# AMUSEMENTS.

The Second Patti-Mario-Cary Concert. The second concert of the Patti-Mario Tronpe was given last evening to a large and hly appreciative audience, whose repeated encores were liberally responded to by the several artists of the company. Signor Mago was in better voice than on the previous evening. Miss Patti's superb vocalization was displayed to great advantage in the famous Echo Song, and in the Bolero from "Les Vepres Siciliennes." the sang, also, as an encore, "Within a Mile of Edinboro' Town," with much archness and expression. The matchless contralto of Miss Cary achieved its accustomed triumph; and in the duet with Signer Marlo from Trovatore, as well as in the simple and pathetic ballad, with which she afterwards responded to the enthusiastic applause of the house; she displayed all that tenderness and sympathy, as well as grace of artistic execution, which are fast making her famous in her profession. Altogether, we can commend the company as affording in its various elements an entertainment of a very high order, and in some respects of most un-

#### OUR STEVEDORE AND COTTON PRESS WORK.

Cotton for the North of Europe. There was cleared yesterday, by Messrs. Lesesne & Wells, the British bark Jerome Jones, for Amsterdam, with 2194 bales upland cotton, weighing 975,302 pounds. This vessel was loaded here and cleared November 19, 1869, with full cargo, 1917 bales upland cotton and 62 bags sea island cotton, weighing 847,346 pounds. She also cleared from Savannah April 26, 1871, with full cargo, consisting of 1970 bales upland cotten, weighing 945,857 pounds. It will thus be seen that her present cargo is larger in pounds than her former cargo from Charleston by 15 11-100 per cent., but allowing one bag sea island to take the space of one bale and a third of upland it will be a gain of 12 92-100 per cent. Her pres. ent cargo shows a gain in pounds on her Savannah cargo of over 3 11-100 per cent. The cargo of the Jerome Jones was compressed by the Charleston Hydraulic Cotton Press Company, Mr. W. H. Walker, superintendent, and was slowed by C. Michaels, stevedore.

THE CITY FATHERS.

What City Council Did Last Evening-Alderman Kenny Resigns from the Committees-Abrupt and Unpleasant Termination of the Meeting. A regular meeting of Council was held yes-

Aldermen were present.

On the call for petitions and memorials the following were presented: Petition of Mrs. C. H. Bernard for reduction of assessments. Referred to the committee on retrenchment and relief.

Petition of insurance agents, protesting against the license on insurance premiums, and calling attention to the alleged illegality of the same. The petition was accompanied by a letter from the board of underwriters, explaining that the petition could not be completed in time for the last meeting of Council, lu consequence of the meeting being held unexpectedly.

Alderman Gage moved to refer the petition to the committee on retrenchment and relief. Alderman O'Neill wanted it received as information.

Alderman Pelzer wanted to know if the netitioners objected to paying any license at all. Alderman Bowen explained that they did not object to the license of one hundred dollars for the first one thousand dollars of premiums, but to the five dollars imposed on

every additional one thousand. It was then agreed to receive the petition

as information. Petition of the Young America Steam Fire Company for five hundred feet of new hose, to be paid for in monthly instalments of twenty-five dollars, endorsed by the Board of Firemasters and recommended to be granted. Alderman Sweegan said that the ordinance regulating the pay of the Fire Department, which had recently been passed by Council, referred all such matters as supplying the deficiency of hose to the Board of Firemasters. He regarded the action of the board as evidence of a disposition to shirk the responsibillty which devolved upon them. The petition should be referred back to the board, and If they did not see fit to furnish the hose, the company could then either supply itself or turn over its apparatus to some other com-

the petition back to the Board of Firemasters, which was agreed to. Petition of Henry Miles, asking that his agreement to lease a city wharf on Ashley River, between Broad and Beaufain streets, be cancelled. Referred to the committee on

pany that would do so. He moved to refer

city lands. Memorial of the trustees of the Roper Hospital, offering to lease that building to the city for ten years or more, to be used for hospital purposes. Laid over for further consideration later in the evening.

The Mayor read a communication from the medical committee of the Board of Health. protesting against the use of city garbage in filling up low lots and streets, and asking that the ordinance permitting it be repealed. Inclosed with the communication was the draft of an ordinance on the subject, which the committee recommended for adoption. Action on the communication was postponed until the proper time for considering the ordinance. Communication of the Board of Firemasters giving the result of an election recently held for officers of the board, and asking confirmation of the nomination of Mr. W. H. Smith as third assistant chief of the Fire Department, to fill the vacancy caused by the resignation of Mr. R. D. Wnite. Received as information

and the nomination was confirmed. The return of the city sheriff for December. 1872, was read, with an appended receipt of the city treasurer for \$1994 71, and referred to

the committee on accounts. A communitation was read from the chief of police, stating that one hundred new police caps ordered for the department had ar-

rived, and asking that they be considered city property. The request was granted. Report of the physician of the City Hospital for December was read and received as in-

formation. ing the title deed of a strip of land on Friend street, recently conveyed to the city by Major

John E. Screven, was read and received as information. The petitions of Mrs. Mulvaney, T. Q. Mc Kewn, Marion Porcher, executrix of F. J.

Porcher, and James Gibbes, for remission of penalties, were granted.

The committee on retrenchment and relief reported favorably on a petition of Mrs. Mary Moody for remission of penalties, and the petition was granted.

Alderman Bowen called up the petition of the vestry and wardens of St. Philip's Church for the exemption of certain real estate from taxation and the remission of taxes and penalties levied on other pieces, which had been laid over for several months. The following report from the committee on retrenchment and relief, made upon the petition when it

was first introduced, was read: That the building at the corner of Church and Queen streets is "actually occupied and used as a charitable institution, in the nature of an asylum for infirm and indigent per sons;" and as such is expressly exempt from taxation by the constitution of 1868, Act JX ection 5. It has been exempted from taxation by the state on this ground.

As to so much of the petition as refers to the houses and lots on Glebe street, owned by

petitioners, your committee report that, according to the opinion of the city attorney, the City Council cannot exempt from taxation property which is not exempt by the constitu-ion, and petitioners admit their Glebe lands, tion, and petitioners admit their Glebe lands, generally, are not so exempt; but petitioners claim that the houses and lots on Glebe street, which constitute but a small portion of their Glebe lands, should not be taxed because the church has already paid to the city an equivalent for taxation upon this rection of its property. Although according to portion of its property. Although, according to the opinion of the city attorney, the agree-ment between the church and the city for the pening of Glebe street (which is printed perswith) is not binding upon the city, as a covenant not to tax the lands on said street, yet as the church did pay a bonus to the city n consideration of its then immunity from taxation, it seems to your committee that it would be inequitable for the city now, with-out any previous notice, to exercise the right of taxation-conferred by the constitution, subsequent to the agreement, without refunding to the church the amount paid by it in consideration of immunity from taxation, or

giving equivalent relief.
Your committee, therefore, recommend that the levy of taxes upon the houses and lots on Glebe street, owned by petitioners, shall be prospective, and that the arrears be remitted

Your committee also recommend that al penalties, for the reasons stated in petition for non-payment of taxes to date, be remit ted.

O. A. Bowen, WM, MORAN.

Alderman Gage moved that the report of the committee be agreed to, with the understand- M. S. Almar, A. R. S.; W. E. Mongin, F. S.; J ing that it was not to effect the taxes of 1872 except so far as concerned the penalties.

Alderman Sweegan moved to divide the question, and consider separately the exemption from taxation of the building at the corner of Church and Queen streets.

Alderman Pelzer-moved to adopt the report as it stood, but the vote being taken the motion was lost.

The question was then divided, and the outlding referred to first exempted, and the est of the report afterwards agreed to, with the limitations suggested by Alderman Gage. At this stage of the proceedings, Alderman Kenny stated that, in consequence of having been treated in an ungentlemanly manner by the Mayor, he had refused to serve any longer upon the committee on licenses, and heasked Holmes, Robert Houston and John W. Gordon. Falls, N Y; F Mims, Ridgeville.

leave to resign. The resignation was accept-

ed by Council. The Mayor stated that, in consequence of the resignation, Alderman Glover became

chairman of the committee. Alderman Gage stated that four estimates 'and been received by the committee on conterday afternoon, at which the Mayor and ten tracts for the office of pump contractor, but as these had not been properly prepared, and were without mentioning sureties, he moved that they be referred back to the committee to report the lowest bid, with names of sure ties, at the next meeting. Adopted.

Alderman Kenny here requested that his resignation from all other committees be also accepted. Not agreed to.

Alderman Gage stated that both the bids eceived for 1\*pairing the City Hospital, being over \$30,000, were far beyond the limit fixed by Council, and therefore could not be entertained. He had a resolution to offer in connection with the memorial from the trustees of the Roper Hospital, previously read, which he would then offer it no objections were entertained by Council.

At this point Alderman Kenny suddenly put stop to the proceedings by leaving the chamber. The Mayor sald that the quorum seing destroyed the only motion in order was for adjournment. He also stated that Alderman Kenny had taken offence because an officer had been sent to investigate the circumstances connected with two cases of exemption from license which were proposed by the alderman. He held that such was his only proper course of action, and remarked that no other members of the committee had ever objected to it. The aldermen present

seemed to sustain the action of the Mayor. Aiderman Gage asked that the messenger of Council be sent to ask the alderman to

Some alderman made a motion to adjourn, whereupon Alderman Sweegan asked that adournment be delayed for five minutes. That proposition was not agreed to, but fully as much time was consumed in discussing it and in considering the possibility of hunting up another alderman. The motion to adjourn finally prevailed, but not before all had ex pressed regret at the abrupt termination of the meeting.

[COMMUNICATED.] Or Monday afternoon the united services of this profitable season were inaugurated at the Glebe Street Presbyterian Church. The body of the house was filled. We were glad to notice that some of our prominent business | thiry cash, balance in two years. men were able to be in attendance. The exercises were introduced by the Rev. Dr. Girardeau in a brief and feeling address, suc. ceeded by Rev. John G. Drayton in fervent prayer and remarks. The Rev. J. A. Cham bliss, of the Baptist Church, and Rev. R. D. Smart, of the Methodist Church, also particl nated. Deep solemnity pervaded the congre gation as special spiritual blessings upon ou

entire community were invoked.

This impressive spectacle of the cordial union of ministers and people of all communions was again presented yesterday after noon. Notwithstanding the threatened rain the church was well filled. In the indisposition of the Rev. Dr. Wightman, the meeting was addressed by Rev. C. S. Vedder, by whom brief, appropriate address was made, as also by the venerated Rev. Dr. Smythe. Prayer was offered by clerical and lay attendants upon the services. These gatherings are characterized by peculiar interest. Special requests for prayer were presented by note, and frequently remembered by those who led at the Throne of Grace.

This (Wednesday) afternoon, at four o'clock the following subject will be presented at the Glebe street Church: Prayer for families schools, colleges and seminaries, for young people in business and professions. Rev. L H. Shuck is expected to officiate, assisted by Bev. George H. Wells, of Trinity Methodis Church. The public are earnestly invited.

### THE GROCERY TRADE GROWING. The well-known and successful wholesale

rocers and commission merchants of East Bay, Messrs. W. H. Chafee & Co., for the accommodation of their rapidly increasing business, have leased the commodious store next south of their own building. Several large doorways have been cut through the partition wall, both on the upper and lower floors, to connect the two stores. A roomy office has been separated from the store proper and handsomely fitted up; water works have been supplied to each floor, and the whole building has been overhauled and repaired from top to bottom. One of the principal features of their southernmost store is a Bates's patent elevator. This is a new expedient for raising heavy packages of merchandise. It is rendered partly self-acting by a heavy weight, enclosed in a vertical box against the wall, and attached to a stout wire cable, which passes through a pulley near the roof of the building and suspends a square wooden platform, adjusted to travel up and down a vertical rallway. This platform is furnished on either side, next to the vertical rails, with a bolt. The bolts will protrude in case of the breaking of the cable referred to, and catching upon iron stops fixed along the rails, prevent the falling o the platform. The work of putting up one of these elevators is extremely difficult, and it has hitherto been considered necessary to engage the services of a mechanic from the manufactory to have it properly done. This, however, has been proved to be unnecessary, as the elevator in question has been erected by Messrs Sawner & Ferguson, contractor and builders, and works with perfect ease and satisfaction. As might be inferred from the enlargement of their accommodations, Messrs. Chafee & Co. have largely increased their stock, and they are now prepared to exhibit one of the most extensive assortments of groceries and liquors ever seen in this city. They are also large importers of ales and porter. being agents for McEwan's sparkling Edinburg ale, Bass & Co.'s pale ale, Guinness's porter, &c.

A GOOD THING DULY APPRECIATED .- No beneficial revolution ever goes backward, and this maxim is as invariable in medicine as in politics. The advent of Hostetter's Stomach Bitters, twenty years ago, produced a revolution in the treatment of a large class of allments, and that revolution has ever since been in "the full tide of successful experiment." It that tide has borne the proprietors of the celebrated vegetable specific "on to fortune," it has also borne thousands of human beings, who were languishing under the effects of disease, weak and hopeless, out of the depths of despondency into the paradise of health and cheerfulness. ### **GUYOT'S TAR** CONCENTRATED PROOF LIQUEUR

M' Guyot has succeeded in depriving tar of its insupportable sourness and bitterness, and in rendering it very soluble. Profiting by this happy discovery, he prepares a con-centrated liqueur of tar, which in a small volume contains a large proportion of the active principle.

Guyot's tar possesses all the advantages of ordinary tar-water without any of its draw backs A glass of excellent tar-water without any disagreeable taste may be instantaneously obtained by pouring a teaspoonful into Any one can thus prepare his glass of tar-water at the moment he requires it, thus economizing time, facilitating carriage and
