THE COLD SNAP.

The sudden change in the weather on Thursday night last was followed on Friday night by a heavy white frost, the first that has fallen within the city limits this season. During Saturday night a cold and strong wind set in from the north west, and continued through the greater part of the night. Yesterday morning ice was seen in abundance, and the indications last night were that there would be another freeze this morning. A ROW ON MARKET STREET.-At a late hou on Saturday night the residents of East Bay and Market streets were much disturbed by what apparently threatened to be quite a riot among some colored men, supposed to be fishermen. In front is a gilt wreath with the silver letters P. G in the centre. The cap can be seen at You Santen's Bazaar. It will probably be adopted at the next meeting of the club.

UNIVERSAL EXHIBITION OF 1858 FIRST-CLASS MEDAL ALF. LABARRAQUE AND Co

QUINIUM LABARRAQUE Approved by the Imperial Academy
of Medicine

The Quintum Labarraque is an eminently tenic and febrifuge Wine, destined to replace all the other preparations of Peruvian Bark. The Bark Wines usually employed inmedicine are prepared from Barks which vary considerably in the degree to which they possess the desired properties. Besides, owing to the manner in which they are prepared, these Wines contain scarcely more than the traces of active principles, and these always in variable proportions.

The Quinium Laberraque, approved by the Academy of Medicine, constitutes, on the contrary, a medecine of determined composition, rich in active principles, and on wich Physicians and Patients can always rely. The Quinium Labarraque is prescribed

with great success for persons of weak contitution, or for those debilitated by various exhausting causes or past sickness; for youths fatigued by too rapid growth; for young girls whose development takes place with difficulty; for women in childbirth; and for aged persons enfeebled by years or illness It is the best preservative against Pevers. In cases of Chlorosis, Anemia, or Greensikness, this Wine is a powerful auxiliary of the ferruginous preparations In conjunction, for example, with VALLET'S PILL-, the rapidity of its action is really marvellous.
