A brief telegram was received in this city yesterday by Messrs. Steinmeyer & Stokes, from Yemassee, the junction of the Savannah and Charleston and Port Royal Roads, stating that the boiler at Browning's Saw Mills, on the latter railroad, about nine miles north of Yemassee, had exploded on Monday afternoon, by which Mr. Browning was seriously injured. Verbal information, received later, represented that two colored hands employed at the mill had also been injured.

ACCIDENT AT THE FRANKLIN STREET SCHOOL.

A portion of the plastering in the assembly room of the Franklin street Public School, colored, fell down yesterday while the room was filled with pupils, slightly cutting a little girl, named Mary Glover, upon the face and hands. During the confusion which resulted, a heavy bench was overturned upon a girl named Isabella Savage, breaking her leg. She was carried to a neighboring residence and received medical attention.

THE IRISH VOLUNTEERS.

The banner borne by the Irish Volunteers in the procession on St. Patrick's day was worked for the organization in 1861 by the young ladies in the seminary of the Sisters of Mercy. They bought the material, and each one of them, with her own fair fingers, did a part of the elaborate stitching and embroideriog which made the banner so tastefully conspicuous. The banner was presented to the Irish volunteers, in the name of the dcnors, by Bishop Lynch.

THE MISTORICAL SOCIETY.

A movement is now on foot to revive the South Carolina Historical Society, which will turpenting be remembered as a valuable Charleston institution in ante-bellum days, but which, since the war, has had but a nominal existence. The only surviving officer of the society was the secretary, Professor Frederick A. Porcher, and this gentleman called a meeting a few evenings ago, at Holmes's Book House, for the purpose of reviving the organization. At that meeting Professor Porcher was unanimonsly elected president of the society, and Mr. A. Barron Holmes was chosen secretary. This society has accomplished much good in former years in collecting and preserving valuable archives of the history of South Caroline, and has published three important volumes of transactions which contain a mass former usefulness should meet with warm enconregement. Any further information that may be required as to the plan of reorganization, &c., may be obtained from the secretary, Mr. A. Barren Holmes, at the corner of King and Wentworth streets.

P. J. Barbot, and with the same voices as at the last performance, at the Hibernian Hall, to-morrow evening. This performance is generously given for the benefit of the Confederate Home, and it is expected that this lact, and the attractions of the oratorio itself, which proved sufficient to fill the Freundschaftsbund Hall to overflowing last Wednes day evening, will cause the larger hall which has now been engaged to be crowded to-morrow evening with an equally refined and appreciative audience.

The third of the very attractive series of are again to have the pleasure of hearing

Professor Miles's Lecture. The third of the very attractive series of lectures by Professor J. W. Miles will be delivered this evening at the Confederate Home on Broad street. The subject is "The imagination and fancy of Shakespeare as illustrated in the Tempest and Midsummer Night's Dream, with a comparison with the Birds of Aristophanes," and those who have heard the preceding lectures of this course will look forward to a most charming entertainment in listening to this, which is said to be among the best lectures of the course. Tickets for the remainder of the course, or for any single lecture, may be obtained at Fogartie's book store, or the price of admission (75 cents) may be paid at the door.

BUSINESS NOTICES.

A PARAGRAGH FOR DYSPEPTICS .- If you have a weak stomach, and wish to make it weaker, take violent purgations. There is no surer way to render indigestion chronic. But if you are dyspeptic, and like a sensible person, desire to strengthen your digestive organs and compel them to perform their essential duties thoroughly and regularly, take a dose of Hostetter's Stomach Bitters before every meal, until your delinquent stomach is restored to a healthy condition. It should be understood that dyspepsia is always complicated with disturbances of the liver and an unnatural state of the bowels, and that no medicine which does not reach and rectily these irregularities can possibly cure this agonizing disease. Hostetter's Stomach Bitters is an anti-billous agent and a gradual cathartic, as well as a tonic and stomachic, and hence its unparallelled efficacy in the severest cases of chronic indigestion. mch19-wfm3D&W

NATTANS CRYSTAL DISCOVERY

FOR THE HAIR,

A CLEAN, CLEAR AND HARMLESS TOILET ARTICLE, IN ONE BOTTLE For restoring to Gray or Faded Hair its original

and youthful Color, to prevent the Hair from Falling and restore its Growth, eradicate and prevent the Forming of Dandruff, and answers every pur pose as an Elegant and Healthy Dressing for the

Permit us now to direct your attention to a few remarks in explanation to the above, least you should class it with the hundreds of articles palmed off daily, which produce many serious complaints to such an extent that the press of the country has feit itself called upon to warn the public against their further use.

First. The style in which Nat'ans' Orystal Discovery is presented to the buyer is a convincing quarantce that he really gets the harmless preparation he wants.

second. The theory of its action is an equally plain, rational and convincing argument of its purity and effectiveness. By its action the roots of the hair are supplied with the principle and vitality which they need, from the very fact that the hair had begun to fail out or become gray. When the hair shows these signs of decay, it mube supplied with nourishment, in the same manner that vegetation, in want of it natural sustainer, "water," must be supplied during the heat of summer or it will wither and die. The causes are vari us, and too lengthy to be properly explain d here; but they all produce the same result, namely, falling out of the hair or its becoming gray, either of which are effectually stopped by the use of Nattans' Crystal I-1 scovery.

Third. Its composition. In this, as in its action it is based on entirely scientific principles, easily comprehended. Years of deep study and research having been devoted to its preparation the inventor flatters himself in his entire success as evidenced by the large and daily increasing

demand. These explanations must convince the most sception that this invaluable article is in no particular like the poisocous nostrums in use. That Crystal Discovery will perform a 1 its functions promptly is further proved by the mode of its introduction. Thousands of bottles have been given away gratuitously for trial, from which the most sanguine hopes have already been realized. Any one troubled with dandruff or scurf may be readily relieved in a month or two. Those suffer ing from headache will also find it a very useful cooling application. As a dressing to keep the hair clean, moist and glossy, it is unexcelled by

any other preparation now in use. We subjoin a few of the many testimonials in cur possession, the original of w. ich may be seen

at any time: WASHING ON, November 4, 1870. MR. ARTHUR NATTANS-Dear Sir: After a very thorough and impartial trial of your Crystal Discovery for a month, I feel compelled to acknowledge its very great superiority over any other article now in use for the purp se designed-the speedy restoration of the color and growth of the hair, and none using it according to directions can fail, I am convinced, to attain this much de sued result to perfec ion. The simplicity of this preparation and its entire cleanliness affords new opportunity to the vast numbers utterly di gusted with the poisonous nos:rums in use Having a large number of my personal acquaint ances who use your preparation with equal sucess, I cordia:ly recommend Crystal Discovery Office No. 20 Haynestreet. all persons desiring to use anything of this kind.

Very respectfully, P. DOYLE, No. 701 I street, N. W. No. 701 Isteet, N. W.

WASHINGTON, D. C., July 25, 1870.

MR. ARTHUR NATTANS—Dear Sir: It affords me pleasure to say that I have used your Crystal Discovery with perfect success. Having tried many others. I find your superior to any I have herefolore used, and I cannot too highly recommend it as a rapid promoter of the growth of the hair, and by a few applications restoring it to list original color. It is perfectly clean and free from any objectionable matter.

Very respectfully yours, R. W. SILVOY.
