

SCHURZ IN THE SOUTH.

THE GRAND RALLY YESTERDAY IN CHARLOTTE, N. C.

Immense Enthusiasm for Greeley and Brown—Devises of Grant's Ku-Klux to Break up the Meeting—A Fine Dwelling House Burned by Negro Incendiarists.

[SPECIAL TELEGRAM TO THE NEWS.]

CHARLOTTE, N. C., July 29. As the canvass in North Carolina draws to its close the interest intensifies, and the great mass meeting to-day at this place has furnished the culmination thus far of the enthusiasm in this State for Greeley and Brown.

Mr. Armistead Barwell, president of the Charlotte Greeley Club, opened the meeting. He welcomed the great senator from Missouri, and, with similar pride, he welcomed among his people another noble representative of the Liberal cause, the Governor of Virginia.

CHARLESTON, S. C., July 27. To Hon. J. Phillips, Chairman Committee of Arrangements, Charleston, N. C.

I am too unwell to leave. With you in spirit, I am in body. South Carolina awaits the announcement of victory from North Carolina to redeem your State and ultimately the whole country.

Governor Walker was then presented to the meeting and received with renewed applause. The greeting he received, he said, was another evidence of the bond of union between Virginia and the people of the Old North State.

General Schurz commenced by saying that he had hardly ever appeared before an audience so great, and that he was unable to fulfill his expectations, wearied as he was by four days of travel, with hardly a moment's rest and hardly able to stand or think.

His political antecedents. I belong, fellow-citizens, to that political school which most of you knew, but did not love, before the war, the school of the Union with the Republican party, and my political life has been wholly devoted to the advocacy of its principles.

General Schurz then made an eloquent appeal to the colored voters, who were largely represented in the audience, beseeching them by right of being one of their earliest friends to be careful of their political action.

He then spoke substantially as follows: I belong, fellow-citizens, to that political school which most of you knew, but did not love, before the war, the school of the Union with the Republican party, and my political life has been wholly devoted to the advocacy of its principles.

Then it was that those of us who were true Republicans, and valued principles above party power, raised the flag of universal amnesty and impartial suffrage, and our great and good standard-bearer, Horace Greeley, [cheers] spoke the words, "Let all people be freemen again and every man vote for whom he pleases."

Senator Schurz was then introduced and received by the audience with every demonstration of enthusiasm. His speech was, in a great measure, a repetition of the views so forcibly expressed by him at Greensboro, [and which is fully reported below.—Ed.]

great friendship for them, gained their ear and used them as a compact organization for their own political ends.

THE NORTH CAROLINA STATE DEBT has increased from fifteen to thirty-four millions, and sixteen millions of railroad bonds found their way into the capacious pockets of car-baggers without the taxpayers ever hearing from them again.

SCHURZ AT GREENSBORO. His Enthusiastic Reception—He Makes a Telling Speech—He Attacks the Carpet-Baggers—An Appeal to the Negroes.

GREENSBORO, N. C., July 27. Senator Schurz has last spoken in North Carolina. His presence had so frequently promised before without his making his appearance that the crowd which gathered to hear him to-day, though great, was not so large by several hundreds as it would have been had there been a certainty of his coming.

ARRIVAL OF THE DISTINGUISHED MISSOURIAN. Senator Schurz arrived on the 3.30 train, having left New York yesterday afternoon.

General Schurz then made an eloquent appeal to the colored voters, who were largely represented in the audience, beseeching them by right of being one of their earliest friends to be careful of their political action.

What ground have we for distrust? Why rebel the outcast band? Why did you strike them, and why have you struck their substance and have stripped them naked? Do you want any other guarantee of good faith than their voting for one who has been the life-long foe of all their old enemies, and who has shown a disposition in what you demand. You don't value good government as much as you value party power.

A WORD TO COLORED MEN. General Schurz then made an eloquent appeal to the colored voters, who were largely represented in the audience, beseeching them by right of being one of their earliest friends to be careful of their political action.

He then spoke substantially as follows: I belong, fellow-citizens, to that political school which most of you knew, but did not love, before the war, the school of the Union with the Republican party, and my political life has been wholly devoted to the advocacy of its principles.

MR. State Treasurer Miles G. Parker, now a prominent Radical candidate for re-election, addressing a public meeting at Columbia on the 5th instant, in defence of his official acts, said:

Fellow-citizens—I accept your kind invitation to address you on this occasion with unusual satisfaction. We are soon to enter upon the discharge of our duties as the trustees of the gravest importance to the masses of the people of this State, and of all the States; questions which underlie our liberties as citizens, our prosperity and progress as a Union.

Indeed, instructed in my youth in the great principles of civil liberty, I was a Republican before there was a Republican party, and when that party rose to power out of the convulsion of a free people, and the advocates of human slavery and a despotic government sought the destruction of the nation's life.
