Tenderly lie the clouds
The quivering sky along;
Gently the sun's last beams
Rest on yon far off height,
Whilst the eucircling sea
Trembles beneath their light.

Soft are thy kisses, love;
Sweet is thy pleading tone;
Tenderly lies thy head
My throbbing heart upos.
Gently, ah! let me rest,
Rocked by the deep-drawn sighs,
And watch the evening stars
Gleam from the deepening skies.

THE SEASON AND THE CROPS.

[From the Clarendon Press.] A friend who has just travelled from Lynches Creek to Santee informs us that the cotton crop has been cut off at least one-fourth from what it promised three weeks ago. Rust is general, the plant ceasing to grow or mature fruit, and the cotton caterplilar appearing simultaneously in different localities. [From the Edgefield Advertiser.]

These three cotton evils are scourging us quite seriously just now. In our immediate sections the caterpiliar is numerous and declededly active. Some stalks of cotton brought into our office from a neighboring farm, are as perfect skeletons as were ever seen on the sea islands. And the drought and rust are working hand and hand with the caterpillar That the cotton crop hereabouts will be seri ously curtailed, is quite beyond all question [From the Spartanburg Spartan]

The first bale of new cotton was brought to this market by Major S. C. Miller, on the 3d igstant, and sold to Messrs. H. H. Taomson & instant, and sold to Messrs. H. H. Thomson & Co. for 182 cents. Two bales were brought to town on last Saturday, the 7th, by Major Chas. A. Barry, and sold to the same firm at 18 cents. One bale, also, on Saturday, the 7th, by Wm. Alexander. The first bale last season was brought in by Major C. A. Barry, on the 7th of September, and sold to H. H. Thomson & Co. at 18 cents, three days later than this season with 40. difference in price. We learn that the caterpillar and the rust have both made their appearance in the cotton fields of this section.

[From the Abbeville Press] .

[From the Abbeville Press].

We learn that the caterpillar or army worm has made its appearance in the vicinity of Ninety-Six and other points on the Saluda, and threatens to be very destructive to the growing crop. It is estimated, we learn, that the sotton crop on clay lands has been cut short one-third by the dry weather, and that cotton on the sandy lands has suffered a loss of one-half. The planters are now busily gathering in the crop, and some fields are already white. The cotton has opened three or four weeks earlier than usual. In a fow weeks all the cotton in many fields will be oren, and a large portion of the crop will be oren, and a large portion of the crop will be thrown upon the market. [From the Sumter Watchman.]

[From the Sumter Watchman.]

Cotton is now being rapidly gathered from the fields, and the necessities of the people, together with the fair prices ruling, is rushing it into market. More of the staple has been sold at Sumter up to the present time than previously since the war. Probably one-half the crop has been picked out, and few unopen bolls of the main crop will be seen three weeks hence. The yield is decidedly short of the calculations dating even a month back, while upon the whole the crop will be little more, if any, than that of last year. Our planters have generally made fair corn crops; but the prevailing drought is cutting short—very short—the prospects for rice, peas and potatoes, essential elements of the produce of the farm. This will, no doubt, produce some scarcity the coming year. produce some scarcity the coming year.

CLEAR AND HARMLESS AS WA-TER-NATTANS'S ORYSTAL DISCOVERY FOR THE HAIR.-A perfectly clear preparation in one bottle, as easily applied as water, for restoring to gray hair its natural color and youthful appearance, to eradicate and prevent dandruff, to pro mote the growth of the hair and stop its falling out. It is entirely harmless, and perfectly free from any polsonous substance, and will therefore take the place of all the dirty and unpleasant preparations now in use. Numerous testimonia: have been sent us from many of our most prominent citizens, some of which are subjoined. In everything in which the articles now in use are tionable, CRYSTAL DISCOVERY is perfect It is warranted to contain neither Sugar of Lead, Salphur or Nitrate of Silver, it does not soil the clothes or scalp, is agreeably perfumed, and makes one of the best dressings for the Hair in use. It restores the color of the Hair "more per feet and uniformly than any other preparation," and always does so in from three to ten days virtually feeding the roots of the Hair with all the nourishing qualities necessary to its growth and healthy condition; it restores the decayed and induces a new growth of the Hair mere positively than anything else. The application of this wonderful discovery also produces a pleasant

and cooling effect on the scalp and gives the Hair asing and elegant appearance. Price \$1 a ARTHUR NATTANS, bottle. Inventor and Proprietor, Washington, D. C. For sale by the Agent,
