The Burnt District.

The rebuilding of the Burnt District of Charleston is of importance to the whole State. As long as it remains in its present dreary condition, the outside world will not believe that the city is thriving. The appearance of active prosperity brings with it an increase of prosperity; and it is rather hard that a community, which has made as much solid progress as Charleston has done, should be cried down only because the houses destroyed in 1861 have not yet been rebuilt. There is a demand for dwellinghouses suitable for persons of moderate means, but the demand is not sharp enough to warrant capitalists in running the gauntlet of State and Municipal taxation. The houses could be rented at once, without detriment to the houses now in the market, and capitalists and tenants are confident that in a few years the barren acres of the burnt district will be covered with pleasant homes. But we cannot afford to wait. Every day of waiting does the city some harm. And the work cannot be accomplished unless capitalists are offered some sort of premium to induce them to lay out their money. This is proposed to be given

them in the shape of an exemption, for five

years, from State and Municipal taxation.

THE NEWS is thoroughly in favor of offering every possible inducement to those who are inclined to rebuild the Burnt District. But this must be done in such a way as to avoid the infliction of loss upon any class of citizens. The people outside of the burnt district cannot afford to pay additional taxes, for the benefit of persons in the burnt district. There must not be any reduction in the amount of property serving as the basis of taxation. And here lies the objection to the bill now before the Legislature. That bill proposes to exempt from taxation, for a period of five years, all buildings or improvements in the burnt district, and the lots of land upon which they may stand. The vacant lots are now taxed, and will continue to be taxed if no building or im- 75 per cent, and accrued interest, provement be put upon them. The proposed bill, therefore, would reduce the amount of taxable property in Charleston by the assessed value of the lots upon which any improvement might be made. The sum to be raised by taxation could not be diminished, and the rate of taxation, upon the not improved, and outside of the burnt district, would necessarily be increased. This would be unfair to the taxpayers at large. They have a right to expect that there shall be no reduction in the amount of taxable property, and that, at the end of five years, the taxable value of the previously exempted property shall speedily make up for the previous apparent loss.

We think that the bill before the Legislafure should be so modified as to prevent, for five years, any increase in the assessed value, for tax purposes, of any property in the burnt district, upon which houses may be built. This would leave the tax upon a house and lot at the figure at which the vacant lot is taxed. It is equivalent to out four per cent. upon the cost of the building, and that is enough to lead capitalists to put their money into the work. Take a lot worth \$1000 with a house worth \$5000. The tax would be only four per cent. upon \$1000, or \$40; the exemption for five years being equal to four per cent. upon \$5000, or \$200 a year. And at the end of the five years the ground tax would be reduced, because the buildings throughout the burnt district would then be taxed at their full

an A Distinction, With a Difference.

We take pleasure in saying that Representative Charles Green, of Georgetown, did not vote for "Honest" John Patterson, as telegraphed to THE NEWS, but plumped for Congressman Elliott. The two men. Patterson and Elliott, are as different as light and dark.

Tom Scott's Work,

A recent article ic the New York Finan cier suggests an explanation of the persistency with which Mr. J. J. Patterson plotted and planned to secure his election as United States Senator. The Financier showed that the ! outhern Security Company, the nath monopoly, which is striving to swallow the principal railroad lines in the South and to the Pacific, contrives to enroll among its stockholders influential Congressmen from every State through which its lines pass. The head schemers are Simon Cameron and Tom Scott, of whom Mr. J. J Patterson is the disciple and bosom friend. Not long ago he is said to have gone North to obtain the money with which to buy his election, and the public have a right to suppose that, in the United States Senate, Mr. Patterson will do the work cut out for him, and be the willing tool of the Pennsylvania Railroad and the Southern Security Company. It is related of a moral member of the Pennsylvania Legislature that, towards the close of a profitable session, he

rose in his seat and sald : "Mr. Speaker, if

*Tom Scott ain't got no more work for us

"to do, I move that this House do now ad-

"lourn sine die." Something of this sort

will be heard in the United States Senate if

many more of the Patterson stripe can buy

themselves a sent.

The Conservatives in the Legislature

The Conservative vote, in the election of a United States Senator, on Tuesday, was so split up as to count for nothing. There are thirty-one Conservatives in the Legislature, and only by acting together can they make their influence felt. Five of them voted for J. J. Patterson, seven voted for Poinier, nine voted for Judge Moses, seven voted for Sawyer, and three voted for Graham. Thus the vote was frittered away. The Conservatives may have thought that it mattered little which way they voted. It mattered much. A Conservative vote gave Patterson his majority in the Senate. Who knows that a massing of the twenty-one Conservative votes in the House upon Graham or Moses would not have attracted sufficient outside votes to prevent the election of Patterson on the first ballot? However this may be, it is certain that such a want of unanimity among the Conservatives as is indicated by their vote for senator gives confidence to the public enemy, and disheartens the people who look to the Conservative phalanx for decisive and, above all, united action. Whether the Conservatives number ten or twenty or thirty, their only hope of producing any substantial effect upon the majority is by standing together. A score of intelligent men who cannot be scared or bribed, who will raise their voice when danger threatens the State, who will be the watchdogs of the treasury, who will oppose only what is foolish and bad, and support only what is wise and good, must have a considerable moral influence in a body like the General Assembly of South Carolina, but that influence is lost when they show the world that, in the face of the enemy, they break the line and fight each after his own plan of battle. We sincerely hope that, in future, the Conservative members will be found shoulder to shoulder. Unless they are, their presence is the Legislature will certainly be of no benefit, and may be of

financial.

said to contain. First among them is their COD LIVER OIL WITH PHOSPHATE LIME, a most valuable remedy in the large class of was ting diseases caused by impairment or prever-sion of nutrition, the too rapid tissue trans-youmation and the want of certain substance essential to the organism, and it is offered with the utmost confidence as an IMPORTANT addition to the resources of medicine against the diseases which, in this country, are the most numerous, and formidable, say : CROFULA in children and

PULMONARY COMPLAINTS IN SAURS. "Each conce of the mixture contains 16 grains of the Phosphate of Lime." BEEF. WINE AND IRON. This delightful nutritive tonic has been so universally used and approved, it is unnecessary to say more than that it is kept up to its usual standard of excellence.

"Each tablespoontal contains 1 ounce of Beef, half onnce of Sherry Wine and 2 grains of Citrate of Iron."

BEEF, WINE, IRON AND CINCHONA. The combination of Callsaya Bark with our preparation of Beef, Wine and iron adds the nerve tonic and anti-periodic effect of Cinchona to the nutritious and stimulating properties of the other ingredients. We doubt if a more efficient combination of tonic, nutritious and stimulating agents could be prescribed, and sak the attention op physicians to its use, as a prompt and reliable remedy in the many cases in which it would naturally be indicated. Each tablespoonful contains 1 ounce of Beef, 2 grains Citrate of Iron, and half ounce of Wine of Callsaya Fark.

SHERRY WINE AND BEEF.

SHERRY WINE AND BEEF. The advantage of administering Beef with Wine to patients requiring both nutriment and atimu laut, will be readily appreciated—the Sustaining and nutritions effect of the beef often enabling delicate and sensitive invalids to take the wine with benefit, when ordinarily they would be unable to take it even in small quantities without occasioning headache, &c. Each tablespoonful contains one-half ounce of Sherry Wine and one ounce of heef.

We also call attention to the following as some mong these preparations most in use: Elixir Calisaya Bark, Iron and Strychnine. Elixir Phosphate Iron. Quinine and Strychnine.
