THE HUMAN KITCHEN and ITS DUMB WAITERS.—The body is supplied with aliment by vessels which connect the stomach and its auxiliaries with the venous system, and so to speak, perform the office of dumb waiters in a restaurant. In other words, these media of communication between the animal hollow and its dependents—supply to each member and organ, near or remote, the quantity and kind of sustenance required to keep it going. When the stomach is derelict in its duty, or the dumb waiter inert or obstructed, it is the peculiar province of Hostetter's Celebrated Stomach Bitters to strengthen and regulate them. Hence its marvelous cures of chronic indigestion, and the emaciation, debility and languor which are generally its concomitants. It is, moreover, a powerful alterative and corrective, and the rapidity with which it checks irregularities of the liver and bowels, and braces and invigorates the nervous system, is a marvel, not only to the general public, but to professional men. dec3-tutdsaw
