whole.'
