Manchester Cotton Goods Market. MANGHESTER, September 7. The couries of this market has been "iled all the week by the large business at Liverpool. Though there is a general scopicism on the subject of the alleged blight to the cotton crop, the reports appearing to be at all events exaggerations, the enhanced price of cotton has obliged producers to advance their quotitions in this market, and the result has been a narther limitation of buying. The amount of business done has, therefore, been but moderate, taking the market as a whole, and not sufficient to keep pace with the production. Nevertheless, stocks are still sufficiently large to prevent any general embarksment. A fair The Charleston Cotton, Rice and Nava COTTON .- There was a well supported and rathe active demand for this staple, the market showing in easy character, but was generally freely met by factors; sales about 1600 bales, say 5 at 14%, 10 at 15%, 168 at 16%, 88 at 16, 28 at 16%, 157 at

not sufficient to keep pace with the productable. Nevertheless, stocks are still sufficiently large to prevent any general embarrasment. A fair amout of business has been effected in yarns suited to the Continental markets, and prices are nominally advanced by XaXd per ib since the beginning of the week. Home trade yarns have similarly advanced, but during the last day or: two it has been evident that sales to any appreciable amount at the our-rent rates were out of the question. In the cloth market the inquiry has been extremely languid. Prices have remained firm at Tuesday's quota-tions in shirtings, nuclapoliams, jaconets and mulis. Printing cloths have been a little more active and hardening in value. Some business has been done for the Levant. Domestics re-main unchanged. The reports from the Eastern markets have been duicouraging all through the week, and have kept some of the principal buyers practically out of the market.

English Metal Market.

English Metal Market. SHEFFELD, September 7. Though it is not yet much feit, a change has m-doubtedly occurred in the condition of trade in this town and distric. There is nothing like the extreme presenre which was experienced a month or two shoce, and in some branches there is an numistakable failing off in activity. At present, however, orders are rumerous snough, and there is every prospect of car having a good antumn trade. The heavy branches are fairly active, and the demand for all descriptions of railway mate-rial continues brisk. A good deal is doing in fles and in tools generally, but in most of the other light branches there is an evident failing off in the second runches there is an evident failing off in the there is a continued sizekening of the demand for secondary qualities, and a general decline in pri-ces. That the price of from should be easier in presence of the very high and still edvancing rates of coal is an indication of a rather decided failing off in the demand. Mawroor, MONHOUTHERIES, September 7. The ironworkers have commenced upon a forth-ter rise of 10 per cent, this week, and mills and for anges have been kept going with regularity. There ser heavy American engagements still on the books, and some of the makers have their books full over (thistismas. In the coal trade prices are quite equal to those of last week. Coasting freights are remarkably good Shipments of ralls have been brisk, the United States tabling the largest proportion. sedly as if he were only playing a practical loke. He walked down the street in the same quiet way, and has not been heard from since. Several persons saw him enter and leave the yard, but his manner was so fearless that no one supposed he was not in some way connected with the premises.

The Great Eastern Circus, while in this city. was robbed of many fancy blankets, shawls, coats, &c., and a miscellaneous collection of decorative articles, comprising in all a valuable lot of goods. These articles were recovered yestorday, by the detectives, at an obscure shop in King street, near Mary, kept by Joseph Jacobs. Jacobs alleges that he purchased them from an unknown white man. They were delivered to an agent of the circus, who had remained here with the hope of recovering them.

Captain Boyle, of the steamer Messenger, was robbed at Edisto wharf on the night of the 28th of August last of a silver watch valned at twenty-five dollars and several other articles. A colored man, Wesley Steadman, was arrested yesterday on the charge of having committed the robbery, and turned over to Trial Justice Levy for examination. He has been committed to jail for examination on the return of Captain Boyle to the city.

THE CALLIOPEAN CLUB met last evening at Hibernian Hall and adopted a set of rules for their government. The name of the club was changed to the Haydn and Handel Society, and the following officers elected: James H. Murrell, president; Stephen T. Souder, vicepresident; Wm. M. Simmons, secretary and treansurer. Executive committee-Charles Simmons, Wm. A. Pringle, F. A. Nowell. Musical director, Professor Senior.

A NEW BRICK BUILDING ..- The Devereux Brothers have commenced the erection of a two-story brick building on the east side of Church street, next north of St. Philip's Church, for Mr. George Van Artsdalen. It will be twenty feet front by forty deep. The lower story will be fitted up as a blacksmith and lwright shop, and the upper story as a dwalling. The work will be commenced this morning and completed about the 20th of October. Mr. Van Artsdalen is a German, who commenced work as a blacksmith in this city two years ago, in a little rookery on the spot which will be occupied by his new building. He affords a good example of what can be accomplished in Charleston by honesty and industry. At the time that he began work here he did not own so much as a set of blacksmith's tools.

Miss Lillie Eldridge, well and favorably known to the Charleston public, has recently concluded an engagement in St. Lonis. The papers of that city speak in terms of high praise regarding her acting.
