CITY IMPROVEMENTS. Two New Zuildings on Meeting street-

The Improvements at St. Paul's A two-story wooden dwelling has recently

been erected on the east side of Meeting street. next north of Line street. It is forty-three feet long by twenty wide, has a plazza on the first story, a kitchen attached to the rear, and contains four square rooms. It has been built for Mr. Adam Boyd, a bricklayer, by S. C. Perry, a colored contractor. On the same side of Meeting street, a few

This building is seventy-five feet deep by nine. teen front, contains ten square rooms, has a and a tin-covered Mansard roof. It will be finished about the first of October, and will constitute quite an ornament to the street. The windows and doors are square, and the windows on the front of the roof are surmounted by caps of elaborate scroll-work represent ing the scanthus leaf.

The improvements of St. Paul's Church, Radcliffeboro', are progressing rapidly. The old high-back pews have disappeared, and new ones of a more modern character have taker inel places. The new pews are without doors, and those in the central alsles are divided off according to a new plan. The panel of division in every alternate pew is placed near to one end, so as to make a small pew for holding three persons on one side, and on the other a large family pew. The other pews have the panel of division in the centre. The fronts of the pews are of solld black walnut, three feet high by one foot and a half wide, and are ornamented by handsome paneling. The caps of the backs are also of black walnut. The backs and seats throughout the church are to be supplied with green cushions. A new railing of black walnut will be put around the chancel. The wainscotting around the walls of the church will be colored like the pews. The work is being done by Mr. P. P. Toale, of this city. The church will be open for service on the first Sunday in October.

DISTURBANCE IN FLORENCE. A Gang of Railroad Hands Get Drunk

and Attack the Citizens. Our correspondent, Palmetto, writes from Florence to say that a gang of negroes employed by the Wilmington, Columbia and Augusta Railroad Company, to build a switch in that town, after having been paid off on Tuesday last, became drunk and disorderly. A number of inoffensive citizens were molested by them about nine o'clock that evening, while passing the car in which they were quartered. They finally became so disorderly that the intendant of the town was compelled to call out the citizens to arrest them. A lively fight ensned; the negroes using picks, shovels, spades and various other implements. Several were at length knocked down, when the remainder came to terms, and were locked up. On Wednesday morning they were examined by Trial Justice P. C. Fludd, who found eight of their number guilty, and sentenced them to pay twenty dollars each or spend thirty days in jall. They failed to pay up, so were handcuffed and marched to the jall at Darlington Courthouse, ten miles distant.

THE VALUE OF FERTILIZERS.

There may be seen in THE NEWS office four specimen staiks of cotton, grown on the Fair Grounds in Columbia under the special supervision of Mr. James M. Crawford. They were manured respectively with "Stone," "Atlantic," "Etiwan No. 2," and "Crop Food," and show incontestably the value of our Charleston tertilizers, as well as demonstrating their practical utility. Mr. Crawford thinks that, only for the unfavorable season and the ravages of the caterpillar, the yield would have been five hundred pounds of seed cotton to the acre more than the yield now expected.

THE BOLTERS' PRIMARY ELECTIONS.

The Bowen-Tomlinson faction of the Republican party held elections in the various wards yesterday for delegates to their county convention, which meets on next Wednesday. "NOT VERY WELL."-A feeling of vague bodily discomfort, which does not amount to positive illness, and yet is incompatible with health, is often aptly described by the phrase "not very well." This feeling usually arises from a deficiency of the nervous power which is required to keep the vital machinery in vigorous and healthful operation. Nervous weakness has too frequently turned out to be the prelude of some serious malady to admit of any doubt in the matter. Inactivity of the bodily functions as surely begets their derangement as cause precedes effect. It is, therefore, absolutely essential for the preservation of health, perhaps of life itself, that this warning should be promptly heeded. The case does not admit of delay. Revitalize the system at once, and effectually, with Hostetter's Bitters-that peerless invigorant, which, by infusing new health and strength into the system, protects it against disease more surely than ever knight of old was protected by armor of proof against his foe. sep16-mwi3D&W
