COMMERCIAL NEWS. The Charleston Market. FOR THE WEEK ENDING THURSDAY, DEC. 12 1872. THE OROPS .- This period commenced dry and moderately cool, afterwards a sharp change with sleet and rain, with unfavorable conditions for outdoor work. The picking time over a considerable portion of the cotton belt having been to a great extent finished, the farm work will be limited until after the holidays,

when a fresh start will be taken and sleady efforts made to give a favorable commencement to the next crop. While prices during the fall and winter have not been high, they were no doubt moderately satisfactory to planters, and should they not decline, exertions will probably be made to plant a fair acreage the coming year. THE RECEIPTS .- The arrivals at the cotton ports for the week up to Friday last were 188,973 bales, against 134 429 bales the week before, and 105,889 bales for the corresponding time last year. At New Orleans the supplies were 42,854 bales, and 35,446 bales for the week of the year previous. The total receipts at the cotton ports from september 1, 1872, up to the latest dates, were

,563,850 bales, in contrast with 1,059,630 bale the previous year-showing an increase of 805,220 bales. The arrivals at the principal Southern ports from September 1, 1873, up to the latest elegraphic intelligence, as compared with the year before, were as follows: 1871

1,058,680 The receipts of cotton at the princical Southern markets from December 5 to December 11, 1872, inclusive, as reported by telegraph, were as fol-
