THE BOARD OF HEALTH.

Splendid Sanitary Condition of the City Reported-The Enterprise Railroad to be Prosecuted.

An important meeting of the board of health was held at the office of the city registrar, with Mayor Wagener presiding, and Drs. Pelzer, Geddings and Chazal, and Messrs. Hanckel, DeSaussure, Dotterer, Small and Moffett, present. After the reading of the minutes of the last meeding an interesting report was presented by the city registrar, Dr. Pelzer, upon the present sanitary condition of the city, and the measures that have been taken during the past five months to secure its cleanliness and promote its healthfulness. Accompanying the document were reports from the chief of police, and from the city inspectors, giving in detail the steps that had been taken by their respective departments, under the orders of the Mayor, for the accomplishment of the same ends. These reports emtraced substantially the same facts in regard to the present sanitary prospects of the city and the exertions of the board of health that were contained in a recent article upon the subject in. THE NEWS, and, having been ordered by the board to be published officially, they will appear in full in the next issue of this paper. The report of the chief of police contained a list of streets and localities in the several wards which, from their present condition or from the nature of the use to which they were put, would require especial surveillance during the summer, and these were ordered to be copied and referred to the representatives of the respective wards in the board of health for their information and guidance. The subject of the breaking up of ground in

various parts of the city by the Enterprise Railroad Company was next introduced, and the correspondence upon this subject which has passed between the city registrar, the Mayor and the chief of police (which has already been published in full in THE NEWS) was read by the Mayor. It will be remembered that the city registrar addressed a letter to the Mayor on the 1st instant, officially calling attention to the alleged violation of the ordinance by the Raliway Company, and giving it as his opinion that the health of the city was jeopardized thereby. This letter was reterred by the Mayor to the chief of police, with instructions to confer with the legal advisers of the city, and returned by him with the report that they advised that no action be taken by the police, and that a meeting of the board of health be called at once to ascertain the exact extent of the alleged damage or danger to the public health. The Mayor stated that he had appointed a commission, consisting of the city registrar, the city engineer, and the two city inspectors, to go over the whole line of the new work and ascertain what amount of damage had been done and what was the best method of remedying it. The Mayor then read to the board the reports of those gentlemen. That of Dr. Pelzer, the city registrar, stated that after going over the whole ground he had found the work in an unfinished condition and still open, thereby exposing the city to danger from disease, and putting the merchants and others to great inconvenience by the obstruction of the streets, and that the expense of taking such measures as would insure the health of the city would be about fifteen hundred dollars in the cost of disinfectants and of applying them. The city engineer, Mr. Barbot, and City Inspector Lucas, reported that the expense to the city of replacing the pavements and of repairing the streets that had been torn up would be \$15,936. City inspector Ferguson disagreed with this estimate, and reported that the expense would be \$20,000. These

reports were also ordered to be printed, and will appear in THE NEWS of Monday. A general discussion followed the reading of these documents, Dr. Peizer, Dr. Geddings and General DeSaussure taking the ground that the action of the Enterprise Railway Company was in direct disobedience or the city ordinance, and should be punished by a prose-Circular Church—Meeting street, between meen and Cumberland. The latter was tried and found guilty of the assault and battery, and sent to Jail for thirty days.

The remains of the late Vicar-General of the Diocese of Charleston, the Rev. T. Bermingham, D. D., arrived in the city yesterday, at 2.40 P. M., by the passenger express on the Northeastern Railroad, In anticipation of their arrival, the clergy and delegations from the various Catholic Churches of the city had assembled at the Bishop's residence, and taking carriages from that place, proceeded to the depot and awaited the coming in of the train. At the depot, besides the city church delegations, the town council of Sullivan's (siand was represented by Messrs. Daniel Gilliland, Asher D. Cohen and others. THE REGATTA TO-DAY.

Spirited Contest Expected Between Our Rival Boat Clubs.

The grand annual rowing contest between the rival boat clubs of this city comes off this evening on the Ashley River course, just off the Battery, and a splendld test of skill and speed may be expected. The members of the two clubs have been preparing assiduously for weeks in view of the coming contest. Each is confident of success, and as far as the personnel of the two crews is concerned, there is little chance for preference. The Carolinas have the one advantage of five feet additional length in their boat, but with this exception he boats are nearly identical in shape and size and model, and both have been brought out since the last annual regatta, and will make to-day their first public appearance before a large body of our people. The occasion will, no doubt, attract an unusual concourse of people to Charleston's most famous promenade on White Point Garden, and in addition to this an admirable opportunity will be afforded of witnessing the race froma. steamer of the Sullivan's Island Ferry Company, which will leave South Atlantic whart, in the rear of the Postoffice, at 6 P. M. and will follow up the race, and afterward make a short excursion round the harbor.

The rules of the race and the names of the udges have already been announced. The udges have selected as umpires Messrs. T. Pinckney Lowndes and J. Fraser Mathewes, the former to officiate at the start and the latter at the termination of the race. The boats, crews and uniforms of the rival clubs are as follows: PALMETTO REGATTA CLUB.

RECOVERED .- Mr. G. N. Caswell, the white man who was stabbed in the side, and, it was thought, fatally wounded, in an affray with a negro man on last Saturday night at Graham's Crossroads, is, we are glad to learn, recovering from his wound. The stab was in the right place and right direction, but, fortunately, not deep enough to kill. The matter has dwindled into a simple case of assault and battery, to be disposed of by a neighboring trial justice, and Graham's Crossroads has resumed the even tenor of its way.

Upon one of our departed companions the primrose of youth had just bloomed upon his cheek, and from the other it had just began to fade. Extract from the Minutes. JAMES ARMSTONG, Jr., Secretary. TRIBUTE OF RESPECT.

At a regular communication of Delta Lodge of Perfection, No. 1, of the Ancient and Accepted Rite, held on the 3d instant, the following preamble and resolutions were unanimously

Death has penetrated into our secret vault, and Delta Lodge of Perfection is called to mourn the loss of one whose genial, frank, gentle and amiable character had endeared him to all of its members. James Reed Pringle, Jr. on the 7th of May, 1872, was removed from where the name of the Great I Am was only dimly shadowed, and, we trustfully hope, is now in that temple not made with hands, where the Divine Presence ever shines on those who love and fear him. Life had apparently much of promise for him. He was in the vigor of early manhoo!: he was engaged successfully in honorable pursuits; his integrity, industry and character had given him au assured position in the business community in which he moved. Genial in manner, frank, gentle and amiable in disposition, warm personal friendships had clustered around him. A good cirizen, a dutiful child, a virtuous man, there appeared to open before him in the future a promise of usefu ness, prosperity and happiness. A wisdom superior far to man's saw good to terminate these bright prospect, and extinguish all these in an early grave. Savannah Market-Weekly Review.

Savannah Market—Weekly Review.

Savannah, June 6.

Cotton.—We have had a very quiet market during the week under review, with steadily advancing prices, until Wednesday, when middlings were quoted at 25% to class out. To-day, however, under the discouraging influence of New York advices, prices have been checked in their upward tendency, with pe haps a little weakening in the market, as New York has controlled it all through the week, the foreign demand having crased. The total sales of the week reach about 500 bales, of which 70 were soil to-day. The great irregularity prevailing senders it almost impossible to quote; but we hazard the following sign; as the average prices of the day for what little has been done: Middling 25c (nominal); low middlings 24c (asked) good ordinary 23%c. Some strict good ordinary sold at 23%c, and some strict low middling at 24%c.
