The clouds that stoop from yonder sky, Discharge their ourdens, and are free; The streams that take them hasten by, To find relief in lake and ses.

The wildest wind in vales afar Sleeps, pillowed on its rufiled wings; And song, through many a stormy bar, Bears into silence on the strings.

And love o'ercomes bis young unrest, And first ambition's fight is o'er; And doubt is cradied on the breast Of perfect faith, and speaks no more.

Our dreams and passions cease to dare, And homely ratience learns her part; Yet still some keen, purs ting care Forbids content to brain and heart,

The gift, unreached, beyond the hand; The fault in all of beauty won, The mildew of the harvest land. The spots upon the ilsen sun!

And still some cheaper's rvice claims
The will that leaps to loftler call;
Some cloud is cast on splendld aims,
On power achieved some common thrall.

To spoil each beckoning victory, A thousand pigmy hands are thrust; And, round each height at ained, we see Our ether dim with lower dust.

Ah, could we breathe some peaceful air, And a leave purpose there forget, Till eager courage learn to bear The gadny's sting, the pebble's fret.

Let higher goal and harsher wav, To test our virtue, then combine i 'Tis not for idle ease we pray, But freedom for our task divine. [The Galaxy for March

Anniversaries.

Fertiligers.

### TO CUTTON

THE MARYLAND

# NO. 186 KING STREET, FERTILIZING AND MANUFACTUR

HAVE PREPARED A SPECIAL FERTILIZER ADAPTED TO THE COTTON PLANT UNDER THE NAME OF

## COTTON FOOD,

TILIZER SOLD IN THE SOUTH, EQUAL IN ITS RESULTS TO PERUVIAN GUANO AND OF MORE PERMANENT BENEFIT TO THE SOIL.

It has been used by SEVERAL HUNDRED PLANTERS in North and South Carolina and Georgia, for five seasons, with the following results:

It increases the Crop from 75 to 200 per cent. It produces a better quality of Cotton.

It resists drought in all cases. The Grop is not affected by rust.

It matures the Crop three or four weeks in advance, thus insuring against early frosts, or in the event of a backward season enables the Planter to put in his Grop as late as June 18°, with a certainty of success. The effect on the second year's Grop, without additional manure, ranges from one-third to one-half of the first year. Its mechanical preparation surpasses that of all other Fertilizers, being at all times and in all conditions of weather in perfect order for drilling.

It is sold on a basis in quality of Peruvian Guano, in equal quantities, to refund such amount as will make it equal if it falls to produce as much dotton.

The intelligent Planter will readily comprehend the nee as sty of using nothing but the highest grade of Fertilizers, and of strictly avoiding those whose value has been reduced by adulteration or the use of cheap materials under pretence of meeting the low price of Cotton.

If his Grop is only duried by the use of "COFTON FOOn." it will give him from one to two hundred per cent, profit on his outlay, with Cotton at 15 cents per pound, and enables him to plant fewer acres with a corresponding reduction of labor and expense, with better results.
